OUR REF:

YOUR REF:

Dear Councillor

CABINET - TUESDAY, 17TH FEBRUARY, 2009

I am now able to enclose, for consideration at next Tuesday, 17th February, 2009 meeting of the Cabinet, the following reports that were unavailable when the agenda was printed.

Agenda No Item

Key Decisions CE45 and CE46 Budget 2009 - 2010 (Pages 1 - 174)

Key Decision CE48 Transitional Costs Update (Pages 175 - 180)

Treasury Management Strategy 2009 - 2010 (Pages 181 - 208)

Yours sincerely

S.Baxter
Democratic Services Officer

CHESHIRE EAST COUNCIL

Cabinet

Date of meeting: 17th February 2009
Report of: Borough Treasurer & Head of Assets
Title: Medium Term Financial Strategy – Budget Setting 2009/10

1.0 Purpose of Report

- 1.1 The purpose of the report is to demonstrate that Cheshire East Council has set a balanced budget for 2009/10 in line with its corporate priorities, to provide a summary view of the Medium Term Financial Strategy in light of the Budget Setting proposals and to inform Members of future financial pressures and risks.
- 1.2 The Financial Planning process was reported to Cheshire East Cabinet on 16th June 2008. It detailed the four stages of the process as follows:

Stage 1 – Apr to Jun 2008 – 2008-09 Baseline

Stage 2 – Jun to Sep 2008 – High Level Planning

Stage 3 – Oct to Dec 2008 – Refinement and Adjustment of Options

Stage 4 – Jan to Feb 2008 – Finalisation of 2009-10 Budget

Stages one to three are complete and this report is part of the finalisation of Stage 4. Stage four also includes the Budget consultation events that were held in January 2009, full details of which are provided in this report.

2.0 Decision Required

- 2.1 That the 2009/10 Budget as detailed in the report is recommended to Council for approval (Section 13).
- 2.2 That the draft three-year Capital Programme for 2009/10 to 2011/12 is recommended to Council for approval (Section 15 and Appendix J).
- 2.3 That a Band D Council Tax of £1,196.01 (1.14% increase, based on Crewe & Nantwich Band D for 2008/09 of £1,182.56) is recommended to Council for approval.
- 2.4 That the view of the Borough Treasurer and Head of Assets (Chief Finance Officer), regarding the level of reserves held by the Council based on this budget, is noted (Section 11).
- 2.5 That the Reserves Policy & Strategy as detailed in Section 11 and Appendix E is recommended to Council for approval.

- 2.6 That the fees and charges detailed in Section 9.2 and Appendix C are recommended to Council for approval with the exception of those prices for services and facilities where the setting of fees and charges is already delegated to other Committees, Panels or individuals, as indicated.
- 2.7 That the 2009/10 Specific Grants (excluding DSG) as detailed in Section 9.1 and specified in Appendix B are agreed.
- 2.8 That Portfolio Holders be authorised to agree any necessary amendment to particular grants within their area of responsibility in the light of further information received from Government Departments or other funding bodies.
- 2.9 That the 2009/10 Dedicated Schools Grant (DSG) of £194.101m (including central expenditure of £26.179m) and incorporating the policy proposals as specified in Appendix D and outlined Section 10 be agreed.
- 2.10 That the Children and Family Service Portfolio Holder be authorised to agree any necessary amendment to the DSG position in the light of further information received from DCSF and the actual balance brought forward from 2008/09.
- 2.11 That the results of the Budget Consultation exercises undertaken by the Council are noted (Section 12 and Appendix F).
- 2.12 That the Prudential Indicators for capital financing as detailed in Section 14 of the report are recommended to Council for approval.
- 2.13 That the risk assessment detailed in Section 17 of the report is noted.

3.0 Corporate Planning Process

- 3.1 The Cheshire East Council Corporate Plan is on the same agenda today and has been developed as an interim Plan to help the Council develop its Medium Term Financial Strategy (MTFS) and to set its Budget for 2009/10. It will be reported to Council on 24th February 2009.
- 3.2 A new Corporate Plan will be developed further during 2009/10 once the Sustainable Community Strategy and Local Area Agreement have been reviewed and agreed. The Corporate Plan will be developed into a three-year rolling plan, spanning the period 2010 – 2013. This will enable the Council to align the plan with the MTFS. The MTFS spans the same period of time as the Corporate Plan, and provides the funding for the Council to deliver its stated objectives. The objectives and priorities within the Corporate Plan will drive the MTFS and the two plans will then be developed in tandem.
- 3.3 The Corporate Plan sets out Cheshire East's strategic direction for 2009/10 and also sets out the priorities for its first year. The Council has 15 priorities that directly support the seven Community Strategy themes, and reflect our areas of responsibility:

We will enable all children and young people to fulfil their potential by:

- Promoting their safety, care and stability
- Improving their educational attainment

We will improve the wellbeing, health and care of people by:

- Encouraging healthier lifestyles
- Increasing for older and disabled people their choices and their control over the resources made available to them

We will ensure that people in local communities have a greater say about how resources are targeted in their area by:

- Devolving service provision, decision making and where appropriate budgets to create greater local choice

We will work with others to make all of our communities safer places to live, work and play by:

- Reducing crime and the fear of crime by targeting anti-social behaviour and drug and alcohol abuse
- Improving both traffic flow and road safety

We will enable people to have a good quality of life irrespective of where they live or the social or economic background by:

- Improving service provision to rural areas
- Facilitating appropriate transport for the public and service users

We will shape and maintain strong and prosperous neighbourhoods in which our residents are skilled and economically active, where businesses want to invest and where people want to visit by:

- Supporting the local economy and tourism to increase prosperity
- Improving roads and highways
- Where practical reducing the impact of the recession on both businesses and individuals

We will provide an attractive and sustainable environment which communities can be proud of by:

- Reinforcing the distinctive characteristics of our towns, villages and rural areas
- Managing waste
- Tackling climate change

Cheshire East is a brand new Council and it is essential that it 'hits the ground running' and provides high quality, cost effective services to residents and communities. In doing so it must be responsive to changing needs and increasing demands, with a view to improving value for money. This will be a priority for the Council.

- 3.4 As the MTFS is developed, recognition must be given to the importance of the Comprehensive Area Assessment (CAA) in terms of assessing the effectiveness of the Council's partnerships in service delivery. Funding is increasingly being

directed towards regional and local partnerships and this requires a different approach to the application of available resources. Further work will be undertaken to ensure that there are effective links with the development of the Local Area Agreement (LAA).

4.0 Financial Planning Process

- 4.1 Cheshire East Cabinet approved the Financial Planning Process on 16th June 2008. The Financial Planning Process has been aligned with the Corporate Planning process to ensure that budget proposals are designed to deliver the Council's Corporate Priorities as described in Section 3. The Financial Planning Process includes four stages briefly described as follows:

Stage 1 – Apr to Jun 2008 – 2008/09 Baseline

Work to disaggregate the County Council's 2008/09 Budget and to aggregate those of the District Councils was completed during this stage. This provides a notional baseline Budget for 2008/09 for Cheshire East Council and gave an indication of the scale of its financial responsibilities.

Stage 2 – Jun to Sep 2008 – High Level Planning

This stage involved making some high level planning assumptions to establish the overall financial envelope, both revenue and capital, within which the Council will need to operate and then setting financial parameters for the design of individual services. The overall financial envelope took into account factors such as inflation, government grant, Council Tax, transitional costs and any appropriation to/from reserves.

Stage 3 – Oct to Dec 2008 – Refinement and Adjustment of Options

This stage involved making any necessary adjustments to the high-level options and then undertaking detailed planning and budget modelling. This included the outcome of the grants and balance sheet disaggregation and discussions with Cheshire West & Chester. It also involved work on Fees & Charges, including harmonisation issues, and the development of the Capital Programme for 2009/10 to 2011/12. This work has been aligned with the Corporate Plan priorities. The output from this stage was detailed budget proposals which the Council consulted on in January 2009.

Stage 4 – Jan to Feb 2009 – Finalisation of 2009/10 Budget

This stage involves budget consultation, final adjustments and refinements and the setting of a balanced Budget and Council Tax for 2009-10. Budget Consultation events were held in January and targeted at Cheshire East Council's key stakeholders. The Financial Planning process is now in the final phase of Stage 4.

- 4.2 The initial financial position, identified at Stage 2, for the next three financial years i.e. the net position on the Council's General Fund if no targeted additions or reductions were made to any of the budgets was as follows:

| | |
|---------|------------------|
| 2009/10 | £15.342m deficit |
| 2010/11 | £ 5.487m surplus |
| 2011/12 | £ 3.262m surplus |

- 4.3 The table below shows a summary of the initial view of the potential funding gap for 2009/10:

| Financial Scenario 2009/10 Budget | £m |
|--|----------------|
| Financial Envelope (Council Tax/Formula Grant) | 234.774 |
| Less: Inflationary Impact, Capital Financing and Business Case Assumptions | 31.689 |
| Amount Available at Current Year Prices | 203.085 |
| Base Budget (Net of Specific Grants and Income) | 232.450 |
| Gross Funding Gap | 29.365 |
| Adjusted by: Growth Pressures, Savings, New Income and Exceptional Inflation | 14.023 |
| Net Funding Gap | 15.342 |

- 4.4 Cheshire East Cabinet set an ambitious target of £35m savings for the three-year planning period. This has addressed the funding gap in year 1 and will enable re-investment in Cheshire East's priority service areas over the three-year period. The 'Lean Systems' concept will be pursued during the Council's first year of operation to spotlight potential savings areas. Service processes will be examined to identify unnecessary procedures and work practices that add little to the service to the customer and cause inefficiencies and higher costs.
- 4.5 In addition the Cabinet has set a new income generation target of £30m over the three-year period through working closely with our partners and the business community to develop innovative projects, in the main using existing and new technologies. Although this has not yet been factored into the three-year financial scenario, work has already commenced in earnest to achieve this target through initial meetings with our partners and the identification of technological innovations that can be pursued.

5.0 Update on Cheshire County Council Disaggregation

5.1 Disaggregation of County Budget

The disaggregation of the County budget was undertaken during Stage 1 of the Financial Planning Process and was finalised at the start of Stage 2. The exercise was undertaken on a formulaic basis to establish a 2008/09 budget that could be aggregated with the Cheshire East District budgets to provide a base position for 2009/10 and for the ongoing financial scenario as part of the MTFS. This exercise did not, however, determine the budget for funding for Cheshire East. The financial envelope is determined by the disaggregation of Grant funding and the Council Tax Base for Cheshire East.

5.2 Disaggregation of County Grant Funding

The disaggregation of the County Formula Grant and Specific Grants was agreed locally, in accordance with the delegation approved at Cheshire East Cabinet on 17th July 2008, by the Department for Communities and Local Government (DCLG) deadline of 24th October 2008. This exercise is described in more detail in Section 6.2 and Section 9.1.

5.3 Disaggregation of County Balance Sheet

The County Council's assets and liabilities, as at 31st March 2009, need to be allocated to the two new Authorities on a fair, equitable and transparent basis. The balance sheet by its very nature will not be finalised until the County's accounts are closed for 2008/09 (September 2009). Hence the 2007/08 balance sheet position has been used as a basis for agreeing the principles by which the assets and liabilities will be distributed. The final balances will not be known until later, but this in itself does not affect the ability of both organisations to agree a basis of allocation.

The DCLG set out guidelines for the process, and a date for local agreement to be achieved by 31st December 2008, in the Local Government (Structural Changes) (Transfer of Functions, Property, Rights and Liabilities) Regulations 2008. This deadline was achieved and the County Finance Officer submitted a letter to DCLG on 19th December 2008 detailing the significant progress made and the work still to be completed ahead of 31st March 2009. The letter stated that both Councils are confident that a full Local Agreement will be in place prior to 31st March 2009 (or earlier) on the outstanding issues. It is anticipated that there will be little or no need for arbitration, however, if any matters were to require this facility the arrangements are in place as detailed in the report to Cheshire East Cabinet on 17th December 2008.

Local agreements have been reached on the principles to be applied to disaggregate the vast majority of the individual components of the balance sheet, including major categories such as Operational Properties (Schools, Libraries etc), Infrastructure (Roads, Bridges etc), Vehicles, Furniture & Equipment, Liabilities such as Long Term Borrowing through to Earmarked Reserves. Agreement has also been reached as to how the significant level of Debtors and Creditors associated with the County Council at 31st March 2009 will be dealt with. Cheshire West & Chester will be the nominated Council which takes responsibility for this activity.

The next meeting of the Balance Sheet Disaggregation Group will be held on 18th February 2009 to look at the finalisation of the agreement of the disaggregation of the County balance sheet in accordance with the delegation made by Cheshire East Cabinet on 6th January 2009. The meeting will be attended by the Performance & Capacity Portfolio Holders, the equivalent Members from Cheshire West & Chester Council, the S151 Officers and the relevant finance, property and legal officers. This will enable an agreement to be made ahead of

the 31st March 2009 deadline. The outcome will be reported to Cabinet once the agreement has been finalised.

6.0 Update on Council Tax and Formula Grant

6.1 Council Tax

Council Tax will be harmonised from day one to the lowest Band D level of the predecessor authorities, which is Crewe & Nantwich (£1,182.56). The Council Tax Base has increased by 1% and was approved at Council on 9th December 2008. The Council Tax Base increase has been assumed at 0.7% for 2010/11 and 2011/12.

A 1% change in Council Tax income equates to approximately £1.7m. Obviously the Council can choose to decrease or increase the Band D level, however, Members will be aware that the government has legal powers to 'cap' any Council's budget where it is considered that the level of increase is deemed to be unreasonable. In his statement on 26th November 2008 Local Government Minister John Healey stated that:

'Last year, I made clear that the Government expected the average council tax increase in 2008/09 to be substantially below 5%. The actual increase was 3.9 per cent – the lowest increase for 14 years and the second lowest ever.'

'We also kept our promise to deal with excessive increases by taking capping action against eight authorities.'

'For 2009/10 the Government again expects the average council tax in England to be substantially below 5 per cent.'

'And again, we will not hesitate to use our capping power as necessary to protect council tax payers from excessive increases.'

A recent LGA survey suggested that Council Tax is likely to rise by an average of more than 3.5%. Looking back to 2008/09 the average increase for England was 4.0%, English unitary authorities 4.0% and metropolitan districts 3.3%.

The recommended level for Council Tax for 2009/10 is well below any national average increase at a Band D level of £1,196.01. This results in an estimated Council Tax income of £172.363m for 2009/10 and the following percentage change in each area:

| | |
|------------------------------------|-----------------|
| Congleton (08/09 £1,208.09) | 1.00% decrease |
| Crewe & Nantwich (08/09 £1,182.56) | 1.14% increase |
| Macclesfield (08/09 £1,196.01) | 0.00% no change |

The proposal also includes the removal of Green Waste charges at Crewe & Nantwich. The current annual income for Green Waste charges is approximately £0.4m. This will harmonise the Green Waste policy for Cheshire East.

6.2 Council Tax Base

The Council approved the Council Tax Base to be applied in the setting of the Council Tax for 2009/10 on 9th December 2008. The gross tax base (before making an allowance for non-collection) for 2009/10 is calculated as 146,223.69. After taking into account current collection rates, a non-collection rate was set at 1.0%. This results in a tax base after an allowance for bad debts of 144,761.46. The justification for setting the collection rate at 99.0% is that this represents the best harmonised position based on the non-collection assumptions currently made by the existing Cheshire East District authorities.

6.3 Collection Fund

On 15th January 2009 the estimated balance on the Collection Fund was calculated and is expected to be a deficit of £899,818 as at 31st March 2009. The deficit has been declared and the precepting authorities have been notified of the reduction in their 2009/10 precept. The Cheshire East share of this deficit is £773,175.

6.4 Formula Grant

In July 2007 DCLG stated that its intention was to constrain the amount of Formula Grant that goes to any restructured area to the sum of the proposed formula grant for its constituent authorities. In areas where the new unitary authorities are created along sub-county boundaries DCLG suggested that the best method of splitting the formula grant, that would have gone to the County Council, is through negotiation by the shadow authorities, with help from the existing County Council. DCLG indicated that the split would then be added to the sum of the formula grant intended to go to its constituent District Councils. DCLG required the data on the split of Formula Grant to be provided no later than 24th October 2008. This ensured that the split was included in the provisional settlement for 2009/10 that was published for consultation to the usual timetable.

Cheshire East Cabinet delegated the agreement of the split of the Formula Grant to the Portfolio Holder Resources in consultation with the Leader and the other Performance & Capacity Portfolio Holders on 17th July 2008. In discussions with Cheshire West & Chester it was agreed that, where possible, the local agreement would be based on the fall back figures provided by DCLG. The final agreement included a local calculation of the Capital Financing element of the formula, based on the current estimated property split identified as part of the disaggregation of the Cheshire County Council Balance Sheet. The locally agreed formula for Cheshire East and Cheshire West & Chester was submitted to DCLG on 23rd October 2008. This resulted in Formula Grant funding for Cheshire East of £61.75m for 2009/10 and £63.487m for 2010/11. A prudent 2% increase has been projected for 2011/12, as this settlement will be part of the next comprehensive spending review.

7.0 Update of Inflationary Projections

7.1 Pay Inflation

The initial financial scenario included pay inflation of 3%. This was a prudent initial estimate of the likely pay award for 2009/10. The pay award for 2008/09 has not been settled yet but a provisional pay award based on a main increase of 2.45% has been made. Given this position, and the current economic environment, the pay inflation projection for 2009/10 has been reduced to 2.5%. The projections for 2010/11 and 2011/12 have been maintained at 3% to cover the risk of future volatility.

7.2 Pension Increase

Based on a current view of the Cheshire Pension Fund, and the expected harmonised pension contribution for 2009/10, the projected increase is £0.91m. It is expected that there will be no increase for 2010/11 and a relatively modest increase in pension costs of £0.646m in 2011/12.

7.3 Non-Pay Inflation

The initial financial scenario included non-pay inflation of 2.5%. The scenario also included exceptional inflation for key pressure areas of expenditure related to various contractual agreements e.g. Residential/Domiciliary Care, Roads Maintenance, Landfill and Household Waste contracts. This projection was made before the current economic difficulties came to light. Based on current Government inflationary expectations the main non-pay inflation projection has been reduced to 0.5%. Exceptional inflation of £3.52m has been included in the financial scenario to mainly reflect the inflationary impact of contractual obligations. The inflation projections for 2010/11 and 2011/12 have been maintained at 2.5% with provision for exceptional inflation to cover the risk of future volatility.

8.0 Capital Financing Costs

- 8.1 The capital financing budget for 2009/10 is set out in the Table below. The capital financing budget includes the following; amounts charged in respect of the repayment of outstanding debt, contributions from the income and expenditure account towards the cost of capital expenditure and the amount of interest payable on the Council's portfolio of long term loans. These budgeted costs are partly offset by the interest the Council anticipates earning from the temporary investment of its cash balances during the year.
- 8.2 The Local Government and Public Involvement in Health Act 2007 places a requirement of all councils to approve a policy on how the amount provided in respect of the repayment of debt is calculated prior to the start of the financial year concerned. The Policy for the year 2009/10 is contained in Appendix A. The budgeted provision for the repayment of debt in the year 2009/10 has been broadly calculated as 4% of the estimated outstanding debt at the end of the year 2008/09 with a small number of exceptions. These exceptions comprise capital

expenditure on capital projects that has been funded through unsupported borrowing by the Legacy Authorities.

- 8.3 The amount charged in respect of the repayment of debt is currently just above the generally accepted prudent minimum. The amount provided is also below the amount of capital expenditure being funded from borrowing in each of the next few years. As a consequence the amount of debt outstanding is increasing each year. As the level of outstanding debt increases the amount that needs to be provided for the repayment of debt in future years also increases. The aim from year two of the Medium Term Financial Strategy will be to reverse this trend.

8.4 **Capital Financing Budget 2009-10**

| | £m |
|--|---------------|
| Provision for debt repayment | 6.22 |
| Direct revenue funding | 3.05 |
| Interest on long term loans | 7.84 |
| Other interest payable | 0.21 |
| Revenue contribution from Services | <u>(4.10)</u> |
| Total Debt Repayment | 13.22 |
| <u>Less</u> Interest receivable on cash balances | <u>(0.90)</u> |
| Net Capital Financing Budget | 12.32 |

- 8.5 The amount of interest paid on the Council's portfolio of long term loans is mainly at fixed rates of interest (circa 4.9%). This provides a degree of certainty to the capital financing budget. The rate of interest payable on the £25 million of new long term loans that it is planned to raise during the year 2009-10 is budgeted to be 4.5%. Currently long term interest rates are around 4.65%. However, within the Treasury Management Strategy, the Council will use internal balances where possible to reduce the costs in the short term of external borrowing.
- 8.6 The rate of interest to be earned on the Council's cash balances that are temporarily invested pending their being used (estimated at £140 million) is budgeted to be 0.65%, depending on external cashflows and levels of inherited reserves. This compares with an original assumption in the Financial Scenario of £6.3m before interest rates started to plummet.
- 8.7 Currently the conditions in the world's money and capital markets are very uncertain. This uncertainty has prevailed for a number of months now and is likely to prevail for a long while yet. A high degree of caution therefore needs to be exercised in respect of the estimated rates of interest mentioned above. The Borough Treasurer and Head of Assets will be monitoring this position and its impact on the budget carefully throughout the year.

9.0 Update on Major Income Streams

9.1 Specific Grants

DCLG originally indicated that the disaggregation of the County Specific Grants for Cheshire East and Cheshire West & Chester would have to be agreed locally for each grant by 31st July 2008. In the event of no local agreement by this date DCLG indicated that they would implement fallback allocations. Following further discussions with DCLG recognition was given to the complexity of the exercise and the deadline was extended to 24th October 2008 in line with the deadline for Formula Grant agreement. This was agreed on the basis of the fallback position being made available by the various Government departments and local agreement in the main being based on the fallback position.

Accordingly the proposed County disaggregation of each specific grant was examined and compared with the Government department fallback calculation in order to take a view on the best way forward in each case. The proposed County disaggregations generally reflected current spending patterns and locally determined needs, whereas the Government fallback calculations were determined nationally by formulae based on the important factors for a particular grant. Specific Grants that were not from the main Government departments (e.g. Learning and Skills Council) were excluded from this exercise and are being considered separately, but the same approach is being followed.

In the majority of cases it was agreed that the Specific Grants would be split in accordance with the Government department fallback calculation. There were a small number of grants where Government departments did not provide a fallback position and therefore a local agreement was reached based on the suggested County split. For a small number of other grants it was decided that a local agreement would provide a fairer split of grant, would enable the authorities to meet their service commitments more effectively and would ensure that the value of the grant available to the two authorities collectively was maximised. Overall a roughly balanced position was reached between Cheshire East and Cheshire West & Chester, however, there are some cases where there is a disadvantage for Cheshire East. A key example of this is the grant for services for people with mental health problems.

There are a number of grants where the organisations that provide the service operate on a pan Cheshire basis. The organisations concerned are Connexions, Cheshire YOT (Youth Offending Team), Cheshire DAAT (Drug & Alcohol action Team). It was agreed that, although these Specific Grants will be disaggregated between the two authorities, they will be passported to the pan Cheshire organisations concerned.

Excluding Dedicated Schools Grant, which is dealt with in Section 10, the agreed disaggregation of specific grants to Cheshire East is as follows:

| | 2009/10 | 2010/11 |
|--|---------|---------|
| | £m | £m |
| Area Based Revenue Grants | 14.9 | 14.9 |
| Specific Revenue Grants (excluding Dedicated Schools Grant) | 66.0 | 48.6 |
| Specific Capital Grants | 19.3 | 22.9 |

9.2 Service Income and Fees & Charges

9.2.1 Income from customers is an important element of the Council's finances and contributes greatly to achieving a reasonable net Budget and Council Tax level. The sensitivity of income (e.g. to upturns or downturns in demand) is a significant factor in the risk assessment that supports our budgeting process and the determination of the appropriate level of General Fund balance.

The setting of prices for 2009/10 has been particularly challenging, in the light of current local, national and international economic circumstances. Nevertheless, the Council has been mindful of the need to harmonise pricing policies as soon as is practical and to maintain or increase income from services, to help improve budget sustainability.

9.2.2 Harmonisation

Each Borough Council has been responsible for setting its own fees and charges based on their own policies; this means that in a number of cases there were different prices for the same service provided in different areas of Cheshire East.

With regard to harmonisation, it is accepted that this is not achievable (or necessarily desirable) for Day 1, in respect of certain services. In those cases, plans are being made to achieve harmonisation over an appropriate timeframe. For example, charges for leisure activities have generally not been harmonised yet, as each Leisure Centre offers a different range of services, operates in a different geographical location and prices can be influenced by demand and local factors.

In contrast, some services, such as Licensing, are required to set prices based on the costs of providing the function, meaning that a standard scale of charges now needs to be applied across the Cheshire East area. In order to progress where necessary and/ or feasible, harmonisation has taken place in the following areas:

- Refuse Collection charges
- Pest Control fees
- Market rents
- Planning charges
- Land Charges search fees
- Bereavement Services fees and charges

- Environmental Health-related fees and charges
- Licence fees (NB. these are subject to the agreement of the Licensing Committee)

9.2.3 Price Setting

In determining fees and charges for 2009/10, the general approach has been that prices would be increased by 2.5%, unless there are other over-riding factors (e.g. effects of price harmonisation, actual or anticipated changes in market demand, changes in service design etc.). In the light of such considerations, a Scale of Fees and Charges has been prepared and is attached at Appendix C.

A number of service-specific matters are worthy of highlighting:

- **Green Waste Collection** – Congleton and Macclesfield Boroughs provided a free service, in respect of the first bin, whereas Crewe & Nantwich charged £23.00 per year – collection from the first bin will be provided free across Cheshire East, from 1 April 2009
- **Car Parking** - Crewe & Nantwich and Macclesfield Boroughs charged for car parking on most car parks whereas Congleton did not make any charges - charges will be introduced in the Congleton area during 2009/10
- **Libraries** - Fees and charges have remained the same for the last two years - for 2009/10 prices will be increased by 5% to cover the effects of inflation over that period
- **Trading Standards** – this service will operate in a joint arrangement with *Cheshire West & Chester Council* - the prices set are standard across both East and West Councils
- **Tatton Park** – The General Manager of the Park has delegated authority to set fees and charges, most of which are determined well in advance of the start of the financial year and are set within the policy framework approved by the Tatton Park Select Panel

All prices are shown at their normal rate, including VAT where applicable, unless otherwise indicated. Concessions are available in Leisure Centres to card holders and although each concessionary amount has not been shown separately, all activities to which concessions apply have been indicated.

It is recommended that the Scale of Fees and Charges as shown in Appendix C is approved, with the exception of those prices for services and facilities where the setting of fees and charges is already delegated to other Committees, Panels or individuals, as indicated.

10.0 Dedicated Schools Grant and Schools Budgets

- 10.1 The Government has announced the revised indicative allocations of the DSG for 2009-10 and 2010-11. These revised allocations update the indicative allocations for 2009-10 and 2010-11 announced in the School Funding Settlement 2008-2011 in November 2007. They are based on the Guaranteed Units of Funding for 2009-10 and 2010-11 for each local authority announced in November 2007 as

adjusted for disaggregation, but using the Department's revised projections of pupil numbers for January 2009 and January 2010 which make use of the January 2008 numbers. The guaranteed unit of funding per pupil through DSG will increase on average, nationally, by 3.7% in 2009-10 and 4.3% in 2010-11.

- 10.2 Allocations of DSG for the two year period continue to be based on the "spend plus" method, which uses authorities' historical levels of expenditure as the basis for distribution. Members may be aware that this has helped to protect Cheshire County Council's historic top-up to school funding over and above the former Formula Spending Share, the benefit of which will pass on to the new authority. However, Ministers are considering reviewing the basis for 2011-12 onwards.
- 10.3 As with previous years, final allocations for the 2009-10 DSG will depend on actual pupil numbers using the January 2009 Pupil Level Annual School Census (PLASC) and the March Early Years Census (EYC) dates. Hence, final allocations will not be known until May/June 2009. Schools must be issued with their budgets by the end of March 2009, so for planning purposes, at this stage, actual October 2008 pupil census numbers and projected early years numbers are being used. This is in preference to the numbers behind the indicative DSG allocation provided by the DCSF as historically they have been found to be over-inflated. Schools' individual budgets will be calculated using January 2009 pupil numbers.
- 10.4 It is currently estimated that there will be an under spend of £2.321m on Cheshire County Council's DSG for 2008-09. Regulations permit the carry-forward of DSG underspends and overspends to the following year, so the baseline funding needs to be adjusted to reflect the share due to Cheshire East of £1.170m.
- 10.5 The table below shows the total DSG funding available for Cheshire East for 2009-10 and 2010-11:

| | 2009-10 £m | 2010-11 £m |
|---|-----------------------------|-----------------------------|
| Baseline DSG | 192.931 | 198.441 |
| Add estimate share of underspend from 2008-09 | 1.170 | 0 |
| TOTAL DSG | 194.101 | 198.441 |

- 10.6 Consequently, the Authority is assuming DSG funding of £194.101m in 2009-10 and £198.441m in 2010-11.
- 10.7 The Minimum Funding Guarantee (MFG) increase for primary, secondary and special schools will be set at 2.1% per pupil for 2009-10, the same as for 2008-09. The MFG, whilst offering protection to schools, can sometimes restrict local authorities' ability to direct funding to schools in the way they feel best meets local needs and priorities. MFG protection for schools which should be strictly

time-limited becomes locked into formula budgets “in perpetuity”, and effectively acts as a top-slice upon all other schools. The cost of the MFG in Cheshire has increased significantly since the concept was introduced and this will need to be reviewed in the light of the new authority’s experiences. The School’s Forum has the power to make decisions over the local operation of MFG which may help to manage this situation.

- 10.8 The Authority will also have to agree the amount of central expenditure within total Schools Budgets for each financial year, which is also funded by DSG. Central expenditure covers those items which are not delegated to schools’ budgets through the funding formula, and include early years (SureStart), costs of Special Educational Needs such as Out of County placements, and education other than at school.
- 10.9 Central expenditure is cash-limited in accordance with a DCSF formula, and can normally only be exceeded with the approval of the School’s Forum. For the first financial year of Cheshire East and all new authorities, this requirement has been removed and School’s Forum approval is not necessary.

Indicative DSG Allocations for 2009-10

| | | £m |
|---|---|---------|
| 1 | Final DSG allocation 2008-09 (Outturn Prices) | 188.609 |
| 2 | Pay & Price Changes | 4.930 |
| 3 | Policy & Expenditure Proposals | (0.608) |
| 4 | Projected under spend from 2008-09 | 1.170 |
| | Estimated available DSGI | 194.101 |
| | Including : Central expenditure | £26.179 |

Note: For 2009-10 the indicative allocations of DSG above are based on a more accurate Cheshire East estimate as outlined above. Local data from the January 2009 Pupil Level Annual School Census (PLASC) should be available during February/March to further refine the estimate. However, the final DSG allocation to local authorities will not be confirmed until May/June 2009.

- 10.10 Several transfers have been made in and out of the DSG, in line with regulations from the DCSF for 2009-10. These, together with the other components of the DSG budget, have been summarised in the table above and are detailed in Appendix D and include:

- Inflation from Outturn 2008-09 to Outturn 2009-10 of £4.930m. This has been calculated on the basis of 3% for non teaching staff pay, 2.36% for teaching staff pay (actual), additional Employer’s Superannuation contributions (0.5%) and 2.5% for non-staffing costs with the exception of certain items that have been increased at specific rates as follows:
 - Rates - 5% - increased statutorily in line with September 2008 RPI

- Water – 106.4% - phased migration by United Utilities for surface water charges being based on school footprint (sq metres) rather than rateable value
- Exam fees – 10.3%
- Policy & Expenditure Proposals of - £608,000 for 2009-10. This includes:
 - Contingency of £1.424m for pupil number fluctuations. The provisional grant is based upon an estimate of pupil numbers which will not be finalised until May/June. If actual numbers are less than those used in the estimate the Council will need to fund the difference between the Unit of Funding and the Age Weighted Pupil Unit (AWPU). This can either be done by the creation of a contingency or carry forward to be funded from the 2010-11 DSG.
 - Savings arising from school amalgamations and closures to support prudential borrowing to fund an element of the Transforming Learning Community capital schemes. This is subject to the agreement of the School's Forum which is due to meet on 23rd February 2009. The position will be confirmed to Members in advance of the Council meeting.

11.0 Reserves Policy & Strategy

- 11.1 Sections 32 and 43 of the Local Government Finance Act 1992 require billing authorities to have regard to the level of reserves needed for meeting estimated future expenditure when calculating the budget requirement. Section 25 of the Local Government Act 2003 requires the Chief Financial Officer to report on the robustness of the estimates included in the budget and the adequacy of the reserves.
- 11.2 The Cheshire East Council Reserves Policy and Strategy is contained at Appendix E. When reviewing their Medium Term Financial Strategies, and preparing their annual budgets, local authorities have to consider the establishment and maintenance of reserves. These can be held for three main purposes:
- A **working balance** to help manage the impact of uneven cash flows and avoid unnecessary temporary borrowing – this forms part of general reserves
 - A **contingency** to cushion the impact of unexpected events or emergencies – this also forms part of general reserves
 - A means of building up funds, often referred to as **earmarked** reserves, to meet known or predicted liabilities
- 11.3 To assess the adequacy of unallocated general reserves when setting the budget, the Chief Finance Officer takes account of the strategic, operational and financial risks facing the authority. Setting the level of general reserves is just one of several related decisions in the formulation of the MTFs and the budget for a particular year. Account has to be taken of the key financial assumptions underpinning the budget alongside a consideration of the authority's financial management arrangements.

- 11.4 At 1st April 2009 Cheshire East Council is initially forecast to hold general reserves, after funding transitional costs, totaling £15.882m. The table below shows the anticipated position for each local authority contributing to the reserves for Cheshire East Council. County's Reserves have been split to reflect the position for Cheshire East only based on an estimated proportion pending the agreement of the Balance Sheet disaggregation position.

| | General Reserves |
|--|-------------------------|
| Contributing Authority | £000 |
| Cheshire CC | 15,142 |
| Macclesfield BC | 2,444 |
| Congleton BC | 2,446 |
| Crewe & Nantwich BC | 1,755 |
| Less Voluntary Redundancy Severance Costs (Forecast) | (5,905) |
| Total at 1/4/09 | 15,882 |

- 11.5 The Transitional Costs incurred in 2008/09 have been taken account of in the above forecast inherited position and it is also intended that Transitional Costs for 2009/10 will be met from the Cheshire East general reserves. However, contributions will be made each year to replace those reserves if required. The following table provides a forecast of the closing General Reserves balance as at 31st March 2009:

| Detail of Movements | £000 | £000 |
|---|-------------|---------------|
| Opening General Reserves at 1/4/09 | | 15,882 |
| <i>2009/10</i> | | |
| Projected Use of Reserves | | |
| - Transition Costs - Staff Relocation (Budget) | -1,400 | |
| - | | |
| - Voluntary Redundancy - Actuarial Costs (Forecast) | -1,079 | |
| | | |
| Projected Addition to Reserves | | |
| - Repayment of Transition Costs (Budget 2009/10) | 2,750 | |
| - Business Finance Loan Repayments | 392 | |
| - Repayment to Reserves (Forecast) | 2,827 | 1,742 |
| Closing Balance 31/3/10 | | 19,372 |

- 11.6 The reserves position for 2009/10, as detailed in the Table above, demonstrates the aim of Cheshire East Council to repay Transitional Costs and Voluntary Redundancy costs over the three-year planning period.
- 11.7 Following the first round of Voluntary Redundancies, which has been conducted by the existing Cheshire authorities, a further round of voluntary redundancies is

now being considered for the Cheshire East Council. The requirement for the use of reserves, in the first instance, to fund the associated costs will be carefully analysed. The pay back period will be assessed for any additional cases to ensure that, overall, the Council can replenish reserves to the required level over a three year period.

11.8 Local Authorities have previously adopted a broad principle that General Fund Reserves would be prudent if equivalent to 5% of the net revenue budget requirement. Based on current budget estimates for 2009/2010 this would equate to £11.7m rising to £12.5m for 2011/2012. However, as part of the Reserves Policy & Strategy a more detailed risk assessment has been undertaken to establish the adequate level of reserves for Cheshire East Council. Risks taken into account include the financial impacts of incidents including:

- Health and safety violations
- Other breaches of legislation
- Disruption to services as a result of fire, flood or other incidents
- Impacts of industrial action within the Council or its suppliers
- Interest rate falls or adverse changes in the general economy that are greater than as assumed when preparing the budget
- Failure of market investments
- Unforeseen service pressures
- Non-achievement of expected income levels
- Loss of external funding
- Late delivery of savings/efficiency/income generation projects

11.9 From this detailed risk assessment, a copy of which is included at Appendix E, a current minimum reserves level of £17.6m has been calculated. The risk analysis in Table 5 of Appendix E demonstrates that, because the forecast level of reserves is higher than required, the repayment to reserves of £2.827m could be reduced by £1.768m and the sum could be reinvested in line with the Council's priorities.

11.10 Earmarked reserves have also been reviewed to establish the likely opening balance for Cheshire East. For each reserve held by a local authority there should be a clear protocol setting out:

- the reason for/purpose of the reserve
- how and when the reserve can be used
- procedures for the reserve's management and control
- a process and timescale for review of the reserve to ensure continuing relevance and adequacy

11.11 The Council's earmarked reserves will be reviewed annually as part of the budgets setting process. At 1st April 2009 Cheshire East Council is anticipated to hold earmarked reserves to the value of £5.4m. It is proposed that £1.096m of earmarked reserves, no longer required for their original purpose, will be applied to investment in service areas where there may be a time lag in the delivery of efficiencies or the obtaining of funding. A key example of this is the investment of

£0.65m in the establishment of a fit for purpose Economic Development Unit that will have a big say in the economic development initiatives for the region. External funding and joint funding from partners will be sought in this area to reduce costs in the future.

- 11.12 From the evidence supporting this report and with regard to the current economic climate the Borough Treasurer & Head of Asset's (Chief Finance Officer's) assessment is that reserves levels at 1st April 2009 are within tolerance levels and can be considered adequate. I also consider them to be adequate in terms of working balances.
- 11.13 The estimates contained within the Medium Term Financial Strategy are sufficiency robust to achieve the required repayment of reserves in the medium term following transition. The Borough Treasurer & Head of Assets (Chief Finance Officer) takes this view based on the assessment of risk particularly in regard to efficiency saving assumptions within the draft 2009/2010 Budget.

12.0 Budget Consultation

12.1 Background

Cheshire East Council has recently completed its first round of Budget Consultation for the 2009-10 Budget. This followed on from the processes operated by the County and District Councils to share their budget options with stakeholder groups and meet the relevant statutory and best practice requirements.

Local authorities have a statutory duty to consult on their budget with certain stakeholder groups such as the Schools Forum. In addition other groups have also been consulted by the existing Councils including social care users/carers, Connexions, Primary Care Trusts, Local Strategic Partnerships, Police and Fire. In the case of Cheshire County Council this has taken the style of formal meetings and has been based around a document setting out draft budget and policy options.

Given the scale of the task of local government re-organisation a detailed set of Budget options has not been produced. However, the budget and service redesign process has resulted in a number of headline budget issues set in the context of the new Corporate Plan priorities and the overall ambitions of the new Authority which could be shared with stakeholders for their views.

12.2 Agreed Approach

The Cheshire East Cabinet agreed that a practical level of Budget Consultation should be adopted for 2009-10 with a series of events taking place in January. They also made a clear commitment to improve the process and involve stakeholders at an early stage in the future as an integral part of the Financial Planning Process.

All current Stakeholders were invited and advised of the approach for 2009-10. This required existing address lists to be updated and disaggregated in the case of the County.

The following Budget Consultation meetings took place in 2009:

12 January Town and Parish Councils
13 January Trade Unions as part of the Staffing Committee
14 January People and Places, i.e. User / Carers, LSP members etc
19 January Schools' Forum
20 January Business Breakfast

12.3 Consultation Material

To provide a framework for the meetings a series of documents was produced, circulated in advance of the meetings and available to delegates on the day. These took the form of:

- a general background briefing and Cheshire East profile common to all consultee groups
- a specific briefing tailored to the consultee group

A briefing document was also produced for members of the public and made available in libraries and public areas of the existing Councils' buildings. All these documents were placed on the Cheshire East Council website. The documents and website included details of how to comment on the issues.

12.4 Outcomes & Feedback

The meetings were well attended, attracting some 400 people to them. The Cheshire East Council Cabinet and Management Team were also well represented with the Leader and Chief Executive attending nearly all of the events.

The key consultation outcomes are as follows:

- Participatory budget pilot being undertaken
- 3rd Sector funding confirmed for 2009/10
- Shared Services being discussed with key partners
- Business Portal will be developed working with the Chamber of Commerce
- Initiatives to improve engagement with the local economy
- Cheshire East Council team being established to engage with the community to address the impact of the economic downturn

A summary of all the feedback is provided in Appendix F in the form of minutes of the relevant meetings / discussion groups and feedback received via the website. All delegates were asked to complete a questionnaire at the end of the meetings. The feedback from these forms has been analysed and the results are also included in Appendix F. These will be used to inform future events.

12.5 Conclusions

Cabinet Members have given a clear undertaking to improve consultation arrangements for the 2010/11 Financial Planning process and this will start early in the new Financial year.

Cabinet Members reviewed all the feedback from the events and, where possible, have factored these into their detailed budget deliberations. However, given the time and resource constraints it has not been possible to address all the issues and the debate over service levels, in light of the feedback received, will continue into 2009/10.

13.0 Financial Scenario and Budget Requirement

13.1 As part of the main three-year financial scenario a budget scenario has been built for People, Places and Performance & Capacity. Each budget scenario has been developed from the estimated 2008/09 Base Budget, the financial impact of existing authority MTFS assumptions, Business Case assumptions and exceptional inflation expectations. The scenarios also included target savings to meet the funding deficit and the longer-term reprioritisation of resources. A significant amount of work was done through the project workstreams and then the new management teams to establish a deliverable budget for each service taking account of the following key dependencies:

- The development of the Interim Sustainable Community Strategy and Corporate Plan and work with partners and stakeholders (e.g. Health)
- The HR Workstream (staff structures, aggregation and disaggregation of existing staff, appointments and severance)
- Organisation design principles and decisions
- Service design principles and decisions
- Decisions on shared services
- Parallel work with Cheshire West & Chester including grant, capital programme and balance sheet disaggregation

13.2 In order to prepare the Budget for 2009/10, and develop projections for the MTFS, a number of budget proposals were considered. A range of service re-design, improvement and efficiency options have been identified reflecting Community and Corporate objectives and particularly realising the aspirations of the *People & Places* Business Case. The main budget proposals for the two main Directorates and the Performance & Capacity services are detailed in the following sections.

13.3 People Directorate

13.3.1 The purpose of the People Directorate is to work, together with partners, to improve the wellbeing and health of all Cheshire East's residents particularly those who are most disadvantaged. To deliver this purpose the Directorate aims to ensure that people:

- Live healthy lives

- Be helped to stay safe
- Learn, develop and achieve
- Maintain personal dignity and respect
- Have increased choice and control
- Make a positive contribution
- Achieve economic wellbeing
- Experience freedom from discrimination

13.3.2 The People Directorate brings together a number of Council responsibilities to deliver these outcomes. These are structured into three Services:

- **Children & Family**
Support for schools and provision of a range of services to schools, children's social care, family support and children's safeguarding
- **Adults Services**
Commissioning and provision of Social care services for adults of all ages including adults safeguarding
- **Health & Wellbeing**
Cultural services, including libraries & arts alongside leisure strategy and provision and the Council's green spaces.

13.3.3 The Directorate will work very closely with Central and Eastern Cheshire Primary Care Trust (PCT). One of the key products of that joint work will be a common strategy between the PCT and the Council for improving health and reducing health inequalities. In developing the 2009/10 budget the Directorate has begun to consider budgetary priorities to support delivery of the targeted outcomes although there is still a great deal to do to enhance cohesion between needs, commissioning and delivery.

The People Directorate budget for 2009/10 is as follows:

| | £000 |
|------------------------------|-----------------------|
| Base Budget (**) | 128,138 |
| Net Guideline Reduction: | <u>-5,374</u> |
| Target Budget 2009/10 | <u>122,764</u> |

** The budget is net of £194m for schools, which is funded by ring fenced Dedicated Schools Grant (DSG) – see Section 10 of this report.

13.3.4 Full details of the proposals to deliver the net guideline reduction are shown in Appendix G. The key issues within the budget are assessed as follows:

Children & Family

- A need to review children's social care services in the light of inspection feedback, partner engagement and to address the inherited cost base
- Children's Safeguarding will be at the heart of this review and the Council has increased safeguarding resources
- Changes will require a managed transformation programme and the Council has provided additional funding in 2009/10 to enable time for this to happen

Adults Services

- The service is implementing major transformation in the management and delivery of adults' social care to achieve the Government's personalisation agenda which gives individuals greater control for over their own care
- The budget includes investment in re-ablement and prevention services to improve earlier intervention and better outcomes for service users
- Safeguarding resources will be increased to reflect local and national imperatives for investment in these critical services
- Managing demographic growth pressures on the budget will be an issue, particularly in learning disability services

Health & Wellbeing

- During 2009/10 the Council will review leisure services provision
- There will be a review of libraries including working with local communities to explore the potential for a wider network of local libraries
- The budget requires reductions in spending on supplies. The impact this has on service standards and income levels will need to be closely monitored
- The Service has been tasked with finding additional savings opportunities to reflect the impact of aggregating services from the outgoing councils

13.4 Places Directorate

13.4.1 The Places Directorate brings together a number of Council responsibilities. These are structured into four Services:

- **Environmental Services**
Waste, Refuse & Recycling; Highways Operations, Parking and Markets; Grounds and Cleansing services
- **Safer & Stronger Communities Service**
Community Safety; Regulatory Services (Trading Standards, Environmental Health & Licensing); Community Development
- **Planning & Policy Service**
Spatial Planning; Building Control; Development Management; Heritage and Design and Housing Strategy
- **Regeneration Service**
Strategic Highways and Transportation; Visitor Economy and Economic Development

The Places Directorate budget for 2009/10 is as follows:

| | £000 |
|------------------------------|----------------------|
| Base Budget | 57,517 |
| Net Guideline Reduction: | <u>-8,363</u> |
| Target Budget 2009/10 | <u>49,154</u> |

Full details of the proposals to deliver the net guideline reduction are shown in Appendix H.

13.4.1 Environmental Services

The 2009/10 Environmental Services net budget is £31.8m. The key areas of expenditure for 2009/10 for each service include the following:

- Waste, Refuse and Recycling will deliver the Landfill Disposal Contract, Household Waste Recycling Centre Contract, Refuse Collection service, Green Waste Collection service and Recycling Service contracts (Including green waste composting).
- Highways Operations will deliver; the Highways Term Maintenance Contract; Provision of a safe and accessible highway network; Improvement of road safety by delivering of our statutory obligations and in partnership with others; Development of a highway network management regime that is effective in scheduling essential works, planned events and traffic movements in order to promote better community connectivity and support economic activity.
- Parking and Markets will deliver the following services throughout Cheshire East; Provision, management and maintenance of cars; Provision of indoor and outdoor market facilities; Promotion of town centres by improving and maintaining the physical environment.
- Grounds & Cleansing will deliver the following services throughout Cheshire east; Provision of street sweeping; Provision and maintenance of public conveniences; Provision of both cemeteries and crematorium services; Delivery of grounds maintenance work for both internal and external customers.

The emerging budget pressures in 2009/10 for the Service, as a result of the economic downturn, will be the reduction in both car park and market income, anticipated to be in the region of £400k. In addition there are further budget pressures arising from:

- exceptional inflation on both Waste contracts (£791k), Highway road maintenance contracts (£616k)
- delivery of further savings targets against Waste Contract costs (£806k)
- Potential additional costs associated with the roll out of free of charge green waste collection service in the former Crewe and Nantwich Borough Council area (£130k)

The budget pressures will form part of a Departmental Risk Assessment and will be monitored in year and reported to members as appropriate.

13.4.2 Safer & Stronger Communities Service

The 2009/10 Safer & Stronger Communities Service net budget is £5.4m. The key areas of expenditure for 2009/10 for each service include the following:

- Ensuring that Cheshire East's statutory duty to enable successful delivery of a Crime and Disorder Partnership is met, supported through provision of both a

community warden and CCTV service to prevent and reduce crime and anti-social behaviour.

- Ensuring that Cheshire East is prepared for, and resilient to emergencies and major incidents.
- Promoting safer and stronger communities by providing high quality/high value services which help to protect and safeguard people who live and work in Cheshire, by preventing and resolving consumer problems, improving levels of business compliance and identifying and reducing consumer fraud and unfair and unsafe trading practices
- Delivering a Community Development service that works closely with communities to enhance residents' knowledge, skills and confidence to address issues that impact on them and improve their quality of life.

Emerging budget pressures in 2009/10 for the Service will be delivering within the net budget of £5.4m, which is supplemented by £169k of one off funding in 2009/10 for Regulatory Services, whilst pursuing further saving options to meet the funding reduction in 2010/11 and the associated risk of reduced service delivery in meeting those savings. The budget pressures will form part of a Departmental Risk Assessment and will be monitored in year and reported to Members as appropriate.

13.4.3 Planning & Policy Service

The 2009/10 Planning and Policy Service net budget is £3.7m. The key areas of expenditure for 2009/10 for each service include the following:

- Creating the evidence base for the statutory core of the Local Development Framework;
- Delivering the statutory Building Control and Local Planning Authority functions with the management of both Building Control and planning applications, related appeals and enforcement;
- Promoting the conservation and protection of the natural and built environment, including CE's response to the climate change and sustainability agenda; and
- Increase affordable and supported housing, the provision of homelessness services, improving private sector housing and linking these to the priorities within the Sustainable Communities Strategy.

The emerging budget pressures in 2009/10 for the Service, as a result of the economic downturn, will be the reduction in planning application and land charges income, anticipated to be in the region of £1.2m. In addition there are likely to be budget pressures arising within Private Sector Housing and the delivery of the Choice Based Lettings scheme, approximated at £98k. The

budget pressures will form part of a Departmental Risk Assessment and will be monitored in year and reported to members as appropriate.

13.4.4 Regeneration Service

The 2009/10 Regeneration Service net budget is £9m. The key areas of expenditure for 2009/10 for each service include the following:

- Develop and implement the authorities policies and investment programmes relating to highways and transportation, ensuring the safe condition of the highway asset and supporting the local bus network;
- Economic Development will work to address the current recessionary economic climate and prepare the ground for future growth through promoting inward investment, providing business support and the developing programmes to deliver area-wide regeneration schemes; and
- Support the Cheshire East visitor economy through the management of Tatton Park and partnership working to support the local economy, increase prosperity and reduce the impact of the recession.

The emerging budget pressures for 2009/10 are likely to arise from a risk of a reduction in Service delivery within the Strategic Highways and Transportation function, in the region of £430k. In addition there are likely to be budget pressures arising in the developing and promoting of high value business sectors of finance, pharmaceutical and Bio-tech, and for the delivery of the area based regeneration programmes. The budget pressures will form part of a Departmental Risk Assessment and will be monitored in year and reported to members as appropriate.

13.5 Performance and Capacity

13.5.1 The Performance and Capacity functions will provide a range of services to both internal and external customers. Revenue and Benefits and Customer Access are important outward facing services linking directly to the public; support to the rest of the Council and Members will be provided by services such as Property, ICT, Human Resources, Finance and Legal and Democratic services.

The Performance & Capacity budget for 2009/10 is as follows:

| | £000 |
|------------------------------|----------------------|
| Base Budget | 47,224 |
| Net Guideline Reduction: | <u>-11,387</u> |
| Target Budget 2009/10 | <u>35.837</u> |

Full details of the proposals to deliver the net guideline reduction are shown in Appendix I.

13.5.2 The People and Places business case projected over £10m of efficiency savings from stripping out duplication amongst support service areas, adoption of best practice and improved economies of scale. The budget proposals for the Performance and Capacity Directorate will deliver over £9.6m of these projected savings, primarily from a reduction of over 200 existing posts to release major efficiencies in the following areas:

- ICT – Over £3m of savings from streamlining existing IT systems and fully utilising technology across all services to improve processes and reduce costs.
- Finance and Revenue and Benefits – savings of over £2.3m from amalgamating and streamlining existing services and systems in the 4 existing councils.
- Human Resources – Savings of £0.9m from removal of roles duplicated in the current councils.
- Legal and Democratic Services – Savings of £1.2m reflecting the reduction in the number of elected Members and more efficient working.
- Policy and Performance – Savings of £1m on staff costs and £0.4m on supplies and services through rationalisation of existing corporate teams.

13.5.3 In addition to the savings included in the LGR Business Case, the P&C Directorate will deliver further savings of £2.6m from:

- Use of modern procurement methods including e-procurement and Framework Agreements to drive down unit costs.
- A major initiative to improve energy efficiency by eliminating waste across all sites.
- Further improvements in the use of technology including the telephone system to realise efficiency savings.
- A saving of 0.5m on existing Property Maintenance budgets.

These last three budget proposals have been identified as high risk areas to deliver in 2009/10 and have therefore been considered and factored into the Treasurer's assessment of the adequacy of the level of general reserves.

13.5.4 It is anticipated that the majority of growth pressures impacting on the Performance & Capacity functions in 2009/10 will be absorbed within existing budgets. However, an allowance for growth pressures and exceptional inflation of £1m is included in the proposals; the majority of this will be used to finance the prudential borrowing costs of new capital investment (£522,000) and growth within the Legal and Democratic services to safeguard current service levels and improve support to the Scrutiny function. In addition temporary funding of £177,000 has been provided to ensure service levels in the Customer Access service are protected during the period of transition.

13.6 The detailed budget setting exercise is now complete and the proposed 2009/10 Budget for Cheshire East Council is summarised in the table below:

| | |
|---------------------------------------|----------------|
| 2009/10 Net Budget Requirement | £m |
| Net Expenditure | 239.259 |
| Add/(Deduct) Balances/Reserves | (5.146) |
| Net Budget Requirement | 234.113 |
| Financed by: | |
| Council Tax | 172.363 |
| NNDR | 50.170 |
| Revenue Support Grant | 11.580 |
| | 234.113 |
| Deficit/(Surplus) | 0.000 |

The three-year Financial Scenario has been updated to project the likely financial position in each year based on current budget assumptions and prudent inflationary projections. The scenario reflects a modest projected surplus in 2010/11 and 2011/12. The surpluses do not include future year savings and income generation targets, which will be reinvested in the Council's Corporate Priorities. It is therefore assumed that the current projected surpluses will be used to replenish reserves if required. The three-year projection for the three-year financial planning period is:

| | |
|---------|---------------------------|
| 2009/10 | £0.000m balanced position |
| 2010/11 | £2.170m surplus |
| 2011/12 | £3.049m surplus |

14.0 Prudential Indicators for Capital Financing

14.1 Background

There is a requirement under the Local Government Act 2003 for local authorities to have regard to CIPFA's Prudential Code for Capital Finance in Local Authorities (the "CIPFA Prudential Code") when setting and reviewing their Prudential Indicators. It should be noted that CIPFA undertook a review of the Code in early 2008. The outcome from that review has yet to be published.

14.2 Estimates of Capital Expenditure

14.2.1 This indicator is set to ensure that the level of proposed capital expenditure remains within sustainable limits and, in particular, to consider the impact on Council Tax levels.

| No. 1 | Capital Expenditure | 2008-09 Approved £m | 2008-09 Revised £m | 2009-10 Estimate £m | 2010-11 Estimate £m | 2011-12 Estimate £m |
|-------|---------------------|---------------------------|--------------------------|---------------------------|---------------------------|---------------------------|
| | Total | 90 | 87 | 97 | 67 | 53 |

14.2.2 Capital expenditure will be financed as follows:

| Capital Financing | 2008-09 Approved £m | 2008-09 Revised £m | 2009-10 Estimate £m | 2010-11 Estimate £m | 2011-12 Estimate £m |
|--------------------------|------------------------------------|-----------------------------------|------------------------------------|------------------------------------|------------------------------------|
| Capital receipts | 19 | 18 | 13 | 5 | 4 |
| Capital Reserve | 5 | 4 | 2 | 3 | 3 |
| Government Grants | 30 | 29 | 44 | 42 | 31 |
| External Contributions | 5 | 4 | 6 | 0 | 0 |
| Revenue contributions | 3 | 3 | 3 | 1 | 1 |
| Supported borrowing | 19 | 17 | 13 | 13 | 13 |
| Unsupported borrowing | 9 | 12 | 16 | 3 | 1 |
| Total | 90 | 87 | 97 | 66 | 53 |

14.3 Ratio of Financing Costs to Net Revenue Stream

14.3.1 This is an indicator of affordability and highlights the revenue implications of existing and proposed capital expenditure by identifying the proportion of the revenue budget required to meet borrowing costs. The definition of financing costs is set out at paragraph 87 of the Prudential Code.

14.3.2 The ratio is based on costs net of investment income.

| No. 2 | Ratio of Financing Costs to Net Revenue Stream | 2009-10 | 2010-11 | 2011-12 |
|------------------|---|----------------|----------------|----------------|
| | | Estimate | Estimate | Estimate |
| | | % | % | % |
| | Total | 5.26% | 6.28% | 5.95 |

14.4 Capital Financing Requirement

14.4.1 The Capital Financing Requirement (CFR) measures the Council's underlying need to borrow for a capital purpose. The calculation of the CFR is taken from the amounts held in the Balance Sheet relating to capital expenditure and its financing. It is an aggregation of the amounts shown for Fixed and Intangible assets, the Revaluation Reserve, the Capital Adjustment Account, Government Grants Deferred and any other balances treated as capital expenditure.

| No. 3 | Capital Financing Requirement | 31/3/09 | 31/3/09 | 31/3/10 | 31/3/11 | 31/3/12 |
|------------------|--|----------------|----------------|----------------|----------------|----------------|
| | | Approved £m | Revised £m | Estimate £m | Estimate £m | Estimate £m |
| | Total CFR | 153 | 153 | 175 | 181 | 186 |

14.4.2 In order to ensure that over the medium term net borrowing will only be for a capital purpose, the Council should make sure that net external borrowing does not, except in the short term, exceed the Capital Financing Requirement in the

preceding year plus the estimates of any additional capital financing requirement for the current and next two financial years.

- 14.4.3 The Borough Treasurer reports that this Council does not envisage difficulties in meeting this requirement in future financial years.

14.5 Actual External Debt

- 14.5.1 This indicator is obtained directly from the Council's balance sheet. It is the closing balance for actual gross borrowing plus other long-term liabilities. This Indicator is measured in a manner consistent for comparison with the Operational Boundary and Authorised Limit.

| No. 4 | Actual External Debt as at 31/3/2008 | £m |
|-------|--------------------------------------|------------|
| | Borrowing | 136 |
| | Other Long-term Liabilities | 0 |
| | Total | 136 |

14.6 Incremental Impact of Capital Investment Decisions

- 14.6.1 This is an indicator of affordability that shows the impact of capital investment decisions on Council Tax and Housing Rent levels. The incremental impact is calculated by comparing the total revenue budget requirement of the current approved capital programme with an equivalent calculation of the revenue budget requirement arising from the proposed capital programme.

| No. 5 | Incremental Impact of Capital Investment Decisions | 2009-10 | 2010-11 | 2011-12 |
|-------|--|---------------|---------------|---------------|
| | | Estimate £ | Estimate £ | Estimate £ |
| | Increase in Band D Council Tax | 3.10 | 9.76 | 8.39 |

The increase in Band D council tax in 2009/10 reflects the increases in the provision for Capital Financing Charges of £0.45m to undertake borrowing of £31m arising from the proposed capital programme.

14.7 Authorised Limit and Operational Boundary for External Debt

- 14.7.1 The Council has an integrated treasury management strategy and manages its treasury position in accordance with its approved strategy and practice. Overall borrowing will therefore arise as a consequence of all the financial transactions of the Council and not just those arising from capital spending reflected in the CFR.
- 14.7.2 The **Authorised Limit** sets the maximum level of external borrowing on a gross basis (i.e. not net of investments) for the Council. It is measured on a daily basis against all external borrowing items on the Balance Sheet (i.e. long and

short term borrowing, overdrawn bank balances and long term liabilities. This Prudential Indicator separately identifies borrowing from other long term liabilities such as finance leases. It is consistent with the Council's existing commitments, its proposals for capital expenditure and financing and its approved treasury management policy statement and practices.

- 14.7.3 The Authorised Limit has been set on the estimate of the most likely, prudent but not worst case scenario with sufficient headroom over and above this to allow for unusual cash movements.
- 14.7.4 The Authorised Limit is the statutory limit determined under Section 3(1) of the Local Government Act 2003 (referred to in the legislation as the Affordable Limit).

| No. 6 | Authorised Limit for External Debt | 2008-09 | 2008-09 | 2009-10 | 2010-11 | 2011-12 |
|----------|---------------------------------------|----------------|---------------|----------------|----------------|----------------|
| | | Approved £m | Revised £m | Estimate £m | Estimate £m | Estimate £m |
| | Borrowing | 149 | 149 | 218 | 222 | 226 |
| | Other Long-term Liabilities | 0 | 0 | 0 | 0 | 0 |
| | Total | 149 | 149 | 218 | 222 | 226 |

- 14.7.5 The **Operational Boundary** links directly to the Council's estimates of the CFR and estimates of other cash flow requirements. This indicator is based on the same estimates as the Authorised Limit reflecting the most likely, prudent but not worst case scenario but without the additional headroom included within the Authorised Limit.
- 14.7.6 The Borough Treasurer has delegated authority, within the total limit for any individual year, to effect movement between the separately agreed limits for borrowing and other long-term liabilities. Decisions will be based on the outcome of financial option appraisals and best value considerations. Any movement between these separate limits will be reported to the future meetings of the Cabinet.

| No. 7 | Operational Boundary for External Debt | 2008-09 | 2008-09 | 2009-10 | 2010-11 | 2011-12 |
|----------|--|----------------|---------------|----------------|----------------|----------------|
| | | Approved £m | Revised £m | Estimate £m | Estimate £m | Estimate £m |
| | Borrowing | 149 | 149 | 210 | 216 | 220 |
| | Other Long-term Liabilities | 0 | 0 | 0 | 0 | 0 |
| | Total | 149 | 149 | 210 | 216 | 220 |

14.8 Adoption of the CIPFA Treasury Management Code

14.8.1 This indicator demonstrates that the Council has adopted the principles of best practice.

| | |
|--------------|--|
| No. 8 | Adoption of the CIPFA Code of Practice in Treasury Management |
|--------------|--|

| | |
|--|--|
| | The Council will consider the adoption of the CIPFA Treasury Management Code at its Shadow Council meeting on 26 February 2009 |
|--|--|

14.9 Upper Limits for Fixed Interest Rate Exposure and Variable Interest Rate Exposure

14.9.1 These indicators allow the Council to manage the extent to which it is exposed to changes in interest rates. This Council calculates these limits on net principal outstanding sums, (i.e. fixed rate debt net of fixed rate investments).

14.9.2 The upper limit for variable rate exposure has been set to ensure that the Council is not exposed to interest rate rises which could adversely impact on the revenue budget. The limit allows for the use of variable rate debt to offset exposure to changes in short-term rates on investments.

| | | 2008-09 Approved | 2008-09 Revised | 2009-10 Revised | 2010-11 Revised | 2011-12 Revised |
|---------------|---|---------------------|--------------------|--------------------|--------------------|--------------------|
| | | % | % | % | % | % |
| No. 9 | Upper Limit for Fixed Interest Rate Exposure | 100 | 100 | 100 | 100 | 100 |
| No. 10 | Upper Limit for Variable Rate Exposure | 100 | 100 | 100 | 100 | 100 |

14.9.3 The limits above are set at 100% for fixed and 100% for variable to allow the Council the necessary flexibility within which decisions will be made for drawing down new loans on a fixed or variable rate basis; the decisions will ultimately be determined by expectations of anticipated interest rate movements as set out in the Council's treasury management strategy.

14.10 Maturity Structure of Fixed Rate Borrowing

14.10.1 This indicator highlights the existence of any large concentrations of fixed rate debt needing to be replaced at times of uncertainty over interest rates and is designed to protect against excessive exposures to interest rate changes in any one period, in particular in the course of the next ten years.

14.10.2 It is calculated as the amount of projected borrowing that is fixed rate maturing in each period as a percentage of total projected borrowing that is fixed rate. The maturity of borrowing is determined by reference to the earliest date on which the lender can require payment.

| No. 11 | Maturity structure of fixed rate borrowing | Lower Limit % | Upper Limit % |
|---------------|---|----------------------|----------------------|
| | under 12 months | Nil | 25% |
| | 12 months and within 24 months | Nil | 25% |
| | 24 months and within 5 years | Nil | 35% |
| | 5 years and within 10 years | Nil | 35% |
| | 10 years and above | Nil | 100% |

14.11 Upper Limit for total principal sums invested over 364 days

14.11.1 The purpose of this limit is to contain exposure to the possibility of loss that may arise as a result of the Council having to seek early repayment of the sums invested.

| No. 12 | Upper Limit for total principal sums invested over 364 days shown as a % of the portfolio | Maturing beyond 1 year | Maturing beyond 2 years | Maturing beyond 3 years |
|---------------|--|-------------------------------|--------------------------------|--------------------------------|
| | | 40% | 40% | 40% |
| | | | | |

15.0 Capital Programme

15.1 As part of the budget setting process the Council also approves a 3-year Capital Programme. The capital planning process for Cheshire East has involved:

- a review of the schemes that the Council will inherit from existing authorities which it is committed to deliver;
- a review of the proposals that were in the Medium Term Financial Strategies of the existing authorities;
- identification of capital Transitional Costs;
- the inclusion of new priorities for Cheshire East Council.

15.2 The programme has been developed using existing Capital Programmes for the District councils of Congleton, Crewe & Nantwich and Macclesfield and disaggregation of the County's Capital Programme. The review has also taken account of the agreed distribution of capital Specific Grants and any agreements arising out of the County's Balance Sheet disaggregation.

15.3 The Capital Programme for 2009/10 amounts to £97.2m. This includes commitments arising out of the 2008/09 programme of £53.3m and additional new starts totalling £43.9m.

15.4 The discretionary element of the programme largely covers essential replacement and maintenance of the existing assets base and is funded from government borrowing allocations (supported borrowing), grants, contributions, capital receipts, revenue contributions and reserves.

- 15.5 In order to supplement the funding available for capital investment the Council can undertake Prudential Borrowing (unsupported borrowing). This is borrowing which an authority can take out, in excess of government allocations, so long as it can be shown to be both prudent and affordable. The Council will undertake Prudential Borrowing to support the Transforming Learning Communities Initiative, Extra Care Housing, Building and Highways Maintenance and various ICT initiatives. In all these cases the costs of borrowing will be funded from revenue savings.
- 15.6 A full review of the capital investment for 2009-10 has been completed to ensure that ongoing schemes and proposed new starts are in accordance with the aims and priorities of the new Council. The new starts have been supported by business cases, which have been scrutinised by officers and Portfolio Holders. This process has ensured that schemes have been considered against the following criteria:
- Corporate priorities
 - Available capital resources, pump priming and external funding
 - Benefit to all or part of the community
 - Links to value for money principles
 - Revenue consequences including staffing/repairs and maintenance costs/savings
 - Risk associated with the scheme

The Capital Programme is summarised in the table below and the detailed analysis of Capital schemes is provided in Appendix J,

Capital Programme 2009/10 - 2011/12

| | 2009-10 £000 | 2010-11 £000 | 2011-12 £000 |
|---|-----------------|-----------------|-----------------|
| People | | | |
| <i>New Starts</i> | | | |
| Children & Families | 9,789 | 16,111 | 12,606 |

| Other Revenue Contributions | 3,258 | 500 | 500 |
| Total Sources of Funding | 97,244 | 66,663 | 52,949 |

15.7 Capital Strategy

The Capital Strategy for Cheshire East will be reported to Cabinet on 24th March 2009 and to Council on 2nd April 2009 and will set out the process for developing

the Capital Programme in future years. It will ensure that the prioritisation of investment is clearly aligned to the Corporate Plan priorities, which allows for a three year Capital Programme to be developed through Service Delivery Plans.

The Capital Strategy will be drawn from the best practice of the four existing Cheshire East authorities and the latest national and regional direction in this important area of strategy. Links will also be made with the Council's other key strategies to ensure that there is a coordinated Business Planning approach to the three-year planning cycle. The Asset Management Plan will be reported alongside the Capital Strategy as this plan demonstrates the intention to deliver the Strategy through the effective management of the Council's assets. The Capital Strategy will broadly cover the following areas:

- The Policy Framework and the Corporate Priorities
- Key Partnerships
- Links to the Council's Key Strategies
- Links to Corporate Improvement Initiatives
- Approach to Prioritisation & Programme Management
- Resourcing the Capital Programme

Further prioritisation also takes place to reflect statutory requirements, health and safety issues, community consultation outcomes, invest to save or income generation possibilities. Major items of repair, maintenance and renewal are identified by the asset management process, and fed into the three-year Capital Programme. The Capital Programme is developed by this process and matched to available finance identified from the Disposal Programme and other capital resources. The process for monitoring the capital programme with officer and Member involvement will also be identified in the Capital Strategy.

16.0 Legal Implications

16.1 None.

17.0 Risk Assessment

17.1 A detailed risk assessment, including mitigation measures, has been undertaken as part of the budget setting process. The risk assessment broadly follows the risks associated with setting the levels of general reserves. The following are key areas of potential risk which have been built in to the budget assumptions:

17.2 Inflation Risk

Although the inflation forecasts are on the downside for 2009/10 the current volatility in the economy makes this a higher risk than in recent years.

Mitigating Action: Inflation forecasts will be reviewed and contract renewals will be monitored. Care has been taken with inflation projections in years two and three, the general inflation provision remains at 2.5% until a further review can be undertaken as part of the 2010/11 planning process.

17.3 Investment Risk

The failure of the Icelandic Banks, and the subsequent freezing of their assets in the UK, has demonstrated the current risk to investments. In his statement on 26th November 2008 John Healey said the following:

'Mr Speaker, turning to Icelandic Banks. Authorities are very uncertain about how much they will recover as they prepare their budgets so soon after the failure of these banks.

I therefore propose – exceptionally – to make a regulation which will mean they need not make provision in their 2009/10 budgets for any possible loss on these investments. This will give them time to adjust their medium term financial plans and be clearer about recovering their money before making decisions which affect their budgets or council tax.'

However, the possible future impact, based on the recovery of the Cheshire East share of the affected County investments, still needs to be included as a risk against the Cheshire East reserves. There is also a risk to the Council's projected investment income given the current low interest rates and the continuing downward forecast.

Mitigating Action: The Council's Treasury Management Strategy will treat exposure to risk as high priority, and estimates of investment income will remain prudent

17.4 Collection Rate Risk

The Council's collection rates for local taxation and fees & charges could suffer in 2009/10 for a number of reasons:

- Impact on individuals and businesses due to the current recession
- Revenues Service delivering transformational change to move from three Revenues systems to one system within the first financial year

Mitigating Action: Income estimates remain prudent and service transformation will be project managed to reduce impact on current high performance

17.5 Transitional Cost Risk

The risks associated with Transitional Costs have been managed closely throughout the current financial year. A management framework is in place and Cabinet has been given regular updates on the Transitional Cost position. An initial share agreement has been made with regard to the contribution from each existing Council. This is also being closely monitored to assess the affordability position in each Council.

Mitigating Action: Continue using a viable business case approach to expenditure

17.6 Grant Funding Risk

Cheshire East Council has relatively good certainty around its Specific Grant position for 2009/10 and 2010/11. However, care must be taken in placing too much reliance on Specific Grant funding for the support of core services. The risk to the availability of funding from 2011/12 needs to be considered.

Mitigating Action: Officers will be tasked with maximising the Council's options for grant funding. The Council's External Funding unit will play a key role in obtaining new and improved funding packages to contribute to the delivery of service priorities and to keep the burden on local tax payers low.

17.7 Risk to Reserves

The Reserves Policy & Strategy includes a detailed risk assessment as part of the identification of the Council's adequate level of reserves. Each of the broad risks included in this section will be translated into a financial impact to ensure that the 2009/10 Budget and the MTFS is based on a robust financial position.

17.7.1 Base Budget Risk

The establishment of a base budget for Cheshire East has been a complex and detailed exercise. There is still further work to be done as part of the refinement of the budget to ensure that each service budget has been properly identified and mapped to the Council's new structure.

Mitigating Action: Close monitoring of relevant control totals and maintaining close links between finance staff and budget managers

17.7.2 Budget Proposal Risk

Many of the budget proposals that have been identified through the budget setting process are ambitious and transformational. There are a number of risks associated with the major projects that will be required to deliver these proposals including:

- Late delivery of projects
- Non-achievement of expected cost reductions/income generation
- Availability of resources to deliver
- Impact on existing service delivery

Mitigating Action: Delivery of Oracle Financials project to deliver one Financial Management System from the Council from day one and early introduction of accurate budget monitoring processes. Strong programme management for the delivery of major budget proposal schemes.

17.7.3 Capital Programme Risk

Cheshire East Council will need to reconsider the risks associated with the existing Council capital commitments from 2008/09 and also the impact of new proposed schemes on the revenue budget. New schemes will have to be based on a business case that fully assesses the revenue impact as well as the availability of capital resources. Consideration will also have to be given to the availability of staffing resources to deliver the Capital Programme.

Mitigating Action: To embed a structured approach to awarding and monitoring funding for capital projects driven by the Capital Strategy.

18.0 Improvement, Efficiency and Value for Money

- 18.1 The Government has set a challenge for the public sector: to build on the progress already made in enhancing value for money and further embed a culture of innovation.

All public services have been set a target of achieving at least 3% net cash-releasing value for money gains per annum over 2008/09 to 2010/11.

2007 Comprehensive Spending Review

Councils will no longer have an individual efficiency target, unless agreed as one of the Local Area Agreement (LAA) targets.

- 18.2 Achievement will be monitored by a single national indicator for Value for Money, NI179. In addition to other reporting and scrutiny arrangements, Councils are now required to show the achievements in the NI179 measure on the face of Council Tax bills, to further increase public awareness and accountability; the performance of the predecessor authorities in this regard will be presented on the first Council Tax bills for Cheshire East.
- 18.3 The Government's Value for Money (VFM) Plan is developed from its National Improvement and Efficiency Strategy. The focal points of support for Councils are Regional Improvement and Efficiency Partnerships (RIEPs); these are developing and leading the implementation of Regional Strategies for achieving the national VFM efficiency targets for public services.

18.4 Value for Money in Cheshire East

The Government has stated that there is considerable potential from effective harnessing of efficiency and innovation techniques, such as smart procurement and service redesign. The reorganisation of local government in Cheshire creates a fantastic opportunity for change and the realisation of improvements and Cheshire East has the scale, capacity and commitment to deliver on this agenda.

The *People and Places* Business Case identified the scope of organisational and financial savings achievable from the creation of two new Unitary Authorities for Cheshire. In the early design of its operating structures and services, Cheshire East is realising those ideas.

As reflected in these Budget proposals, significant savings have been achieved in Corporate Management costs (from the natural process of recruitment and appointment to senior posts), in corporate support services - e.g. ICT staffing and systems costs (£3m); Finance, Revenues and Benefits staffing (£2.2m); Legal and Democratic Services staffing (£800k) - and in supplies and services (e.g. audit fees, banking charges, consultancy/advisory services, printing, publications, etc.).

Again as reflected in the Budget and our medium/long-term planning, the Council has further proposals for major service re-design (e.g. in Social Care) and in Invest to Save projects (e.g. the pan-Cheshire Waste Management Private Finance Initiative project).

Looking forward, the development of Cheshire East's Business Transformation Strategy will further inform the Council's awareness and approach to new opportunities for achieving improvement and efficiencies, through innovation.

The Council is committed to providing strong leadership and making a full contribution to the Value for Money agenda, working with colleagues and partners from all services and sectors in the local area, sub-regionally and in the Region to achieve – and where possible exceed – the efficiency targets as set, for the benefit of its taxpayers, customers and stakeholders.

19.0 Conclusion and Reasons for Recommendation

- 19.1 The report sets out a balanced budget for 2009/10 in line with the local priorities of the Council and having considered the national priorities that are required. Careful consideration has also been taken of the current economic situation and the known and possible impact on the Council's financial position.
- 19.2 The report provides an update of the Medium Term Financial Strategy (MTFS) and informs Members of future financial pressures. The MTFS ensures that the revenue budget fully supports the delivery of the Council's Corporate Priorities for 2009/10.
- 19.3 The report provides the latest update on the Dedicated Schools Grant and the budget implications for 2009/10.
- 19.4 The report presents the 3-year Capital Programme and recommends the 2009/10 capital commitments that can be delivered within the Council's available capital resources. The work that has been undertaken also ensures that the revenue budget fully reflects the revenue consequences of the approved capital schemes.
- 19.5 The report sets out the proposed level of Council Tax for 2009/10, the background to the proposal and the national context.
- 19.6 The report presents the Council's Reserves Policy and Strategy in line with the requirements of Local Authority Accounting Panel (LAAP) Bulletin 55 – Guidance Note on Local Authority Reserves and Balances.
- 19.7 The report sets out the proposed Fees & Charges for the Council. The setting of prices for 2009/10 has been particularly challenging, in the light of current local, national and international economic circumstances. Harmonisation of fees has been undertaken where practically possible.
- 19.8 The report recommends the appropriate Prudential Indicators for the Council for 2009/10.

ANNUAL MINIMUM REVENUE PROVISION STATEMENT 2009/10**Introduction**

Under 2003 Regulations¹, local authorities are required to charge to their revenue account for each year a Minimum Revenue Provision (MRP) to account for the cost of their debt in that financial year.

Debt is created where capital expenditure has been financed by borrowing or other credit arrangements (e.g. finance leases); it may be self-financed or Government-supported. Supported Capital Expenditure means expenditure taken into account by Government in the calculation of the Revenue Support Grant due to the authority.

Prior to its amendment by the 2008 Regulations², the method authorities were required to follow in calculating MRP was prescribed. For the financial year 2007/08 and subsequent years, the detailed calculation has been replaced with a requirement that local authorities calculate an amount of MRP which they consider to be “prudent”.

At the same time the Secretary of State issued guidance³ on the duty to make a prudent provision and local authorities are legally obliged to “have regard” to this guidance.

Authorities are required to prepare an annual statement of their policy on making MRP for submission to their Full Council. The aim is to give elected Members the opportunity to scrutinise the proposed use of freedoms conferred by the arrangements, following a shift in emphasis from regulations to guidance.

Meaning of “Prudent Provision”

The broad aim of a prudent provision is to ensure that debt is repaid over a period that is either reasonably commensurate with that over which the capital expenditure provides benefits, or in the case of borrowing supported by Government Revenue Support Grant, reasonably commensurate with the period implicit in the determination of that grant. The Secretary of State considers that the methods of making prudent provision include the options set out below.

For capital expenditure incurred before 1 April 2008 and incurred on or after that date if it forms part of Government-Supported Capital Expenditure:

Option 1: Regulatory Method - MRP is equal to the amount determined in accordance with the 2003 Regulations (as amended), as if they had not been revoked by the 2008 Regulations

¹ Local Authorities (Capital Finance and Accounting) (England) Regulations 2003 [SI 2003/3146, as amended]

² Local Authorities (Capital Finance and Accounting) (England) (Amendment) Regulations 2008 [SI 2008/414]

³ Guidance on Minimum Revenue Provision, issued by the Secretary of State for Communities and Local Government, under Section 21(1A) of the Local Government Act 2003, 28 February 2008

This calculation would include any technical adjustments, as statutorily required.

Option 2: CFR Method - MRP is equal to 4% of the Capital Financing Requirement (CFR), as derived from the balance sheet at the end of the preceding financial year

This produces a similar MRP charge to Option 1, but is technically simpler.

Option 3: Asset Life Method - MRP is determined by reference to the life of the asset, by equal instalment method or annuity method

MRP should commence in the financial year following the one in which expenditure was incurred, or the year following the one in which the asset becomes operational.

Option 4: Depreciation Method - MRP is to be equal to the provision required in accordance with depreciation accounting

For capital expenditure incurred on or after 1 April 2008 and which does not form part of Government-Supported Capital Expenditure, only *Options* 3 and 4 are considered prudent under the guidance issued by the Secretary of State.

Finance Leases

In the case of finance leases, the MRP is equal to the amount that goes to write down the Balance Sheet liability; thus *Option* 3 will apply in a modified form.

Policy Statement

The Council adopts the following policies in respect of calculating its annual Minimum Revenue Provision (MRP) for 2009/10 and subsequent years.

For capital expenditure incurred before 1 April 2008 and incurred on or after that date if it forms part of Government-Supported Capital Expenditure: ***EITHER Option 1 (Regulatory Method) OR Option 2 (CFR Method)*** - to be determined following a study of the aggregated position for Cheshire East

For capital expenditure incurred before 1 April 2008 and which does not form part of Government-Supported Capital Expenditure: ***EITHER Option 1 (Regulatory Method), Option 2 (CFR Method) AND/ OR Option 3: Asset Life Method*** - to be determined following a study of the aggregated position for Cheshire East and consideration of inherited practices

For capital expenditure incurred on or after 1 April 2008 and which does not form part of Government-Supported Capital Expenditure: ***Option 3: Asset Life Method*** - where MRP is charged in equal annual instalments over the estimated useful life of the asset, commencing in the financial year following the one in which expenditure was incurred, or the year following the one in which the asset becomes operational

Other approaches may be developed, but they will be fully consistent with the statutory duty to make prudent revenue provision. These may relate to large, complex or novel schemes. Legal advisors and external auditors will be consulted if significant departures from the guidance are proposed and any alternative approaches

developed will be incorporated in future annual policy statements, for approval by Council prior to application.

Reserves Policy & Strategy 2009 - 2012

Summary:

The Reserves Policy & Strategy presents information about the requirement for local authorities to maintain adequate financial reserves. It provides a statement on the reserves and balances currently held by the Councils within Cheshire East and the likely position at 31st March 2009. It sets out a risk based approach to the examination of the adequacy of reserves for Cheshire East Council for the period 2009 – 2012.

1. Relevant Information

1. The report follows guidance issued by the Chartered Institute of Public Finance & Accountancy ~ *LAAP Bulletin 55 – February 2003: Guidance Note on Local Authority Reserves and Balances*. Compliance with the guidance is recommended in the Institute's 2003 Statement on the Role of the Finance Director in Local Government.
2. The regulatory framework and role of the Chief Finance Officer are set out in Annex 1.

Types of Reserves

3. When reviewing medium term financial plans and preparing annual budgets Cheshire East Council must consider the establishment and maintenance of reserves. These can be held for three main purposes:
 - a **working balance** to help manage the impact of uneven cash flows and avoid unnecessary temporary borrowing – this forms part of general reserves
 - a **contingency** to cushion the impact of unexpected events or emergencies – this also forms part of general reserves
 - a means of building up funds, often referred to as **earmarked** reserves, to meet known or predicted liabilities
 4. **Table 1** (below) identifies the most commonly established earmarked reserves and the rationale behind why such reserves are created and maintained.
-

Table 1: All earmarked reserves should have a clear rationale

| Category of Earmarked Reserve | Rationale |
|---|---|
| Sums set aside for major schemes, such as capital developments or asset purchases, or to fund major reorganisations | Where expenditure is planned in future accounting periods, it is prudent to build up resources in advance |
| Insurance reserves | Self-insurance is a mechanism used by a number of local authorities |
| Reserves of trading and business units | Surpluses arising from in-house trading may be retained, or may have to be retained by statute to cover potential losses in future years, or to finance capital expenditure |
| Reserves retained for service departmental use | Increasingly authorities have internal protocols that permit year-end surpluses at departmental level to be carried forward |
| School Balances | These are unspent balances of budgets delegated to individual schools |

Source: CIPFA ~ LAAP Bulletin 55, 2003

5. For each reserve held by Cheshire East Council there should be a clear protocol setting out:
 - the purpose of the reserve
 - how and when the reserve can be used
 - procedures for the reserve's management and control
 - a process and timescale for review of the reserve to ensure continuing relevance and adequacy
6. When establishing reserves, Cheshire East Council needs to ensure that it complies with the Code of Practice on Local Authority Accounting in the United Kingdom and in particular the need to distinguish between reserves and provisions.

Assessing the Adequacy of Reserves

7. In order to assess the adequacy of unallocated general reserves when setting the budget, the Chief Finance Officer will take account of the strategic, operational and financial risks facing the authority. Cheshire East Council will therefore adopt formal risk management processes. The Audit Commission Codes of Audit Practice make it clear that it is the responsibility
-

of the audited body to identify and address its operational and financial risks, and to develop and implement proper arrangements to manage them, including adequate and effective systems of internal control. The financial risks should be assessed in the context of the authority's overall approach to risk management.

8. There is now a requirement for local authorities to include an Annual Statement of Governance with the statement of accounts. The Chief Finance Officer needs to ensure that the authority has put in place effective arrangements for internal audit of the control environment and systems of internal control as required by professional standards.
9. Setting the level of general reserves is just one of several related decisions in the formulation of the medium term financial strategy and the budget for a particular year. Account has to be taken of the key financial assumptions underpinning the budget alongside a consideration of the authority's financial management arrangements.
10. **Table 2** (below) sets out the significant budget assumptions that are relevant when considering the adequacy of reserves that are in addition to the issue of cashflow:

Table 2: Holding adequate reserves will depend on a number of key factors

| Budget Assumptions | Financial Standing & Management |
|--|--|
| The treatment of inflation and interest rates | The overall financial standing of the authority (level of borrowing, debt outstanding, council tax collection rates etc) |
| Estimates of the level and timing of capital receipts | The authority's track record in budget and financial management including the robustness of the medium term plans |
| The treatment of demand led pressures | The authority's capacity to manage in-year budget pressures |
| The treatment of planned efficiency savings/productivity gains | The strength of the financial information and reporting arrangements |
| The financial risks inherent in any significant new funding partnerships, major outsourcing arrangements or major capital developments | The authority's virement and end of year procedures in relation to budget under/overspends at authority and departmental level |
| The availability of other funds to deal with major contingencies and the adequacy of provisions | The adequacy of the authority's insurance arrangements to cover major unforeseen risks |

Source: CIPFA ~ LAAP Bulletin 55, 2003

11. These factors can only be assessed properly at local level. A considerable degree of professional judgment is required. The Chief Finance Officer may choose to express advice on the level of balances in cash and/or as percentage of budget (to aid understanding) so long as that advice is tailored to the circumstances of the authority for that particular year.
12. The advice has to be set in the context of the authority's Medium Term Financial Strategy and should not focus exclusively on short term considerations. Balancing the annual budget by drawing on general reserves may be viewed as a legitimate short term option. However, where reserves are to be deployed to finance recurrent expenditure this should be made explicit. Advice should be given on the adequacy of reserves over the lifetime of the Medium Term Financial Strategy.
13. The current guidance requires the purpose, usage and the basis of transactions of earmarked reserves to be identified clearly. It is recommended that a review of the level of earmarked reserves be undertaken as part of annual budget preparation.

2. General Fund Reserves

14. At 1st April 2009 Cheshire East Council is anticipated to hold general reserves totaling £15.882m. **Table 3** (below) shows the anticipated position for each local authority contributing to the reserves for Cheshire East Council in 2009.

Table 3: Cheshire County Council Reserves have been split to reflect the position for Cheshire East only

| | General Reserves |
|--|-------------------------|
| Contributing Authority | £000 |
| Cheshire CC | 15,142 |
| Macclesfield BC | 2,444 |
| Congleton BC | 2,446 |
| Crewe & Nantwich BC | 1,755 |
| Less Voluntary Redundancy Severance Costs (Forecast) | (5,905) |
| Total at 1/4/09 | 15,882 |

Source: County Finance February 2009

15. It is intended that transitional costs will be met from general reserves in 2009/2010, but that contributions will be made each year to replace those reserves. In addition the level of reserves needed will be assessed each year according to the risks facing the Authority. **Table 4** (below) summarises the current estimated movements in general reserves from 2009 to 2012:

Table 4: Reserves should be restored to an adequate level by 2010

| Detail of Movements | £000 | £000 |
|---|-------------|---------------|
| Opening General Reserves at 1/4/09 | | 15,882 |
| <i>2009/10</i> | | |
| Projected Use of Reserves | | |
| - Transition Costs - Staff Relocation (Budget) | -1,400 | |
| - Voluntary Redundancy - Actuarial Costs (Forecast) | -1,079 | |
| Projected Addition to Reserves | | |
| - Repayment of Transition Costs (Budget 2009/10) | 2,750 | |
| - Business Finance Loan Repayments | 392 | |
| - Repayment to Reserves (Forecast) | 2,827 | 1,742 |
| Closing Balance 31/3/10 | | 19,372 |
| <i>2010/11</i> | | |
| Projected Addition to Reserves | | |
| - Repayment of Transition Costs (MTFS) | 2,750 | |
| - Business Finance Loan Repayments | 278 | |
| - Contribution to Reserves (MTFS) | 2,170 | |
| - Repayment to Reserves (Forecast) | 657 | 5,855 |
| Closing Balance 31/3/11 | | 25,227 |
| <i>2011/12</i> | | |
| Projected Addition to Reserves | | |
| - Repayment of Transition Costs (MTFS) | 2,750 | |
| - Business Finance Loan Repayments | 146 | |
| - Contribution to Reserves (MTFS) | 3,049 | |
| - Repayment to Reserves (Forecast) | -222 | 5,723 |
| Closing Balance 31/3/12 | | 30,950 |

Source: County Finance ~ Financial Scenario February 2009

16. Work has recently been undertaken to assess the adequacy of these reserves within the context of the council's new Medium Term Financial Strategy, taking account of the relevant professional and technical guidance as detailed in this report. The outcome is detailed below.

General Fund Reserves - Risk Assessment

17. Local Authorities have previously adopted a broad principle that General Fund Reserves would be prudent if equivalent to 5% of the net revenue budget requirement. Based on current budget estimates for 2009/2010 this would equate to £11.7m rising to £12.5m for 2011/2012.
18. The desired level of reserves is substantiated however by a more detailed risk assessment. This approach allows the council to take account of the circumstances around current structural changes and economic circumstances.
19. Risks are categorised and potential values applied to them, the actual exposure to the risk is then considered. **Table 5** (below) shows the risk areas and the level of reserves the council should retain to mitigate that risk:

Table 5: A robust level of reserves is guided by an assessment of potential risks

| Class of Risk | Affect on budget / mitigating Action | Value of Risk Retained (£) | Class Totals (£) |
|--|--|----------------------------|--------------------|
| Health & Safety | Increased cost to reduce further risk of breach / Robust risk assessments | £100,000 | £180,000 |
| | Substantial disruption to income streams / Robust disaster recovery | £50,000 | |
| | Cost of new advertising to regain confidence / Effective Communication Plans | £10,000 | |
| | Additional advertising costs to attract staff / Employment options on standby | £20,000 | |
| | | | |
| Fire / Structural damage by flood etc | Premises not operational / Robust disaster recovery plan | £100,000 | £125,000 |
| | Budget growth to cover premiums or self insurance costs / Good claims management | £25,000 | |
| Budget Pressures | Fall of rates by 1% | £60,000 | £12,051,000 |
| | Up to 5% loss of income from fees & charges / prudent income targets, close in year monitoring | £1,000,000 | |
| | Reduced cashflow / prudent cashflow projections, sound recovery strategy | £81,000 | |
| | 2% increase in spending in People Block / lean working | £936,000 | |
| | Budgets overspend / Robust plans and monitoring of savings progress | £750,000 | |
| | Loss of the maximum value held with one institution / strong counterparty management | £2,500,000 | |
| | Heritable Bank Investment | £4,000,000 | |
| | | | |

| | | | |
|--|--|------------|--------------------|
| | Impact on opening balances / apply prudent assumptions to opening balances | £1,800,000 | |
| | Budgets overspend / Robust plans and monitoring of savings progress | £401,000 | |
| | Increase in exceptional inflation items / good contract management | £523,000 | |
| ICT & Security | Up to 10% fine on turnover / robust security processes | £468,000 | £518,000 |
| | ICT service days to repair, loss of service / robust security policies and firewalls | £50,000 | |
| Industrial relations / External organisations failure | Loss of income, costs of providing essential services or direct costs of resolution, reduced pay budget / emergency planning | £50,000 | £50,000 |
| Strategic Reserve | | £4,680,000 | £4,680,000 |
| OVERALL RISKS | | | £17,604,000 |
| % of Net Revenue Budget | | | 7.5% |

Source: Cheshire East Finance Feb 2009

20. The outcome of this analysis has been to place an estimated total value on the range of risks that may arise and which are not covered by insurance. This is equivalent in total to £17.6m.
21. The reserves position for 2009/10, as detailed in Table 4 above, demonstrates the aim of Cheshire East Council to repay Transitional Costs and Voluntary Redundancy costs over the three-year planning period. The risk analysis in Table 5 demonstrates that the repayment to reserves of £2.827m could be reduced by £1.768m and the sum could be reinvested in line with the Council's priorities.
22. A further round of voluntary redundancies is now being considered and the requirement for the use of reserves in the first instance to fund the associated costs will be carefully analysed. The pay back period will be assessed for any additional cases to ensure that overall the Council can replenish reserves to the required level over a three year period.

Adequacy of General Reserves

23. A duty of the Chief Finance Officer is to comment on the adequacy of financial reserves (see Annex 1). From the evidence supporting this report and with regard to the current economic climate my assessment is that reserves levels at 1st April 2009 are within tolerance levels and can be considered adequate. I also consider them to be adequate in terms of working balances.

24. The estimates contained within the Medium Term Financial Strategy are sufficiently robust to achieve the required repayment of reserves in the medium term following transition. I take this view based on the assessment of risk particularly in regard to efficiency saving assumptions within the draft 2009/2010 Budget.

3. Earmarked Reserves

25. At 1st April 2009 Cheshire East Council is anticipated to hold earmarked reserves to the value of £5.4m. To support key areas in the 2009/2010 Budget a further £1.096m of reserves will be earmarked by Cheshire East Council, this has already been allowed for in presenting the General Reserves position above. **Table 6** (below) therefore shows the anticipated opening balances of earmarked reserves, having allowed for balances from each contributing local authority and for further allocations by Cheshire East Council.

26. For each reserve held by a local authority there should be a clear protocol setting out:

- the purpose of the reserve
- how and when the reserve can be used
- procedures for the reserve's management and control
- a process and timescale for review of the reserve to ensure continuing relevance and adequacy

Table 6 therefore also includes a column showing the reasons/uses for each reserve:

Table 6: Earmarked Reserves can pump prime initiatives that may deliver future savings

| Description | Cheshire East Total £000 | Reason / Use |
|-------------------------------------|--------------------------|--|
| Tatton Park - accumulated surplus | 114 | Tatton Park in East |
| Insurance Reserve | 1,318 | Claims experience |
| LPSA Reserve (continuation funding) | 246 | |
| S117 Reserve | 130 | Population |
| Education All Risks | 307 | Premiums paid by schools |
| Long Term Sickness | 135 | Premiums paid by schools |
| Building Control Surplus | 329 | ring-fenced surplus (could be used to offset service deficit, if applicable) |
| Local Development Framework | 141 | Service budget balance brought forward |
| Disturbance Payments | 111 | Set aside sum covering costs from relocation of staff due to office centralisation |
| Part-time Rangers | 62 | earmarked for spending on additional hours for ranger service |
| Lottery | 10 | Balance available to match fund community |

| | | |
|---|-----|---|
| | | projects |
| Environmental Fund | 8 | Balance available to match fund community projects |
| Macclesfield Silk Heritage | 10 | Ongoing grants to Silk Museum |
| Grants Panel | 71 | Balance available to match fund community projects |
| M/S Car Park Repair | 54 | ringfenced for car parks, may however transfer to General Fund Working Balance |
| Collection Fund Discretionary Relief | 142 | Balance available to give discretionary relief on business rates |
| European Links | 8 | Balance available to match fund community projects |
| M/c Airport Partnership Fund | 6 | Balance available to match fund community projects |
| United Utilities | 60 | ringfenced for outstanding account, may be required in 08/09 |
| Childcare Vouchers | 1 | balance on account, may transfer to GF working balance |
| Job Evaluation | 300 | intended to be used to offset final protected pay in 2009/10 |
| Environmental Warranties | 188 | self-insurance for possible claims from Cheshire Peaks and Plains |
| Benefits appeals reserve | 400 | relates to Alternative Futures case, still needs to be reserved |
| Building Control | 376 | ring-fenced surplus (could be used to offset service deficit, if applicable) |
| Business development land acquisition (LABGI-funded) | 250 | approved for capital project financing |
| Crewe town centre development transitional shortfall (LABGI-funded) | 219 | earmarked to cover costs and income shortfalls (car parks etc.) during Crewe town centre re-development |
| Capital investment reserve (LABGI-funded) | 164 | approved for financing various capital projects |
| Single status/ job evaluation | 150 | intended to be used to offset final protected pay in 2009/10 |
| Markets - Disturbance costs/ new stalls (LABGI-funded) | 150 | intended for spending during and after Crewe town centre re-development |
| Economic & physical development projects (LABGI-funded) | 60 | approved for strategy development/ business promotion initiatives |
| Queens Park - Boats/ equipment/ facilities | 52 | intended to purchase items following completion of Park restoration |
| Insurance reserve | 50 | to be assimilated into CE self-insurance reserve |
| Safer Communities - PCSOs | 46 | earmarked for PCSOs/ ASB Co-ordinator commitments |
| Crewe Business Park - Marketing Office rent | 46 | approved for repairs/ costs in the event of transfer of management of Park |
| Cumberland pitch renewal (CNBC share) | 31 | following major investment, using annual additional surplus to build a fund to renew in future |
| Community Wardens - Fixed penalties income | 24 | ring-fenced for improving cleanliness of public spaces |
| Safer Communities - Alley gates maintenance | 20 | intended for maintenance of gates, following capital-funded installations |

| | | |
|--|--------------|--|
| Treasury - Temporary staff | 20 | will be used to cover temp staff for closure of 2008/09 Accounts |
| Environmental Protection Act | 14 | intended for environmental emergency response situations |
| Total | 5,823 | |
| Further Reserves to be created for Cheshire East* | | |
| Economic Development | 650 | To provide capacity for statutory and development requirements in 2009/2010 |
| Community Safety | 109 | To provide additional capacity in 2009/2010, which will enable invest to save options to be adapted for future years |
| Local Development Framework | 100 | To provide additional capacity in 2009/2010 only |
| Trading Standards | 60 | To protect against possible shortfall in essential service during 2009/2010 |
| Customer Access | 177 | To maintain service levels in 2009/2010 and allow development of invest to save options |
| Total | 1,096 | |

Source: Cheshire County & District Finance Jan 2009

*it should be noted that these additional earmarked reserves have been allowed for when stating the General Reserves position for the 2009/2010 Budget

27. Earmarked reserves have the effect of transferring the tax burden across financial years as current taxpayers' funds are being used to support future years' spending. It is therefore recommended that the Council's earmarked reserves are subject to annual review as part of the budget-setting process to ensure that they are still appropriate, relevant and adequate for the intended purpose.

 Crewe & Nantwich Borough Council
 Macclesfield Borough Council

Annex 1

Protocol & Controls

The Existing Legislative/Regulatory Framework

Sections 32 and 43 of the Local Government Finance Act 1992 require billing and precepting authorities in England and Wales to have regard to the level of reserves needed for meeting estimated future expenditure when calculating the budget requirement.

There are three significant safeguards in place that militate against local authorities over-committing themselves financially:

1. The balanced budget requirement
2. Chief Finance Officers' S114 powers
3. The External Auditor's responsibility to review and report on financial standing.

The balanced budget requirement is reinforced by section 114 of the Local Government Finance Act 1988 which requires the Chief Finance Officer to report to all the authority's councillors if there is or is likely to be unlawful expenditure or an unbalanced budget. This would include situations where reserves have become seriously depleted and it is forecast that the authority will not have the resources to meet its expenditure in a particular financial year. The issue of a section 114 notice cannot be taken lightly and has serious operational implications. The authority's full council must meet within 21 days to consider the S114 notice and during that period the authority is prohibited from entering into new agreements involving the incurring of expenditure.

While it is primarily the responsibility of the local authority and its Chief Finance Officer to maintain a sound financial position, External Auditors have a responsibility to review the arrangements in place to ensure that financial standing is soundly based. In the course of their duties External Auditors review and report on the level of reserves taking into account their local knowledge of the authority's financial performance over a period of time. However, it is not the responsibility of auditors to prescribe the optimum or minimum level of reserves for individual authorities or authorities in general.

The Role of the Chief Finance Officer

It is the responsibility of the Chief Finance Officer to advise local authorities about the level of reserves that they should hold and to ensure that there are clear protocols for their establishment and use. There is no statutory minimum.

Local authorities, on the advice of their Chief Finance Officers, are required to make their own judgements on the level of reserves taking into account all the relevant local circumstances. Such circumstances vary. A well-managed authority, for example, with a prudent approach to budgeting should be able to operate with a relatively low level of general reserves. There is a broad range within which authorities might reasonably operate depending on their particular circumstances.

Good Governance

It is important that Members take responsibility for ensuring the adequacy of reserves and provisions when they set the budget. CIPFA recommend that the respective roles of officers and Councillors in relation to reserves should be codified locally and given due recognition in the Constitutions. This codification should:

- state which council bodies are empowered to establish reserves
- set out the responsibilities of the Chief Finance Officer and Councillor – or group of Councillors – responsible for finance
- specify the reporting arrangements

A New Reporting Framework

The Chief Finance Officer has a fiduciary duty to local taxpayers, and must be satisfied that the decisions taken on balances and reserves represent proper stewardship of public funds.

The level and utilisation of reserves will be determined formally by the Council, informed by the advice and judgement of the Chief Finance Officer. To enable the Council to reach its decision, the Chief Finance Officer should report the factors that influenced his or her judgement and ensure that the advice given is recorded formally. Where the advice is not accepted this should be recorded formally in the minutes of the council meeting.

CIPFA recommended that:

The budget report to the Council should include a statement showing the estimated opening general reserve fund balance for the year ahead, the addition to/withdrawal from balances, and the estimated end of year balance. Reference should be made as to the extent to which such reserves are to be used to finance recurrent expenditure this should be accompanied by a statement from the Chief Finance Officer on the adequacy of the general reserves and provisions in respect of the forthcoming financial year and the authority's medium term financial strategy a statement reporting on the annual review of earmarked reserves should also be made at the same time to the Council. The review itself should be undertaken as part of the budget preparation process. The statement should list the various earmarked reserves, the purposes for which they are held and provide advice on the appropriate levels. It should also show the estimated opening balances for the year, planned additions/withdrawals and the estimated closing balances.

Cheshire East Council Budget Consultation 2009-10
Minutes of Town and Parish Councils Event – 12th January 2009

Cheshire East Council Councillors:

Councillor W Fitzgerald
 Councillor F Keegan
 Councillor D Brown
 Councillor R Domleo
 Councillor B Silvester

Parish and Town Council Representatives:

| | |
|-----------------------|----------------------------|
| John Kemble | Audlem PC |
| Jean Batchelor | Betchton PC |
| Bill Brown | Betchton PC |
| Jackie Potts | Congleton TC |
| Lesley Smetham | Gawsworth PC |
| Malcolm Nicholls | Goostrey PC |
| Richard Harvey | Haslington PC |
| Philip Jackson | Haslington PC |
| Duncan Brock | Henbury PC |
| Mike Wootton | Henbury PC |
| Councillor M Hosker | High Legh PC |
| Councillor J Tuck | High Legh PC |
| David Cowgill | Holmes Chapel PC & Cranage |
| Matthew Jackson | Knutsford TC |
| John Gregg | Marbury & District PC |
| Geraint Jones | Marbury & District PC |
| Lucy Nixon | Marton PC |
| David Woolliscroft | Marton PC |
| Councillor T Hunt | Odd Rode PC |
| Councillor S Robinson | Odd Rode PC |
| Ron Sherwin | Odd Rode PC |
| Charles Gorst | Poynton PC |
| Brian Hogan | Poynton PC |
| Councillor L Burns | Prestbury PC |
| Ken Butler | Rainow PC |
| Bob Squirrel | Rope PC |
| Ann Banks | Sandbach TC |
| Councillor P Darnes | Sandbach TC |
| Councillor B Moran | Sandbach TC |
| Liz Allcock | Warmingham PC |
| Councillor N Higson | Warmingham PC |
| Councillor G Cook | Weston & Basford PC |
| Councillor J Cornell | Weston & Basford PC |

Officers:

| | |
|------------------|--|
| Erika Wenzel | Chief Executive – Cheshire East Council |
| Lisa Quinn | Borough Treasurer & Head of Assets – Cheshire East Council |
| Kirstie Hercules | Local Strategic Partnerships – Crewe & Nantwich Borough Council |

Cllr Fitzgerald welcomed representatives from the Town and Parish Councils and introduced the speakers.

Erika Wenzel presented an overview of Cheshire East Council setting out the background, progress to date and vision of the new authority. This included the proposals for Neighbourhood Working and the Local Strategic Partnership. Cllr Keegan set out the aims and objectives of the consultation process and the future plans for Cheshire East including the devolvment of services to Town and Parish Councils.

Lisa Quinn provided an overview of the financial scenario for Cheshire East Council and the plans for the 2009-10 budget and Council Tax levels. Summary information was provided on the budget proposals for People, Places and Performance and Capacity.

Questions from the Town and Parish Council representatives were invited from Cllr Keegan.

Poynton PC – Will the devolution of services to Town and Parish Councils involve the transfer of operational budgets only or will there be some allocation for overhead costs?

Cllr Keegan responded that where Parish Councils take on additional responsibility they will receive the relevant budget to deliver that service. The overall aim is to achieve efficiencies, particularly on overhead costs so these will remain centralised. Parish Councils will receive what is deemed to be a 'fair' amount to run the service.

Goostrey PC – Devolved services will require more commitment from Parishes and it is increasingly difficult to find representatives for Finance Committee meetings. The Parishes will therefore require additional support from Cheshire East Council.

Cllr Keegan explained the consultation process that is currently taking place with Town and Parish Councils and invited representatives to view the maps available at the back of the room. The areas for neighbourhood working are currently in draft and trials are being discussed as part of the consultation process. He understood that not all parishes will want to take on additional service provision.

Haslington PC – Parish Councils will not want the additional management responsibility of taking on staff etc.

Cllr Keegan replied that the Council is not planning to pass on service delivery to Parishes who do not want it and full support would be given from the centre in respect of finance, human resources and legal services.

Holmes Chapel PC – Should the consultation on the grouping of Parish Councils have taken place before the consultation on the budget.

Cllr Keegan stated the consultation process started in early December with Cllr Brown and the Chief Executive therefore some parishes have already had some involvement.

Knutsford TC – Would this mean some parishes take on delivery of services outside their Parished area.

Cllr Keegan confirmed this would be the case and explained that this would be worked out through the pilot exercises.

Cllr Brown provided further information on the consultation process on neighbourhood and area working and encouraged representatives to get involved in the future meetings. The consultation process is to decide how services can best be provided and services will only be devolved if that is the decision of the Parish Council. It will not be forced on them.

Poynton PC – How is the issue of double taxation being dealt with.

Lisa Quinn explained that this will be taken forward and examined in more detail. Cheshire East Council will either provide the resources to the Parish providing the service or take the service back therefore eliminating the instances of double taxation.

Betchton PC – Will the website hosting facility operated by Cheshire County Council continue.

The Chief Executive confirmed that the service would continue to be provided by Cheshire East Council.

Betchton PC – Information was requested on the cost of providing the Budget Consultation events.

Lisa Quinn confirmed that details would be provided.

High Lea PC – Cllr Hosker thanked the panel for the detailed information provided but stated that the Parish had not heard anything since July 2008 and there had been no Cheshire East Member representation at High Lea meetings.

Cllr Fitzgerald explained that the process has only just commenced and will be ongoing over several years. Meetings have taken place during December with Cllr Brown and will continue.

Marton PC – Many parishes are made up of small villages in rural areas who will not want to take on devolved responsibilities.

The panel explained that the smaller parishes will form part of a Local Area Partnership, which could consist of say 15 in one area. This will mean a Parish taking on services on behalf of others and providing them across the whole partnership area.

Henbury PC – What will happen on Day 1 regarding the delivery of services, for example, refuse collection.

The Panel confirmed that services will continue as normal from Day 1 but from a unitary council rather than district and county. The service users should not see any changes. He pointed out that the contact numbers may change and they would try to ensure any such information was circulated widely in advance. Refuse collection is not a service that would be devolved.

Cllr Fitzgerald explained that change was an evolutionary process and would continue following dialogue with the Parish and Town Councils.

Information was requested on the directorship of Cheshire East Council and which services they were responsible for.

The Chief Executive confirmed that the new structure charts will be available on the website.

Odd Rode PC – Cllr Robinson requested details of the plans for Cheshire East Council and how it is managing the change process.

The Chief Executive explained that the plans are in place and are progressing. The Council has to report to the Department for Communities and Local Government and the Audit Commission on a regular basis. The Cabinet reports contain details of the planning process and progress to date and are available on the Cheshire East Council website: www.cheshireeast.gov.uk

Poynton PC – What procedures will be in place for the devolvment of services and what are the existing costs.

Cllr Keegan explained that Poynton will be one of the trial areas and will be informed of the available resources.

Rainow PC – How will the Local Area Partnerships work and will the increased role of Town and Parish Councils be recognised?

Cllr Brown explained that Cheshire East Council will have 81 members who will represent an area and belong to a Local Area Partnership. The aim is to work in new ways to provide benefits to the local area and all parishes will have an elected representative on Cheshire East Council.

Warmingham PC – If the Parish have three representatives on the Council whom should they use.

The Panel confirmed they can use any one or all of their representatives on the Council and can invite their Cheshire East Council representatives to Parish meetings. One Parish Council confirmed that a Shadow Councillor had attended every meeting and noted that they may need to be invited.

Betchton PC – The parishes can currently request a loan from the District Council if they have unexpected expenditure during the year, will this continue.

Cllr Keegan confirmed that this would continue.

Poynton PC – The Chief Executive has a major role in the creation and transformation of Cheshire East Council, how will this be achieved.

The Chief Executive explained her background and experience from working in Tameside where she devolved £12m - £13m of services to Town and Parish Councils.

Marbury PC – Information was requested on Cheshire East Council's plans for road improvements.

The Panel responded that the Council's objectives are to reduce costs and operate more efficiently enabling them to put money back into front line services such as roads. However, this would take time to implement.

Knutsford TC – The Town Council would welcome more devolved functions and requested that the consultation is extended to involve more Town and Parish Councils to make them bigger and better.

Cllr Brown explained that the next round of meetings on the Local Area Partnerships will give the representatives the opportunity for further discussion and the first meeting is set for 20th January.

Information on the events and Local Area Partnerships was requested as not all parishes have web access.

Cllr Brown confirmed that the parishes would receive information in the post.

Henbury PC – Why has Cheshire East Council gone for Borough Status.

Cllr Keegan explained that the County's Aldermen could continue into the new Council. However, the Freemen from the District's could not be taken into the new Council if it did not have Borough status. Therefore, a successful application had been made.

Sandbach PC – Information was requested on participatory budgeting.

Lisa Quinn reported that pilots were taking place across the country and Cheshire East Council would look into the outcomes.

Conclusion

Cllr Fitzgerald summed up the evening and thanked the Town and Parish Council representatives for their participation.

13th January 2009 – Trades Unions – Notes

Budget 2009/10 & Medium Term Financial Strategy

- The People & Places consultation document was distributed to the Staffing Committee and the Union representatives along with a specific brief.
- The Borough Treasurer and Head of Assets provided an update based on the Medium Term Financial Strategy that was reported to Cabinet on 17th December 2008.
- The Union representatives were not willing to treat the budget session as a consultation exercise. They would only accept it as a briefing session.
- The information provided was welcomed as far as it went.
- The Union representatives requested more detailed consultation, ahead of the finalisation of the budget, on structures and budget proposals.
- The Borough Treasurer and Head of Assets indicated that it would be difficult to provide the level of detail that the Unions would wish to see and also that it would be difficult to fit in another joint meeting within the timescale.
- She suggested that the best way to try to accommodate the request was to use existing individual meetings with managers and that where existing meetings were not taking place arrangements would be made as soon as possible.

Annex C (i)

Cheshire East Council Budget Consultation 2009-10
People and Places Event – 14th January 2009

Minutes of Discussion Group 1 – Social Care Services

| | | |
|-----------------|-------------------------------|-----------------------------|
| Facilitator: | John Weeks | Strategic Director (People) |
| Co-Facilitator: | Ceri Harrison Paul Goodwin | Head of Transformation |

John described the Council's Social Care Services and related budget issues:

Children and Family Services

- Schools are funded from Dedicated Schools Grant (DSG), a ring-fenced grant allocated from Government
 - Some schools have built up balances – the formation of “clusters” of schools is an initiative aimed at driving up standards and encouraging improved engagement with communities
 - Cheshire East has a role in shaping the development of schools and use of DSG, including its use in supporting children's and family services
- Social care for children is a high profile service and has a number of issues and challenges
 - Cheshire East will inherit a substantial budget overspend, due to the demand for services for “looked-after” children
 - Foster carers are moving on and new carers are difficult to recruit (a question was asked on the funding of private sector fostering agencies and the associated problems of retention and resources were noted)
- An Interim Head of Children's Services has been appointed
 - Barbara Hughes will review services and take a radical look at improving quality and addressing budget pressures

Adult Services

- There are considerable budget savings to be made
- The solution is largely in the Redesign of Adult Social Care Services, eliminating waste and simplifying processes; there is a clear vision:

- Personalisation – allowing greater choice and control for customers on how their care funds are spent
- Lean systems – ensuring every process adds value to the service outcome (e.g. significantly reducing steps in assessment process)
- Local working – Ensuring local teams are aligned to be more responsive to people's needs
- Rationalising management structures – notably in respect of provider services

Question: Questions were asked on the “corporate parent” role of local Councillors with regard to Looked-After children and the plans for changing the way we care for them and improve their educational attainment.

Response: It was noted that all Councillors are “corporate parents”, each having the responsibility of being a champion for every Looked-After child. Training for Councillors, to acquaint them with their new role would be important. Reference was made to Frank Dobson's letter to all Councillors, setting out the Government's expectations of their role, in relation to the care and welfare of children. Reference was also made to the Government's “Narrowing the Gap” initiative, in respect of improving the educational attainment of disadvantaged pupils relative to others in the community. It was noted that despite efforts the gap had not narrowed significantly so far and that targeted approaches in schools would aim to add value (as incorporated within Local Area Agreement).

Question: Questions were asked on working in partnership, with voluntary sector groups (e.g. those supporting people with disabilities) and with the Police service.

It was noted that the Police service has an interest in prevention, education and safeguarding policies and is keen to be a partner in children's social care.

Response: It was mentioned that a Children's Trust for Cheshire East would be set up to manage partnership working and deliver the “Every Child Matters” objectives. Based on past experience, it was noted that to be effective the Trust would need to be a relatively small and tight body, with a focus upon strategic commissioning.

Question: Could an independent advocacy service be developed for Looked-After children?

Response: It was noted that training of Councillors was important and agreed that more should be done in this regard, beyond the role of Councillors. Comment was made that perhaps the “Every Child Matters” agenda should have a 6th outcome of dignity and respect, as with older people's services.

Question: Questions were asked about the re-design of Adult social care services, working with partners, home care and community support centres.

Response: The need to take a fresh look at adult social care was explained, particularly in respect of capital investment in facilities. With the population aged 85+ set to increase by over 40% by 2016, this could bring a significant rise in the incidence of dementia. The future of Community Support Centres (CSCs) needs to be addressed, with options including the decommissioning and disposal of assets, joint commissioning with the Primary Care Trust (PCT) of new facilities and a Private Finance Initiative (PFI) scheme for additional extra care housing.

It was noted that Direct Payments provided individuals with money to buy the care services to meet their particular needs and that a Resource Allocation System is being developed and tested to work out entitlements; there will be assistance to help people manage this arrangement, but they do not have to take advantage of it if they find it difficult.

Question: Will the Direct Payments allocation system be a Cheshire East scheme or a pan-county scheme?

Response: The scheme has been developed in conjunction with Cheshire West & Chester, but each Authority is responsible for its own scheme and consequently it is possible that they could be different. It was noted that there are national targets and a legislative framework for Direct Payments so some aspects are non negotiable.

Question: A question was asked on the Personalisation agenda and the resourcing of support mechanisms to help people take advantage of the choices appropriate to them.

Response: It was recognised that older people, particularly those suffering from dementia, would need such assistance. It was also noted that whilst Local Authorities deal with critical cases, other agencies support those close to being critical and that investment in prevention and re-ablement, would be important and is being designed into the new model.

Question: Will the ring-fencing of Carers' Grant continue?

Response: There are no plans to change this – carers have a critical role. It was noted though that some £21m in Government funding will be classed as Area Based Grant and consequently Cheshire East will need to work within the Local Strategic Partnership (LSP) to agree a strategy in relation to use of the money.

Question: How do you plan to reconcile the Transforming Learning Communities (TLC) agenda with maintaining/ building community focus?

Reference was made to Authorities being penalised for carrying excessive surplus places, but also that loss of schools, notably smaller schools in rural areas, would have an adverse effect on resources in local communities.

Response: TLC projects already underway would be completed. In other areas there will be a need to look at all the facts and be as clear as possible on the various aspects; the People Advisory Panel through a Task and Finish Group would be taking a fresh look at the TLC programme, including changes in demand in the current economic climate.

Comment was made on the importance of schools embracing the opportunity to engage and play a full part as community resources.

Question: A question was asked on advocacy services for those struggling to help find somewhere to live for people with dementia and learning disabilities.

Response: Early detection and preventive measures were also recognised as important. It will be important for Cheshire East to develop a strategy for joint commissioning to manage the demand, in partnership with providers.

Question: A question was asked on funding and the commissioning of preventive services in relation to children's social care.

Response: The Children's Trust needs to get up and running. Regarding child protection, the first point of contact is often the Council; a challenge for the Children's Trust will be to stimulate other players in the system to respond more fully to lower level demand.

Question: What's happening to the Schools psychology service and performance on statementing?

Response: The vision is that educational psychologists help and support teachers and parents more and that multi-disciplinary teams are created.

Annex C (ii)

Cheshire East Council Budget Consultation 2009-10
People and Places Event – 14th January 2009

Minutes of Discussion Group 2 – Health and Wellbeing

| | | |
|-----------------|-----------------|---|
| Facilitator: | Guy Kilminster | |
| Co-Facilitator: | Alex Thompson | |
| Cabinet Member: | Andrew Knowles | |
| Delegates: | Lesley Richards | Congleton Borough Council |
| | Helen Costello | Crewe & Nantwich Borough Council |
| | Clare Lacy | Making Space |
| | Mike Levendon | |
| | Liz Gentil | Play Forum - Chester Diocese |
| | Alistair Coney | BTCV |
| | Peter Speed | Crewe YMCA |
| | Jackie Grinham | Citizens Advice Bureau |
| | John Heselwood | Cheshire Community Action |
| | John Reader | Diocese of Chester |
| | John Whitehead | |
| | Tracey Fielding | Cheshire Community Voice |
| | Frank Collins | Cheshire County Council |
| | Trudi Powell | |
| | Liz Potts | Macclesfield Disability Info Group |
| | Dennis Murphy | Congleton Lifelong Learning Partnership |
| | Jenny Hawkes | |
| | Colin Mills | SCB Special Needs |
| | Anne Wheeler | Nantwich Museum |
| | Zandra Nield | Cheshire County Council |

Summary of Key Points:

1. Cheshire East response to the recession and the potential negative impact on Health & Wellbeing:

- Homeless (Young People)
- Learning / skills development
- Need for early intervention
- Provision of advice
- Family breakdown

2. Cheshire East actions related to Disability (inc Mental Health)

3. Communication with and within the Not-for-Profit Sector

- Can't wait for CEC
- Public engagement
- Congress is an opportunity

4. Access to services from all partners

- Clarity over who provides what to who
- Clarity over access to funding and a need for long term approach from CEC

Detailed points raised in Session:

- GK Intro and opening comments, a mixed group representing many key partners.
Health & Wellbeing covers such areas as: libraries; theatre; arts; sports; museums; parks; and is the lead interaction with the Primary Care Trust
Detail of CEC budget is still limited due to complexity of Local Government Reorganisation
- LP No reference was made in the consultation material to disability
GK ~ responded that action in this area was inherent in CEC plans but further clarification would be sought ~ **raised as key issue**
- JG Concern over silo approach to 3rd Sector, as some groups cross over key policies and so may need to be consulted in many instances
GK ~ Clarity needed for signposting/linking groups to CEC priorities
GK ~ CEC and/or 3rd Sector need to bring together wealth of advice and support
- JHa Does lean systems mean cuts?
- PS It will be difficult to go lean as well as going local
GK (with further clarification from Cllr Keegan) ~ Lean means more streamlined processes not cuts in service
- JW Access will be improved if all community access points are maintained, including post offices (Also questioned the use of the term 3rd Sector ~ "Not for Profit")
- JR Does CEC map its assets?
GK ~ Customer Access Group are considering access options, GIS is being used to map assets but more work is ongoing
- TF It does not feel like a partnership is equal if funding can change so easily from one year to the next, this can prevent long term plans (Also noted a recent survey of charities showed they liked the term 3rd Sector)
- LG It would be more efficient to allocate funding over a longer term
GK ~ **raised as key issue**
- TF 3rd Sector needs to know who is out there and CEC must be able to look beyond the usual suspects for communications
- LG Do we have a list of 3rd Sector contacts / activities
- JHe Congress needs to raise profile and communicate
- JHa Are there Terms of Reference for the Congress?
- JR Does the Congress have a dedicated website

- TF CWAC are appointing an assembly, support needs to be accessed for help with consistency in grant applications and insurance
GK ~ is the Congress the answer? ~ **raised as key issue**
- PS What does phrase "we must think family mean?"
GK ~ it means keeping families together and more effectively dealing with young, family and elderly issues in a joined up way
- CL Support is needed in times of recession, it is more important than ever to get the vulnerable in to work
- HC Quick action is needed to respond to the recession
- JHe Mental health can be impacted by recession
- JG Homeless, which has not been a high priority for existing authorities, could increase in a recession
GK ~ **raised as key issue**
- JW The CEC budget event has been positive and unusual, in a very good way

Cheshire East Council Budget Consultation 2009-10
People and Places Event – 14th January 2009

Minutes of Discussion Group 3 – Roads and Transport

| | | |
|-----------------------|---------------------------|----------------------------------|
| Facilitator: | Andrew Ross | |
| Co-Facilitators: | Jenny Lees, Steve Reading | |
| Cheshire East Member: | Councillor Jamie Macrae | |
| Consultees: | Lesley Gleaves | Cheshire County Council |
| | Mike Smith | Congleton Partnership |
| | Tony Gentil | Parish Councillor |
| | Councillor Hatfield | Crewe & Nantwich Borough Council |
| | Diane Smith | Macclesfield Borough Council |
| | Anthony Blackley | Crewe & Nantwich LSP Env Group |
| | Lillian Burns | Prestbury Parish Councillor |
| | Cedric Knipe | Macclesfield Borough Council |
| | Liz Lunn | Cheshire Police |

SUMMARY OF KEY POINTS AGREED BY THE GROUP:

- Maintaining roads and footways. More investment on local roads / town centres.
- Safety a clear priority combining education, engineering, enforcement and partnership working.
- Environment / climate change / sustainability / air quality.
- Integrated transport / smarter choices / less travel
- Supporting economic development.

ARE THERE ANY ROADS AND TRANSPORT ISSUES THAT YOU FEEL WE SHOULD HAVE GIVEN A HIGHER PRIORITY?

There was a general consensus that the condition of footways is a common problem for older people and those with mobility problems. It was acknowledged that budgets were limited but the group wanted to know what spending plans existed. The term 'Flags to Flexi' was used to describe one of the preferred solutions to this issue (i.e. the replacement of easily damaged flags with tarmac).

A number of delegates referred to the Department for Transport (DfT) reports on the benefits of Smarter Choices measures in achieving modal shift & reducing the need to travel. It was felt that this should be given a higher priority.

It was felt that air quality / climate change / carbon footprinting doesn't feature clearly enough in the Local Transport Plan or Community Strategy. Air quality overlaps with many agendas (i.e. sustainability, reducing CO₂ emissions, modal shift, health) and it was felt it should be a priority issue.

There was a general acceptance that speed was a factor in causing accidents but some delegates felt that the continual changes of speed limit on a single stretch of road can be very confusing, particularly for those unfamiliar with the route. The A530 from Northwich to Middlewich was an example. It was suggested that a corridor approach to speed limits would be easier in some areas. Concern was also raised at the perceived high cost of speed awareness / high collision route warning signs (i.e. Red Routes) and there was uncertainty over the effectiveness.

There was also felt to be over complexity in the way roads are currently prioritised in terms of safety. The number of deaths on a stretch of road has led to its prioritisation for remedial investment. This did not seem completely fair as other factors may influence the number of deaths (e.g. number of people in a vehicle, volume of traffic), which did not necessarily relate to the road.

Cllr Macrae acknowledged all the comments made and would factor these into the budget development work where possible. He stated that departmental budgets had now been determined, but there remained scope for negotiation over the allocation between different services. He advised the group that one aim of the new Council was to bring together transport, planning and highway policy into one area and to focus efforts of the Cabinet. Strategic housing, highways and economic development would also be joined up.

Cllr Macrae was concerned that damage to pavements was often caused by vehicles parking on them. Any costs of reinstatement fell to the local authority and this needed to be reviewed to ensure the person / company responsible paid. He noted the police could not act unless they saw the vehicle being parked. The considerate contractor scheme was noted and although it is voluntary could be built into policies.

IN OUR EFFORTS TO MAKE TRAVEL SAFER, SHOULD WE PLACE A HIGHER PRIORITY ON EITHER: I) EDUCATION, TRAINING & PUBLICITY CAMPAIGNS, II) ENFORCEMENT MEASURES, OR III) LOCAL ROAD IMPROVEMENTS – OR A COMBINATION OF TWO OR ALL THREE OF THESE?

A number of delegates questioned the benefits of educational campaigns and whether there are figures to demonstrate the success / outcomes in terms of safety. Others felt that there is a role for education, but some questioned whether it should be a central government responsibility, rather than local authorities? It was felt that targeted training and shock tactics (i.e. DVD of re-enactments) do work in influencing behaviour.

There was a general consensus that enforcement measures should be a high priority. It was noted that the use of mobile and static cameras has reduced the number killed or serious injured (KSI) in some areas and it was therefore important to protect funding for the cameras.

Cheshire Police expressed great concern at the proposal to reduce Cheshire East's contribution to the Cheshire Safer Roads Partnership (CSRP) and they asked the Council to revisit that proposal. It was pointed out that the number of KSI's for 2008 was 300 against a target of 249. Therefore, they felt this needed to be a top priority for the LAA and be adequately funded.

It was noted that KSI's in the Cheshire East area accounted for half of those in the whole area covered by Cheshire Police (inc. Halton & Warrington). There was a particular

concern over the 'Cat & Fiddle' route and it was acknowledged that the proposal to introduce speed limit enforcement (average speed cameras) would not be possible without funding. The chairman of CSRP is keen to involve Members in discussions on the CSRP and they also intend to write to the Council. It was noted that the relevant Cabinet Member had declined an invitation to attend the next CSRP meeting on 22nd January.

Cheshire Police are also looking to introduce flexible & mobile working arrangements for officers. They also expressed an interest in working with Cheshire East on asset management / possibilities for co-locations. Cllr Macrae offered to take the matter away for further discussion.

It was confirmed that the KSI number did include the M6. The group asked why the stretch of the M6 between junctions 15 and 18 seemed to have more accidents. It was thought that this stretch of motorway is heavily used and one of the earliest built – therefore it did not comply with current design standards. It was also noted that a multi-modal study had been undertaken on the West Midlands to Manchester corridor. The study noted the high number of junctions and services in close proximity, which leads to a great deal of lane changing. The study made a series of recommendations (i.e. widening or improvements to the slip roads) but they had not yet moved forward.

It was noted that the Regional Spatial Strategy will require Local Authorities to have a Route Management Strategy for main routes and guidance would be issued soon. It was felt that the recommendations of the multi-modal study should be considered.

Statistics suggested the economic cost of a serious casualty was £160k whereas a death was over £1m. The A530 had been classified as a red route – a campaign which meant using a combination of engineering measures, raising awareness and enforcement with cameras. The group generally supported the use of cameras and felt that the attitude to speed needed to change in a similar way to drink driving. However, the consensus was that such a change was a task for the Government and local partnership arrangements could help.

The group felt red tarmac had been over-used and was no longer effective and expressed a preference for mobile warning signs. They quoted an example in Spain where speeding cars were actually forced to stop by a red light. The group hoped that the new Council may be able to pilot new initiatives and reduce the costs of new, effective signs.

It was noted that people caused accidents, not roads, and although variable speed limits were not legal in England, they had been piloted in Scotland. Sections of the M42 and M25 had advisory limits. Cllr Macrae raised the links with the Police and the issue of not being able to enforce some reduced speed limits especially in rural areas.

IN IMPROVING OUR LOCAL ROADS SHOULD WE: DIRECT MORE FUNDING TOWARDS LOCAL ROADS AND FOOTWAYS WITHIN RESIDENTIAL COMMUNITIES AS OPPOSED TO THE STRATEGIC HIGHWAY NETWORK? SPLIT FUNDING EQUITABLY BETWEEN THE LOCAL AREA PARTNERSHIP BOUNDARIES (6-8 AREAS)?

The group asked whether Local Area Partnerships are equitable in terms of highway condition / maintenance requirements? They would welcome a professional view on the

condition of the highway network across the different areas. In terms of funding, it was felt to be important to focus on problem areas, rather than per capita.

The County Council had used national indicators to determine investment and it was acknowledged that any change to this could impact on performance indicators. It was recognised that any changes to the distribution of funding will have positive and negative impacts in different areas. For example, focusing on the local networks may impact on safety on the strategic network – important to balance the risk.

The groups asked whether there was any evidence of differentials in funding or greater need between the areas. Andrew advised the group that the figures suggested road condition varied across the area (i.e. condition of the network in Macclesfield better than Crewe & Nantwich).

Some delegates expressed concern that following investment to improve town centres (i.e. quality of paving), funding was not available to maintain them to the same level. This has resulted in the deterioration of many town centre schemes, which has a potential impact on the local economy. The group would like to see a greater focus on the maintenance of the local network.

Cllr Macrae noted that the County Council had announced some additional spend of some £1m to initially tackle the highway maintenance backlog. It was noted that in terms of the classified road network the split of the County revealed a significant difference in road condition with Cheshire West & Chester being in the top quartile and Cheshire East being in the lower quartile. This meant they would have to decide how to distribute funding and possibly invest in areas of high need at the expense of national indicators.

The group questioned whether the allocation of Government grant funding was linked to performance indicators (NI 168 and 169). Andrew advised the group that there was no link at present. He was not sure if the Government were considering such a change. Any link to such indicators needed to have clear outcomes and risks identified.

The issue of utility companies not reinstating roads to the same condition was also raised. Andrew noted the efforts by the Government to better co-ordinate highway maintenance and utility work. Planning and controlling such work was essential. Noted that contractor vehicles also damaged pavements.

IN TACKLING CONGESTION SHOULD WE PLACE A HIGHER PRIORITY ON OUR ATTEMPTS TO IMPROVE THE FLOW OF TRAFFIC AND INCREASE THE CAPACITY OF OUR NETWORKS?

It was recognised that increasing capacity of the road network is a “never ending tale”. There was felt to be a need to do more to manage congestion and improve the links between road, bus, rail and motorways in Cheshire East – better integration of transport networks.

Alternatives to car use should be promoted but it was recognised that there are the difficulties in encouraging people to change their travel habits. Congestion was felt to be a good tool to get people out of their cars, particularly for journeys under 5 miles. It was also felt that the cost of public transport was also an issue that should be considered.

It was recognised that small reductions in traffic levels make a big difference (i.e. school holidays) and flexible & mobile working arrangements could help in reducing the need to travel. It was agreed that there is no single solution to managing congestion. As the new Council's priorities include maintaining the existing road network, there was a consensus that the Council should at least give people the option of using alternative methods of transport to the car.

The benefits of flexible bus services in rural areas were recognised (i.e. Taxi Rider). The group asked about the review of public transport arrangements and opposed potential reductions to the budget. Cllr Macrae acknowledged this issue and felt there would be greater scope to review the 2009-10 revenue and capital budgets after the 1st April and see if there were further options.

**NOTE OF THE BUDGET CONSULTATION MEETING WITH THE
CHESHIRE EAST SCHOOLS FORUM held on 19 JANUARY 2009**

PRESENT:

Cheshire East Shadow Council (CE) Councillors

Cllr Paul Findlow (Chair)
Cllr Wesley Fitzgerald

Schools Forum

Chris Chapman (Chair of Schools Forum) and 17 members of the Cheshire East Schools Forum

Officers

Cheshire East (Shadow) Council

Erika Wenzel, Chief Executive
Lisa Quinn, Borough Treasurer and Head of Assets
John Weeks, Executive Director, People
Barbara Hughes, Interim Head of Children and Families

Cheshire County Council

Louise Rees, Children's Services Policy Manager
Paul Plested, Principal Accountant, Children's Services Finance
Anne Tunnicliffe, School Funding and Policy Manager
Charlotte Fenn, Acting Clerk to the Cheshire East Schools Forum

The Chairman, Councillor Paul Findlow, Portfolio Holder (Children and Family Services) opened the meeting and everyone introduced themselves.

Lisa Quinn, Borough Treasurer and Head of Assets gave a presentation on the Financial Scenario, providing an overview of the financial planning process, the service budgets, capital programme and council tax proposals of the new authority and comment on the likely impact on the Council of the current recession.

Comment: Thanks were given for the presentation, but it was noted that the budget was nearly set and whilst there was general awareness of the new Council's financial situation within the Forum some concern was expressed that there was not a detailed knowledge of the effects of the budget on children and the consequences for other parts of the organisation.

Response: It was acknowledged that consultation was happening later than would be ideal and one of the objectives of the event was to inform

improvements in the consultation and information process for next time. Assurance was given regarding the development and content of the budget proposals as they affect children's services.

Comment: Regarding the budgeting process, it seems strange that the Council Tax was set so early, before an understanding of the needs and their associated costs. It was hoped that next year, the Council would not be so constrained.

Response: Councillor Wesley Fitzgerald, Leader of Cheshire East (Shadow) Council agreed, explaining that the sponsoring authorities were required to present their financial plans to Government in the People and Places bid and also to deliver the reorganisation within a short timescale. He added that there was complexity in disaggregating the County Council and aggregating the Districts and that it was a challenge for management to make it work.

Comment: It seemed that schools were being asked to tighten their belts, to a greater extent than the Council in its central spending and that this was the wrong way around. The principle of devolved budgets should be that the money is closer to children whereas in the proposals the central pot is going to be larger.

Response: Barbara Hughes, Interim Head of Children's Services, replied, stating that all Dedicated Schools Grant (DSG) money goes to children, whether to schools or to the responsibilities of the local education authority – it is all about children.

Comment: Concern was expressed about the growth in the central budget and what the money would be spent on. It was difficult to see the thinking behind the proposals and how the new authority would be transformational. Reference was made to the role that the Education Improvement Partnerships could play in the development of support within the community

Response: Cllr Findlow responded that the general principle of delegation was accepted and supported. Barbara Hughes outlined the pressures in children's social care, dealing with specialised needs, managing children out of school and supporting families in difficulty. Cheshire East wished to charge legitimate spend to the DSG and thereby release funding to spend on children's services priorities, including children in difficulties. Money spent in this way would benefit schools on a day to day basis.

Barbara went on to say that the Authority would be talking to schools about how to deliver services and priority areas. Assurance was given that the proposal to charge expenditure to DSG would not be spent on "advisors".

Comment: The significance of the "Dedicated" "Schools" "Grant" was emphasised and comment was made that the macro-economic situation is affecting at the micro level, e.g. the viability of school trips. DSG should be used to enable schools to provide the best.

Comment: Greater transparency is needed in respect of the central spend budget; there is a concern that if set too high, a base will be set and it would escalate in the future. Central spend should be set at a minimum in the first year. Proposals for schools to buy back services should be drawn up.

Comment: It was noted that most of the special schools are located in the West and that we could find ourselves paying more. A question was asked on how these assets are being considered and also how the outdoor education facility in North Wales would be managed in the future.

Response: Councillor Findlow responded, saying that the County's subsidy in respect of the Conway facility had reduced in recent years and that discussions were underway regarding establishing a trust to manage that and similar in-County facilities in the future. Lisa Quinn stated that in respect of special schools and a few other County property assets, a joint East-West group of Members and officers was working to reach agreement on the split of assets and related service use and cost sharing, by 31 March 2009.

Comment: It was important not to lose the opportunity of looking at principles, e.g. the Local Management of Schools (LMS) agenda, the work of the Education Improvement Partnerships and the objective of being closer to communities. Concern was expressed about a perceived change in policy in respect of children with special needs.

Response: Barbara Hughes replied, providing assurance that no change in policy was implied, merely that comment was being made on the service pressures in this area.

John Weeks, Strategic Director (People), provided assurance that detail on the proposals, notably the central spend, would be provided, also that the situation inherited from Cheshire County Council was challenging and that a transformational "thinking family" approach was being developed. He commented that the new authority's commitments on children, education and family are those on which we should be judged. The Council was looking to strengthen the role of clusters of schools acting together as local commissioners. Erika Wenzel, Chief Executive, confirmed that the Council will be looking at all elements of partnership working, including crime reduction.

It was acknowledged that the Council will be judged on the plans it develops in 12 month's time.

Comment: Some concern was expressed that given inflation in teachers' pay and non-staff costs, the budget will be regarded as a decrease, which would be seen as unfortunate in the first year of the new local authority.

Response: Louise Rees replied that the Government provides a minimum funding guarantee, taking account of pay inflation and other changes, but that as the MFG is lower than cost pressures, the Government expects schools to deliver 1% per annum efficiency savings. The budgets schools receive is

through the LMS formula in the first instance. If the formula delivers more than MFG, that is what schools receive depending on individual circumstances, including changes in pupil numbers.

Comment: A question was asked in respect of the DSG underspend and whether assurance could be given that they would go into the individual schools pot.

Response: Louise Rees stated that the underspend being discussed related to the central spend budget in 2007/08 and 2008/09 and confirmed that this had been added to the total DSG pot if funding. Louise explained that the individual schools budget would be getting the benefit of this - if the funding had not been treated in this way, then the restriction to the Age Weighted Pupil Unit (AWPU) would be higher.

Comment: Comments were made on the various policy proposals and again on the apparent increase in the central budget. A proposal that the funding for Ministerial priorities be used to offset the proposed AWPU restriction was put forward.

Response: Louise Rees outlined the background to the generation of the underspend in respect of seeking to avoid clawback of Cheshire SureStart grant. Assurance was provided that this approach would not affect formulation of a fair baseline of central spend in the future. Councillor Findlow confirmed that he would actively consider proposal to use the Ministerial Priorities funding within DSG to offset the restriction to AWPU.

Comment: It was noted that in the last 5-6 years, the special education needs (SEN) budget has been exceeded and concern was expressed regarding managing budgets and keeping the balance of spending right, for all children.

Response: In reply it was stated that the Council would be looking to develop special school provision in Cheshire East, avoiding spending out of the area and enabling better control of costs.

Comment: Regarding the Transforming Learning Communities (TLC) schemes, the Forum was being asked to agree to the use of revenue savings to support prudential borrowing and retirement/ redundancy costs. It was noted that the Forum needed some more information on these matters.

Response: Louise Rees confirmed that further information would be provided to enable the Forum to make such an agreement.

Comment: In concluding, comment was made that everyone understands the need to divide the cake and appreciates the complexities of doing that fairly, in providing a range of services including education.

The Chairman thanked everyone for their contributions.

Cheshire East Council Budget Consultation 2009-10
Minutes of Business Breakfast Event – 20th January 2009

| | | |
|-----------------------|---|--|
| Cabinet Members: | Councillor W Fitzgerald Councillor D Brown Councillor P Findlow Councillor P Mason Councillor D Brickhill Councillor A Knowles Councillor B Silvester | |
| Officers: | Erika Wenzel | Chief Executive – Cheshire East Council |
| | Lisa Quinn | Borough Treasurer & Head of Assets – Cheshire East Council |
| | Chris McCarthy | Strategic Director Places – Cheshire East Council |
| Chambers of Commerce: | John Dunning | South Cheshire Chambers of Commerce & Industry |
| | John Lamond | Macclesfield Chamber of Commerce |
| | Peter Whiers | Congleton Chamber of Commerce & Enterprise |
| Consultees: | See attached | |

Introduction

Cllr Fitzgerald chaired the event and welcomed businesses from Cheshire East to the first Budget Consultation event for the new Council. He outlined the agenda and went through the following key points:

- The background to local government reorganisation and the eagerness of the Shadow Council to move forward and start providing services.
- The process of splitting County budgets and adding together those of the districts.
- The objectives to reduce Council Tax and achieve cost savings where the figures in the original bid had been exceeded.

Erika Wenzel then provided some background to Cheshire East including:

- The scale of the task to create a new Council and merge four cultures and organisational designs into one.

- Statistics on Cheshire East.
- The progress made so far i.e. appointment of a Cabinet and assigning portfolios.
- Progress with recruitment.
- The aims of joint working.
- The promise to maintain grant funding at existing levels for 2009-10.
- The aim to transform inherited services – in part through ICT but retaining face to face contact and a local presence.
- The four pilot areas for neighbourhood working.

Lisa Quinn – Borough Treasurer and Head of Assets

Lisa went through:

- The stages of budget development.
- Plans to improve the consultation process next year.
- Council Tax proposals for 2009-10.
- The Capital Programme.
- The impact of the recession.
- Other key issues including the Local Authority Business Growth Incentive Scheme, Supplementary Business Rates and revaluation.

John Dunning – Chair of the South Cheshire Chamber of Commerce

John gave a presentation on the role of the Chambers and what they could offer to businesses. This included:

- Emphasis on their independence – not being funded by Central or Local Government.
- The scope to build on existing good relationships.
- They could act as a voice for all Businesses and provide the primary route for Councils to make contact.
- They had a quarterly meeting with a Bank of England representative who could feed information back to the Monetary Policy Committee.
- They could undertake surveys and provide information.
- They could promote export routes.
- They could help local suppliers tender for local authority work.

He also briefed on the current economic climate in terms of:

- Staying positive and confident rather than making it worse.
- Businesses should prepare and be well placed to get back on track when things start moving again.
- The Chambers would give businesses a chance to talk through their specific issues and try to help.
- Courses included: Business Continuity on 23rd January and a Business Link event on 24th April, both at Cranage Hall.
- Help with Business Startups.

Question and Answer Session

Panel: Councillor W Fitzgerald
Councillor D Brown
Erika Wenzel
Chris McCarthy
Lisa Quinn
John Dunning
John Lamond
Peter Whiers

How will Cheshire Police operate after the split of councils.

John Dunning advised consultees he would be meeting the Cheshire Police Authority (CPA) on 12th February to discuss their budget and they were proposing a small percentage increase in Council Tax.

It was noted that the new Chief Constable is keen to meet with Cheshire East Council, Cheshire West and Chester Council and the Chambers of Commerce regarding the budget and to maintain an ongoing dialogue.

Cllr Brown – Several sessions had been held regarding CDRPs and the co-ordination of Local Area Partnerships. Of all partners Cheshire Police have been most keen to engage with the new Council.

Cllr Fitzgerald – The CPA were eager to enter partnership agreements with Cheshire East Council and the eastern operational unit of CPA was almost co-terminus with the Cheshire East Council boundary.

Helen Gould, Kendlebell – In light of the recession all organisations are reviewing their budgets. Is there any Sector 1 or 2 European funding available for Cheshire East in a similar way to Liverpool. E.g. Crewe is experiencing post office closures. There needs to be a plan to help people exist and prevent more residents defaulting on rates etc.

Lisa Quinn – A group had been created to work with partners and businesses to identify what the local authority can do to help. They will do some research to establish the availability of funding and circulate the results. **(Action: Lisa Quinn)**

Cllr Fitzgerald – On 19 January they had met Beverley Hughes, the Minister for the North West, to discuss the recession. She was given a clear message regarding the projects Cheshire East Council wants to start, including Middlewich Bypass and Crewe Gateway, but could not move forward due to a lack of funding. The Minister offered to pursue these issues. In addition, they commented on the issue with banks being tough on existing borrowers or turning away new borrowers and that this had to change.

Representatives from the Chambers of Commerce outlined the plethora of Government announcements they were working through, e.g. Department for Business, Enterprise & Regulatory Reform (BERR) announcements on funding streams, and trying to make understandable. They intend to set up an email alert system for businesses on these issues.

They noted the work done by Business Link in this area to simplify funding streams and a booklet was available on what could be claimed.

They reiterated the need to claim Business Rates relief where Rateable Values were below £5k. Under such conditions 50% may be refunded and backdated to 1/4/2007. They acknowledged this may not apply to many people in the room but asked them to spread the word to firms they know who may benefit.

Richard Macaulay, Macclesfield Business Ventures – The proliferation and complexity of information often makes it difficult for certain groups to start a business. What initiatives can Cheshire East Council introduce to help.

Chris McCarthy – The new Council will try to understand what is available, bring it together, simplify it and consider what is the best solution.

Diane Davy, Chandler Associates – How much does the local economy pay in Business Rates and how much does it get back.

Lisa Quinn – Cheshire East Council will collect £135m and receive £74.2m so will be a net loser and she would be investigating this issue in the coming year.

Nigel Evans, Cheshire Agricultural Society (who organise the Cheshire Show) – Does Cheshire East Council regard Cheshire West and Chester Council as a partner and how will this work.

Erika Wenzel – The split of County Council staff East and West is a difficult exercise. They are working closely with Cheshire West and Chester to avoid any competition developing. Some services will remain pan-Cheshire, such as ICT and transactional Finance services, and these are being negotiated in detail. It should also be noted that in some instances, such as economic partnership, Warrington are also a partner.

Cllr Fitzgerald – On an economic front the two new Councils and North West act as one to improve economic prospects for all. He noted the historical County of Cheshire was not being split but the administration arrangements were for the betterment of Cheshire and its population.

Peter Jackson, Active Business Solutions – Regarding the reference to the formation of the new Council being akin to a business merger, what are the integration costs.

Lisa Quinn – Transitional costs have been tracked very closely. The initial bid quoted a figure of £3m of which the Cheshire East Council share would be £1.5m.

As publicised spending was higher due to increased staff costs caused by early appointments and having a fully developed Council structure. They expected to spend £2m but will try to stay within the budget.

They had also decided to make additional investment in ICT and Customer Access of £1.5m. Therefore spend of £3m - £3.5m was projected. Payback of all transitional costs is expected to be within 3 years.

Each local authority had to manage its own costs and they were inspected by Central Government and the Audit Commission. The figures would also form part of the final 2008-09 accounts of each authority.

Ian Miller, Road Maintenance Services Ltd – He represents a local employer, with 100 staff, dealing with highway and footway maintenance, an area that has suffered from a lack of public investment. There was a need to rebuild and tackle the backlog. However, he was concerned that Councils may spend significant sums on fountains in town centres, etc while the road network is deteriorating and people struggle to get to the attraction.

He felt this issue was set in the context of Councils being too willing to satisfy the public and therefore Councillors often decided where improvements should be made and not the experts. What is the Cheshire East strategy.

Chris McCarthy – Cheshire East is a new Council and will bring its own culture and create a new Highway Service.

They will need time to do this properly and review the methods of prioritising highway schemes that are now much closer to home. They will need to consider the issues to be addressed, the best form of treatment, where it is applied and the Political view. He noted that an element of reactive maintenance would always be needed.

Erika Wenzel added that her previous experience of Local Area Partnerships / neighbourhood working suggested that engineering advice with local input was the best way forward. Regarding the fountains – she acknowledged the point but noted that Cheshire East Council could easily spend its entire Budget on roads, but there are other needs.

Cllr Fitzgerald – Funding is the key. The Government have their own priorities with regard to Highways etc and they apply this to local authorities. Cheshire East Council will have to take this into account even if it does not match local needs.

He outlined plans for Cheshire East Council to look into new income streams, locally achieved, that can generate additional funding for highways. This would take time but would be achieved.

Noted that converting to a unitary authority will provide clarity on who is responsible for the highways issues.

Andrew Smith, Instrument Science – Regarding the Chambers of Commerce point about bidding for local authority work, they are a small business and do not know how to find out what work is available or how to register an interest. Please could the local authority make this clear. He appreciates the interpretation of Government announcements but there is still a gap in terms of teaching people how to use it.

Chris McCarthy – He was aware that other local authorities do provide guidance on procurement and the various processes. The intention was for the Chambers of Commerce and Cheshire East Council, as a large authority, to help as much as possible.

The Chambers of Commerce suggested setting up a dedicated joint event between April and June for themselves and Cheshire East Council to advise businesses and this was agreed. Lisa Quinn noted procurement fell under her area of responsibility so she would be able to help.

Ian Coppack, Cross Country Film – The town centres in Cheshire East were all in poor condition at a time when image was important.

Cllr Brown – He was aware that there were ongoing discussions regarding regeneration projects. He acknowledged these may be delayed but stated that there were some existing projects due to happen in the next three to ten years, e.g. Crewe, Macclesfield, Sandbach and Congleton. He felt very enthusiastic about it.

There was an issue with establishing how Cheshire East Council could trade with local firms if the goods and services are available at the right price. Working through town centre partnerships and effective trading may help.

Chris McCarthy noted that the issue of using local groups, consultation, capturing volunteers and funds e.g. NWDA support, would be considered. Both top down and bottom up approaches would be considered.

Mike Chandler, Chandler Associates – Regarding the Crewe Gateway project, what is the plan with regard to option 3 and the potential to merge Network Rail and Cheshire County Council proposals to build a destination opportunity and regenerate the whole of East Cheshire.

Cllr Fitzgerald – This was a major issue and very complex. He realised there were local objections but was keen to resolve the issues. He had put the case forward to the Minister for adequate Capital funding and asked that Network Rail be pushed to decide what they want to do. He realised Crewe was suffering from the delays and investment was urgently required to move things forward.

Mike Chandler thanked Cllr Fitzgerald for this commitment.

Rex Garratt, Link-us Publicity – Regarding the proposed Council Tax freeze when national increases are being reported as 3% - 3.5%, can this cautious approach be maintained.

Cllr Fitzgerald – Cheshire East Council had begun with the Council Tax promise made in the bid. In the longer term the aim of the Council was better financial control through real economies and transformation of service delivery. He would aim for a good budget for 2010-11 which delivered good services at reasonable cost.

Cllr Brown noted that the four existing authorities all did things in different ways with different levels of value for money and quality. They would try to use best practice in Cheshire East.

Helen Gould, Kendlebell – Would it be possible to have a Business Community Partnership / Resource (possibly led by the Chambers of Commerce) where experts in the room can provide advice to new businesses to give them a chance. Given the many expert Accountants and Business people it would only be a small proportion of their time.

John Dunning felt that was an excellent idea and would like to do something like that. It was agreed that this concept would be explored in more detail.

Chris McCarthy noted that unitary status would bring a single focus on the economic issues.

Anthony Bird, Senior Aerospace UK - Bird Bellows – There are manufacturing companies in Congleton who want to work with local partners. Regarding the structural diagram displayed in the slides, if the aim is development of the area he assumes they need to work through the middle band. How will they get their views heard at the top level.

Erika Wenzel – Some consultation events on the structure will be taking place at the end of the month. Feedback from Businesses is vital and therefore they will have a representative on the Strategic Panel.

Cllr Brown – There are also local plans and local partnerships in Congleton. There is a meeting for the Town and Parish Councils in Congleton Town Hall and Business representatives are welcome to attend.

Lisa Quinn noted that the slide in question did not appear in the delegate pack as the presentation had been refined based on experience. The final slides would be circulated and made available on the Cheshire East Council website.

Chris McCarthy – Acknowledged there were currently many channels that could be used and Cheshire East Council would try to bring some clarity.

John Dunning – The Chamber of Commerce were involved with the Local Strategic Partnerships and wanted that to continue, but to date they have not found their input to be appropriate. He emphasised that they could not afford to waste time and needed to channel their energy into the right forum.

Erika Wenzel - It was acknowledged that the Local Strategic Partnerships Framework under two tier Local Government was too complex and had become a talking shop. A single strategic body should bring better results and communicate with Businesses via a single route.

Roger Hargreaves, SISIS Equipment Ltd – His company paid £80k in Business Rates and they are set to increase by 5%. How sustainable is that rise given the current economic forecast and the Cheshire East Council plans to maintain Council Tax at existing levels.

Lisa Quinn stated that the increase in Business Rates was determined by the RPI rate in September. Local Authorities had to apply that increase.

Erika Wenzel – The issue was raised with the Minister at the meeting on 19 January but any change was unlikely.

Cllr Fitzgerald – Acknowledged this was a major issue. He agreed that a motion would go to the next Shadow Council and an official note would be sent to the Treasury stating the increase was unacceptable.

Gary Dodson, Greenlight Computers Limited – In times of recession there is an opportunity to export more effectively. What can be done to help.

John Dunning – They had a contract with Business Link for training and expertise.

They were available to help start the process by subsidising trade visits and providing advice. He agreed it was a good opportunity for the north west. He encouraged any business with ideas about exporting to get in touch and check the Business Link website.

Gary thanked the panel and noted the funding they had received had been used to rebuild their website which had led to more enquiries. He noted BERR may need to provide working capital funding to help businesses make the goods before they are paid by the clients.

Roger Hargreaves, SISIS Equipment Ltd – Regarding reducing carbon footprints, businesses are aware of this issue but need help from the local authority etc. with initiatives such as:

- **Better links with rail services, e.g. parkway stations**
- **Improving car parking at existing stations**
- **Better integration of road / rail / bus transport**

Where are these ideas currently sitting?

Chris McCarthy – Agreed these were major issues for the new Council to address and help the local economy. However, they could not do it alone, it had to be at the sub regional level and this was being looked at.

Erika Wenzel noted that the Council had set up a working group under the Chairmanship of Cllr Brickhill to try and reduce its own carbon footprint.

Roger Hargreaves, SISIS Equipment Ltd – All businesses are considering cost cutting measures. Regarding the local government pension funds, can these be made sustainable and realistic, i.e. moving away from the Final Salary approach.

Erika Wenzel – The Local Government Pension Scheme rules are determined nationally and they have to follow the guidance. The Scheme was redesigned recently but is still based on final salary at this stage.

The Chamber of Commerce reps advised that they had put this question to David Cameron in December and while he acknowledged the difficulties he did want to pursue the issue.

Wesley Fitzgerald noted the huge Political implications of changing the system but change may be forced by the recession and other events.

Peter Whiers, Congleton Chamber of Commerce & Enterprise – Reminded the audience that the last Congleton Business Awards event to celebrate local success was taking place soon and encouraged businesses to send in their entries. He also reminded them about the Business Continuity Event this Friday and that forms were available.

Conclusion

Cllr Fitzgerald thanked the Business representatives for attending and welcomed the potential to work together for the long term success of the economy in Cheshire.

Cheshire East Council Budget Consultation 2009-10
Business Breakfast Event – Delegate List

| Name | Organisation |
|----------------------------|---|
| Alen Lenton | Weaver Bomford Group |
| Alex Thompson | Congleton Borough Council |
| Andrew Arditti | Cheshire East Council |
| Councillor Knowles | Cheshire East Council |
| Andrew Smith | Instrument Science |
| Andy Pratt | Cheshire East Council |

Cheshire East Council Budget Consultation 2009-10
Comments Received from Members of the Public

Introduction

The Budget Consultation process included the set up of a website and an opportunity for comments to be submitted to the email account budgetinfo@cheshire.gov.uk.

The following comments have been received to date and any subsequent correspondence is also included.

Comment 1 – Resident of Nantwich

Initial Comments:

Here is feedback - thanks for the opportunity

Public Consultation Briefing

Harmonisation - yes in favour and yes in favour of stability and less increases. Agree with Government on aim of unitaries to both improve services and deliver saving which should if possible be passed on to tax payers.

Harmonisation of prices - yes and consider where can free leisure (tennis courts etc) encourage use.

Capital Programme - agree schools and children services, commitment in Alderley Edge etc will no doubt be more controversial (use of resources across the county) - bids to the capital programme for future years need to be clear on how communities and Councillors access them, how prioritised and agreed to avoid accusation of bias. What are the other highway improvements and where?

Consultation - this is a great opportunity for the unitary to improve on the past. I am looking forward to being informed about what the plans are for my town, Nantwich and the wider area and also having the opportunity to contribute to them. I think Councillors should all have blogs - have training using them - and do email alerts to subscribers on new things happening - draft strategies to local performance. They should also have electronic consultation which links into new Council.

I think the Government community empowerment agenda and community leadership has a great opportunity here in Cheshire East - let's not have distant Councillors who have no support and who we never hear from. I think the electronic investment is both cheap and popular with younger electorate which will increase participation, knowledge and hopefully respect for local government.

People and Places Consultation

Roads and Transport - general view is that too much traffic in Nantwich and too many lorries. Need to use bypass and change behaviours of local people to using car for everything. I think there is a link to healthy walking, less noise, even less anti social behaviour (the responsible adults are on the street rather than in cars).

More on a new policy to improve the quality of life in major towns - introduce 20 mph blanket for traffic - the local authority where 20 in town is plenty (as the campaigns might say).

To improve condition of roads - spend money on softening them in towns, set targets to reduce traffic, get lorries out and publicity campaign. Should not increase capacity of networks but be explicit about reducing use and capacity.

Visitor economy and economic development - hard to say as no information on budget cuts and Tatton Park seems remote. East Cheshire is a lovely part of the country but would not thought of a mega bucks - so scale down appropriately - the walkers, cyclist and heritage people will come. Emphasis on local using local economy.

Response:

Thanks for your feedback e-mails.

Your comments will be considered as part of the Cheshire East Council Budget setting process.

Comment 2 – Bollington area

Initial Comments:

Dear Cheshire East,

It feels strange addressing an anonymous body. I have two questions I would like answered if possible.

It is very difficult to make comments on a budget that I cannot track down on the web site in any useable form. Could you send me a set of budgetary documents setting out the expenditure of the services in 2008/9 with your proposed expenditure in 2009/10 in a similar form to the Green and Yellow Books published by the County Council. That would be most helpful. I have two further questions.

1. With regard to the harmonisation of car parking charges can I confirm that there will be no wish to charge for car parking at Pool Bank in Bollington or at the two car parks designated for use by Middlewood Way walkers in the Town at Adlington road and Grimshaw Lane? We are very concerned to support visitors and customers for local business in the Town where we desperately need to support our shops, restaurants and pubs.

2. I understand that to supplement the finances for Cheshire East this year sums have been taken from the balances of the contributing authorities. Could you confirm whether that is the case and if so how much has been used from which authorities balances?

Many thanks

Initial Response:

Thanks for your comments.

For the 2009-10 budget setting round a huge amount of work is underway to merge budgets and create new service structures. While the overall financial envelope Cheshire East Council is working towards is fixed the detail behind this is still being refined and improved by the limited staff resources available to the Council. Therefore, the Council has not published a detailed set of Policy Options.

However, a high level narrative document based on the People and Places structure, which the new Council will be organising its services under, has been placed on the website for comments at :

<http://www.cheshireeast.gov.uk/CheshireEastCouncilBudgetConsultation/tabid/205/Default.aspx>

<http://www.cheshireeast.gov.uk/LinkClick.aspx?fileticket=6nupOvE9klg%3d&tabid=205>

This sets out some of the major issues the new Directorates are considering and the issues they would like to consult on. Comments are always welcome. There is a clear intention by the Cheshire East Council Administration to consult on detailed budget options for the 2010-11 budget.

In terms of your specific points:

1. Car Park Charges - I am awaiting a response on this issue and will come back to you as soon as possible.

2. At the 31/3/2009 the Accounts of the seven demising authorities will be closed and a normal set of accounts produced. As part of this process the final level of reserve balances will be allocated to the new authorities i.e. Cheshire East Council will receive balances from Crewe & Nantwich BC, Congleton BC, Macclesfield BC and a share of the Cheshire County Council reserves. The fine detail is still to be agreed and the Accounts have not yet closed, therefore, I cannot say exactly how much this will be.

However, Cheshire East Council is developing a multi year financial scenario that ensures they will maintain an adequate level of reserves which is in line with Audit Commission recommendations.

Further Comments:

Many thanks for your response to my queries. Could you give me some idea when detailed budget lines might be finalised?

It seems from the information available that some things have been decided.
e.g.

1. Levels of Council Tax 2009/10
2. Distribution of Government Grant
3. Funding for education.

I am concerned about:

1. funding and policy for looked after children
2. funding and policy for adults who need social support
3. funding and policy for people of pensionable age

Then some more specific areas such as

1. Gritting policy. There have been attempts in the past to reduce this budget which is vital to the life of Cheshire East
2. Leisure facilities for young people. We desperately need more challenging activities for teenagers.
3. Support for Connexions. This service took a cut last year. I would not like to see further cuts.
4. Maintenance for Rights of Way and funding for the rights of Way Improvement Plan.

When you have specific information on any of these areas I would be glad if you would let me know.

Further Response:

The detailed budgetary information will not be available until the Cheshire East Council Budget Book is produced, in the new financial year, given the time pressures of undertaking LGR.

Yes, a number of issues have been decided and are the subject of news releases (Council Tax) or Cabinet Reports such as the Medium Term Financial Strategy report in December 2008 at:

[http://onlineservices.congleton.gov.uk/ecminutes/Published/C00000241/M00002438/AI00003562/\\$081217CheshireEastCabinetMTFSLQ.docA.ps.pdf](http://onlineservices.congleton.gov.uk/ecminutes/Published/C00000241/M00002438/AI00003562/$081217CheshireEastCabinetMTFSLQ.docA.ps.pdf)

Re your specific comments - I'll pass these on to the Borough Treasurer and Head of Assets and relevant Directors.

Further Response:

Further to your earlier question re car parking, I can provide the following response.

The main thrust of harmonisation of car parking charging across Cheshire East will focus on the Congleton area where currently all car parks are free of charge. There may be some extension of charging in both Crewe and

Macclesfield areas but there are currently no plans to include Pool Bank or either of the 2 Middlewood way sites.

However, as all public car parks have an associated maintenance cost, where no direct charging for use currently exists at a site it is important to review the justification for this policy at regular intervals. Although the use of the sites mentioned is not likely to be charged for in the short term, no long-term guarantee can reasonably be given.

Comment 3 – Nantwich Resident

Initial Comments:

I now realise that the end date for this consultation was 26th January - but I have only just found out about it.

I hope you can take my comments into account.

Why so late? - Your website did not have an easily identifiable link to this consultation. I did not find this link until today.

One had to know that the Budget section had a reference to Consultation. Perhaps a link on the Home page to every consultation you do would help quicker navigation?

As regards comments:

- Yes, do have a balanced budget. Always advisable!

- A sustainable budget can mean several things. If sustainable can mean not wasting resources and prolonging their life - the new council should increase its budgets for Maintenance.

No point wasting existing buildings, roads etc by having poor (but cheap in the short term) maintenance schedules that simply hasten the demise of costly capital projects. Do not waste costly resources for short term budgetary gains. Poorly maintained council assets would be a terrible reflection on, and advert for, the image of the new East Cheshire.

- Council Tax must be harmonised as must service levels across East Cheshire.

Capital Projects that should be completed in Nantwich - where I live -

- Snow Hill Redevelopment needs to be progressed with full community consultation carried forward from C&N's start. The community has already stated its aims and preferences, so these principles should become key requirements in the development brief.

- Complete the link by-pass road from March Lane to the end of Welsh Row/ Canal Viaduct - it should have been completed years ago by the builders of the housing development. A planning obligation was in place but the builders seem to have wriggled out of it.

This new road link is vital to improving traffic and environmental conditions all over the town.

- Force the developers of the vast Stapeley housing estate to honour its planning obligation and build the new community centre - or spend an equivalent sum on improving the community facilities elsewhere in the town. Take over and/or encourage the Rotary/Round Table and Friends of the Earth's idea of a water turbine at Mill Island generating free power to the light up the Weaver Riverside, night-time illumination of buildings and also into the National Grid. How sustainable is this?!!

With regard to your ideas for Local Area Partnerships -

Yes - a good way of delivering local services in such a large County. However, the areas must be relevant to where and how people live.

The boundary of the Nantwich LAP Area needs careful drawing. I can't tell from the small scale plan I have seen but - please ensure - Nantwich remains separate from Crewe.

Nantwich already has the town council in operation and people are familiar with it. The town council can be improved and streamlined with whatever new influence East Cheshire can give it for local service delivery and community cohesion.

Your current map showing 8 LAP Areas looks good, especially as it has Nantwich and its rural hinterland parishes as a separate entity. Nantwich and the 18 or so parishes form a cohesive, natural area of rural market town character and with its own sphere of influence. The two towns of Crewe and Nantwich are very different and Crewe's character is markedly different from Nantwich. Crewe's special regeneration requirements need to be given consideration on their own and not be lumped with Nantwich as it has for the past 35 years.

- Bring Stapeley parish into the Nantwich Town's area. The new housing area is clearly part of the town so it should be within its local governmental jurisdiction and play its part in the community.

Make Nantwich the Western Jewel in East Cheshire's Heritage Crown!

We are a fine historic town with lots more to offer economic tourism than it currently displays. Investment and encouragement in its historic fabric and public realm will bring dividends to the new County's environmental and tourism portfolios. The town's real potential has been overshadowed by the genuine needs of Crewe but in this new world of East Cheshire it is a unique resource of top quality heritage and community cohesiveness that East Cheshire should invest heavily in.

Focus Groups and Citizens panels. These can be good ways of obtaining local views and advice but locally elected councillors must have the power over the advisory groups, in the end.

I would like to be considered for these, please.

I hope you can take my views into account and look forward to hearing from you.

Initial Response:

Thanks for your feedback.

Yes, there is time for your comments to be taken into account as part of the Budget setting process.

You have raised a number of points here which I will send off to the relevant people in Cheshire East Council.

In terms of a response, this may take longer than usual given the number of issues.

This page is intentionally left blank

Summary of Feedback Forms – 2009-10 Budget Consultation

In all 38 feedback forms were collected, 20 from the People and Places Event and 18 from the Parish and Town Council Event.

Venue and Facilities

Overall, participants at the events agreed that the venue was easy to get to (78% agreed), the venue was satisfactory (81% agreed) and the refreshments were satisfactory (77% agreed). However, it is worth noting that the event at Wychwood Park was seen as easier to get to (89% agreed) compared to the event at Crewe Hall (68.5% agreed).

A number of comments were made about both venues being 'extravagant' and 'expensive'. Why couldn't a council property be used. A few comments were also raised about the accessibility to both venues e.g. a car was required. Other comments related to no cold drinks being available, there was slow service in getting coffee and could better directions be provided before the meeting.

What participants thought about the activities involved during the events

The majority of respondents described the activities as informative (71%), useful (60.5%), worthwhile (58%) and interesting (55%). Just 1 respondent felt they were a waste of time, boring and complicated. The responses given would therefore suggest that the consultation has succeeded in informing and engaging with the participants.

What did participants think about the events

When asked their views on the events, 83% thought they had improved knowledge and 67% said they had helped explain issues. Very few comments were made but they related mainly to having more information about budgets.

Involvement in the Budget Consultation Process

84% would like to be involved in the Budget Consultation process earlier. This was summed up in the comments where people suggested being involved earlier in the financial year when their comments could make a difference to services provided.

Ways to improve the Budget Consultation Process

The main ways suggested were to start the process earlier in the year and make sure it is a real consultation. More involvement required from the community, third sector and business. Again, the need for more information prior to the events on budgetary implications is required.

Any further comments or issues not raised at the events

- There is a lot to be done in the next 78 days. Doubtful it will be achieved.

- The Parish Council is the eyes and ears of the community and should be able to pass on (and hope) that it is acted upon by the relevant East Cheshire Department
- The key question of funding of LAPs not advertised.
- Whether primary strategic partners are able to reflect the same approach.
- Again the word to send out is Local Area Working.
- The meeting / questions did not really focus on the budget - more detail required.
- The driver for service devolution is the "Junior" authority - there needs to be a simple statement "if you do not want the responsibility of service delivery, that is fine".
- Third sector sustainable funding.
- A wide range of mechanisms is needed to involve as many people as possible.
- Very worthwhile.
- There is a need for people to be aware of Local Area Agreements (LAA) and how organisations, carers and service users can influence the way that money is spent to benefit people with disabilities.
- Discussions and presentations were very high level due to range of services, could benefit from service specific consultation.
- Commit to long term Services / Funding.
- Communications – using technology e.g. Broadband, Sustainability - Flagship Council - Involvement and Outcomes.
- Would have been useful to hand out an attendance list upon arrival to encourage networking.
- Would have been useful to have more detailed paper work, in particular on relationship of LAA and budget.
- Questions posed for which answers were not yet available. How will we be informed of answers in due course?

BUDGET CONSULTATION PROCESS

1. Cheshire East Council has recently completed its first round of Budget Consultation for the 2009-10 Budget. This followed on from the processes operated by the County and District Councils to share their budget options with stakeholder groups and meet the relevant statutory and best practice requirements.

Background

2. Local authorities have a statutory duty to consult on their Budget with certain stakeholder groups such as the Schools Forum and businesses. In addition, other groups have been consulted by the existing Cheshire Councils including social care users / carers, Primary Care Trusts, members of the Local Strategic Partnership (LSP), Police and Fire. Traditionally, this has taken the style of formal meetings and based around a document setting out draft budget and policy options in detail.
3. Given the scale of the task of local government re-organisation a detailed set of Budget options has not been produced. However, the budget and service redesign process has resulted in a number of headline budget issues set in the context of the new Corporate Plan priorities and the overall ambitions of the new Authority which could be shared with stakeholders for their views.

Agreed Approach

4. The Cheshire East Cabinet agreed that a practical level of Budget Consultation should be adopted for 2009-10 with a series of events taking place in January. They also made a clear commitment to improve the process and involve stakeholders at an early stage in the future as an integral part of the Financial Planning Process.
5. All current Stakeholders were invited and advised of the approach for 2009-10. This required existing address lists to be updated and disaggregated in the case of the County.
6. The following Budget Consultation meetings took place in 2009:
 - 12 January Town and Parish Councils
 - 13 January Trade Unions as part of the Staffing Committee
 - 14 January People and Places, i.e. User / Carers, LSP members etc
 - 19 January Schools' Forum
 - 20 January Business Breakfast

Consultation Material

7. To provide a framework for the meetings a series of documents were produced, circulated in advance of the meetings and available to delegates on the day. These took the form of:

- a general background briefing and Cheshire East profile common to all consultee groups
 - a specific briefing tailored to the consultee group
8. A briefing document was also produced for members of the public and made available in libraries and public areas of the existing Councils' buildings.
9. All these documents were placed on the Cheshire East Council website. The documents and website included details of how to comment on the issues.

Outcomes

10. The Cheshire East Council Cabinet and Management Team were also well represented with the Leader and Chief Executive attending nearly all of the events.
11. The key consultation outcomes are as follows:
- Participatory budget pilot being undertaken
 - 3rd Sector funding confirmed for 2009/10
 - Shared Services being discussed with key partners
 - Business Portal will be developed working with the Chamber of Commerce
 - Initiatives to improve engagement with the local economy
 - Cheshire East Council team being established to engage with the community to address the impact of the economic downturn

Feedback

12. A summary of all the feedback is attached to this appendix in the form of minutes of the relevant meetings / discussion groups and feedback received via the website:

| Group | Annex |
|---|--------|
| Town and Parish Councils | A |
| Trades Unions | B |
| People and Places Discussion Groups: | |
| - Social Care | C(i) |
| - Health and Wellbeing | C(ii) |
| - Roads and Transport | C(iii) |
| - Waste and Other Services | C(iv) |
| Schools' Forum | D |
| Business Breakfast | E |
| Correspondence with members of the public | F |

13. All delegates were asked to complete a questionnaire at the end of the meetings. The feedback from these forms has been analysed and the results are attached at Annex G. These will be used to inform future events.

Where next?

14. Cabinet Members have given a clear undertaking to improve consultation arrangements for the 2010/11 Financial Planning process and this will start early in the new Financial year.

Conclusion

15. Cabinet Members reviewed all the feedback from the events and, where possible, have factored these into their detailed budget deliberations. However, given the time and resource constraints it has not been possible to address all the issues and the debate over service levels, in light of the feedback received, will continue into 2009/10.

This page is intentionally left blank

Appendix G

People Directorate

Budget proposals to meet guideline savings target

| PROPOSALS ASSESSED AS HIGH/MEDIUM RISK (RED/AMBER) | |
|--|---------------|
| <u>Children & Family</u> | £'000 |
| Review/Reduce cost of professional services to schools | -450 |
| Review of Connexions Services (subject to contract negotiation) | -200 |
| Invest to save – increase in foster care allowances | 258 |
| Review base budget expenditure charged to DSG | -500 |
| Review base budget expenditure charged to Sure Start grant | -250 |
| Review redundancy budget for school based staff | -100 |
| Migrate part of Family Information Service to Contact Centre | -50 |
| Borrowing Costs of Capital Investment in Contact Point | 52 |
| Resulting revenue savings from capital investment in Contact Point | -52 |
| Sub Total | -1,292 |
| <u>Adults</u> | |
| Reduce costs in the Learning Disability Pooled Budget | -150 |
| Integration of Social Care Teams | -850 |
| Investing in Enablement/Prevention | 1,020 |
| Resulting offset from the reduced costs of care from above programme | -1,020 |
| Reduction in Costs of In-house Provider Services | -1,125 |
| Reducing Reliance on Residential Care through the following scheme | -1,920 |
| Investing in Extra Care Housing | 1,440 |
| Further savings in provider services | -250 |
| Borrowing Costs of Capital Investment in FMW | 146 |
| Resulting revenue savings from capital investment in FMW | -146 |
| Sub Total | -2,855 |
| <u>Health & Wellbeing</u> | |
| Review/Reduce subsidy to Crewe Lyceum Theatre | -100 |
| Savings from the rationalisation of services within Health & Wellbeing | -400 |
| Borrowing Costs of Capital Investment in RFID | 86 |
| Resulting revenue savings from capital investment in Libraries | -86 |
| Sub Total | - 500 |

PROPOSALS ASSESSED AS LOW RISK (GREEN)**Children & Family**

£'000

Funding for inherited overspend c/fwd

1,724

Increased use of Standards Fund

-100

Review base budget expenditure charged to Area Based Grant

-250

Review of Business Support

-300

Rationalise workforce development team

-50

Reduce non staffing budgets by 30%

CHESHIRE EAST COUNCIL

CABINET

Date of meeting: 17 February 2009
Report of: Borough Treasurer and Head of Assets
Title: Transitional Costs Three Quarter Year Review

1.0 Purpose of Report

- 1.1 To consider the outcome of the three quarter year review of Transitional Costs.
- 1.2 To provide an update on the review of Transitional Costs, spending levels and the various sources of funding. This is the third full review of the programme since the Transitional Costs were approved by Cabinet in June.

2.0 Decision Required

- 2.1 To note the outcome of the three quarter year review.

3.0 Financial Implications for Transition Costs

- 3.1 In April the lead officers for the various blocks (People, Places, Performance and Capacity) and cross-cutting Workstreams (Finance, ICT, HR etc) were asked to identify transitional costs and existing sources of funding. Their responses were subject to two rounds of evaluation and review by the Interim Chief Finance Officers, the Block and Workstream Leads and Finance officers assigned to each of the areas.
- 3.2 Revised proposals from Block and Workstream Leads were considered by Cabinet in June 2008 where the position was summarised as a potential gross cost for Cheshire East of £9.3m, with estimated funding from existing sources of £5.4m, resulting in potential net transitional costs of £3.9m.
- 3.3 Acting on the advice of the Joint Implementation Team the Cabinet agreed that, while work should continue to refine and where possible reduce these cost estimates, the majority were sufficiently robust and the need to spend sufficiently pressing, that spending on net costs amounting to £2.7m be approved. This included £75k of funding previously agreed by the Joint Committee.
- 3.4 The Cabinet noted that there were also activities and costs which were not yet considered urgent/robust and these would be the subject of further reports to Members before significant expenditure was incurred.

4.0 The Funding of Transitional Costs

4.1 The following approach to the funding of transitional costs has been adopted by the existing authorities:

- a) separate budgets for Cheshire East and Cheshire West and Chester to reflect the fact that the two Shadow Authorities will in some areas adopt different policies and approaches with different cost implications.
- b) the district council element of cost to be shared pro rata to tax base.
- c) the County Council to bear 45% of the costs for both Cheshire East and Cheshire West and Chester.

4.2 This approach results in the following cost-sharing proportions:

| | | |
|----------------------------------|-------|-----------------|
| Cheshire County Council | 45% | (East and West) |
| Congleton Borough Council | 13.5% | (East only) |
| Crewe & Nantwich Borough Council | 16% | (East only) |
| Macclesfield Borough Council | 25.5% | (East only) |

4.3 It is recognised that the financial position of existing Authorities regarding reserves and cash flow differs and that a pragmatic approach will be required to ensure that an authority does not experience cash flow difficulties or have a negative reserves position at the end of the financial year.

5.0 The Management of Transitional Costs

5.1 Block and Workstream Leads have been empowered to procure and deploy resources as required, to ensure the timely delivery of their agreed work programmes, provided they operate within agreed projected costs and the appropriate financial and procurement procedures. A range of operating principles and procedures were also agreed including nominated block, project and finance leads.

6.0 First Quarter Review and Changes Approved

6.1 Following the approved guidance and processes, the first quarter update concluded that the programme agreed, to facilitate a smooth transition, was in place and managers across the Councils are working together to deliver the individual transition projects. There were a few changes to forecasts, with a total forecast net spend remaining at £8.9m across East and West, although a small overspend of £130k was being reported by managers. Managers reported that they were likely to spend the allocations provided by the year end.

6.2 Following approval of the budget for transitional costs in June, Members have agreed a number of changes taking the total maximum allocated net sum to £4.128m.

7.0 Mid and Three Quarter Year Review of Expenditure

- 7.1 At the mid-year review, managers were forecasting net spending levels of £3.7m against the approved allocation of £4.1m, with under spends anticipated against some areas of the ICT programme amongst others. Table 1 below provides a summary, although managers requested that budgets remain available to them due to the level of uncertainty with certain projects.

| Table 1 | Potential Cost £'000 | Forecast £'000 | Variance £'000 |
|----------------------------------|-------------------------------------|---------------------------|---------------------------|
| People | 663 | 645 | (18) |
| Places | 0 | 0 | 0 |
| Perf & Capacity | 1904 | 1,734 | (170) |
| Customer Access | 277 | 277 | 0 |
| Appointment of Senior Management | 200 | 200 | 0 |
| <u>Cross Cutting (50% share)</u> | | | |
| Human Resources | 135 | 135 | 0 |
| ICT & Knowledge Management | 949 | 663 | (286) |
| Information Management | 0 | 0 | 0 |
| Finance | 0 | 0 | 0 |
| Total | 4,128 | 3,654 | (474) |

- 7.2 Actual spending levels during the first half year were lower than would have been anticipated, although this was partly to be expected given that spending is in preparation for Local Government Reorganisation (LGR) and certain elements can only be incurred during the final quarter. Spending levels have increased substantially in the third quarter, but if the current pace of spending continues an under spend against the total allocation is likely.
- 7.3 At the three quarter year review, managers are forecasting net spending levels of £4.0m against the approved allocation of £4.1m. Table 2 below provides a summary. The main changes relate to additional costs recruiting the senior management teams and anticipated higher ICT spending levels, on for example the Government Connect Initiative requiring all public sector organisations to secure their communication methods with Government, offset in part by lower spending in the People's Block.

| Table 2 | Potential Cost £'000 | Forecast £'000 | Variance £'000 |
|----------------------------------|-------------------------------------|---------------------------|---------------------------|
| People | 663 | 280 | (383) |
| Places | 0 | 0 | 0 |
| Performance & Capacity | 1904 | 1,737 | (167) |
| Customer Access | 277 | 227 | (50) |
| Appointment of Senior Management | 200 | 680 | 480 |
| <u>Cross Cutting (50% share)</u> | | | |
| Human Resources | 135 | 146 | 11 |
| ICT & Knowledge Management | 949 | 961 | 12 |
| Information Management | 0 | 0 | 0 |
| Finance | 0 | 0 | 0 |
| Total | 4,128 | 4,031 | (97) |

- 7.4 In addition to the £4.1m allocated for transitional costs, the four Councils identified a further £5.4m of existing sources of funding to support the programme taking the gross costs during 2008/09 to £9.5m. The funding remains available although, where funding is in the form of staff time and that time is not utilised through the year, less capacity, and therefore funding, will be available later in the year. This is an issue raised within the ICT and Knowledge Management part of the programme, and has resulted in additional contractor time being purchased to cover the workload.
- 7.5 Originally all redundancy costs were expected to be incurred during 2009/10. Following decisions across all existing Councils, a number of voluntary redundancies, related to LGR and the re-design of services, have been approved and will occur during 2008/09. The Voluntary Redundancy process has not yet been completed therefore the original Business Case costs, pay back to reserves and savings have been included in the 2009/10 budget until the actual figures are finalised. At this stage it is estimated that the number of redundancies for Cheshire East will be in the region of 170 in 2008/09. This compares with an original Business Case assumption of 79 redundancies all told. The total cost of redundancy, payment in lieu of notice and pension costs is expected to be in the region of £11.3m. The costs of redundancy and payments in lieu, of approximately £5.9m, will be funded up front from reserves by the existing four Cheshire East authorities in line with the above share agreement. The remaining cost will be phased over a maximum of five years and again will be funded from reserves in the first instance, with an overall aim to replenish reserves within three years from the associated staffing savings. In addition, the 2009/10 Budget currently includes an estimate of the likely relocation costs for staff moving from a West location to an East location at £1.4m, again to be funded in the first instance from reserves. This position is currently being reviewed in light of the information on staff to be transferred to Cheshire East Council and the Accommodation Strategy plans for movement of staff to East locations.
- 7.6 The number of applications for Voluntary Redundancy was higher than expected at around 500. This has enabled Cheshire East Council to make the necessary staffing reductions associated with LGR and the transformational re-

design of services earlier than originally expected in the Business Case. This has increased the up-front costs to be funded initially from reserves but has also significantly increased the early achievement of savings. The additional saving is conservatively estimated at £2m in 2009/10, over and above the savings targets already included in the 2009/10 Budget. This additional saving, in the first instance, can be used to pay back to reserves and, once pay back is complete, to re-invest in the Council's priority services.

8.0 Financial Implications 2009/10 and beyond

- 8.1 In evaluating transitional costs officers have sought to avoid short-term approaches which minimise costs in 2008/09 but increase future costs and do not secure value for money over the medium term.
- 8.2 This report focuses primarily on transitional costs in 2008/09 (i.e. up to 1st April 2009) but some slippage of expenditure into 2009/10 is likely. Some activities such as the adaptation of properties and ICT systems will continue beyond 1st April 2009 and are likely to incur additional costs in 2009/10 and perhaps beyond, which will need to be funded from delivered savings.
- 8.3 Approximately £2.3m of the existing budgets being used to fund transitional costs are capital budgets which are financed by borrowing. The resulting debt will need to be serviced beyond 2008/09 by the new Authorities. This is particularly true of the County Council's contribution to ICT costs but this expenditure was planned as part of the Capital programme and fully financed through the Medium Term Financial Strategy. It is therefore expenditure that has been redirected to meet the priority needs of LGR rather than additional expenditure. There is the potential to finance a further £0.3m of the net spending from capital budgets if that were deemed appropriate at the year end.

9.0 Legal Implications

- 9.1 The Cheshire (Structural Changes) Order 2008 Article 9 (7) indicates that:

The total of the expenditure properly incurred by the shadow authorities shall be divided among, and paid by, the County Council, the East Cheshire councils and the West Cheshire councils in such proportion as may be agreed between them.

Details of the agreement are provided in Section 4.

- 9.2 Also under Article 9 of the Cheshire (Structural Changes) Order 2008 Cheshire East has power to contract, subject to meeting the criteria stated there. This is because the power is being exercised in the discharge of the functions set out in the Order, and in the same manner and subject to the same conditions and limitations as would apply to a non-metropolitan county or district council.

10.0 Risk Assessment

- 10.1 'Strategic financial issues' are listed on the risk register with a specific reference to the management and control of transitional costs. Too high a level

of transitional costs would have an adverse impact on the financial status of the new authority, its ability to maintain an adequate level of reserves and ultimately on service delivery. However, failure to invest adequately in necessary transitional activity, risks failure to meet service commitments on 1st April 2009 and beyond and could prove a false economy if it resulted in higher costs post 1st April 2009. The approach that has been adopted to date and is described in this report seeks to strike a balance between these conflicting risks by having a clear process to identify, challenge, manage and monitor transitional costs.

11.0 Conclusion and Reasons for Recommendation

- 11.1 Transitional costs are projected to be broadly in line with agreed potential costs. It was always envisaged that transitional costs would need to be revised in light of experience and further information and some provision for this was made within the figures. Whilst no further approvals have been requested Members should note that the pattern of spending forecast has changed with under spending in some areas being used to fund overspending in others.

CHESHIRE EAST COUNCIL

Cabinet

Date of meeting: 17th February 2009
Report of: Borough Treasurer & Head of Assets
Title: Treasury Management Strategy and MRP Statement 2009/10

1.0 Purpose of Report

- 1.1 To present the Treasury Management Strategy for 2009/10 to 2011/12 including the prudential indicators and limits required under Part 1 of the Local Government Act 2003 and the Annual Investment Strategy 2009/10 and Annual Policy Statement on Minimum Revenue Provision (MRP) for the redemption of debt 2009/10

2.0 Decision Required

- 2.1 Cabinet is requested to recommend to Council the approval of the Treasury Management Strategy and the MRP Statement for 2009/2010. The Strategy includes the Department for Communities and Local Government (DCLG) reporting requirements in accordance with the Local Government Investments Guidance under Section 15(1)(a) of the Local Government Act 2003 (Appendix A).

3.0 Financial Implications for Transitional Costs

- 3.1 None.

4.0 Financial Implications 2009/10 and Beyond

- 4.1 Effective Treasury Management provides support towards the achievement of service priorities, it allows the Council to invest in capital projects without any limit as long as it can demonstrate that its capital expenditure plans are affordable, external borrowing is prudent and sustainable and treasury decisions are taken in accordance with good practice.

5.0 Treasury Management Strategy

- 5.1 The Treasury Management Strategy for 2009/10 is the Council's first such Strategy and comes at a time of significant economic uncertainty. The Council is therefore mindful of the risk, both in terms of Market risk and Investment Income risk and this has been reflected in the 2009/10 Budget.
- 5.2 The Local Government and Public Involvement in Health Act 2007 places a requirement of all councils to approve a policy on how the amount provided in

respect of the repayment of debt is calculated prior to the start of the financial year concerned. The Policy for the year 2009/10 is contained in Appendix B. The budgeted provision for the repayment of debt in the year 2009/10 has been broadly calculated as 4% of the estimated outstanding debt at the end of the year 2008/09 with a small number of exceptions. These exceptions comprise capital expenditure on capital projects that has been funded through unsupported borrowing by the Legacy Authorities.

- 5.3 The amount charged in respect of the repayment of debt is currently just above the generally accepted prudent minimum. The amount provided is also below the amount of capital expenditure being funded from borrowing in each of the next few years. As a consequence the amount of debt outstanding is increasing each year. As the level of outstanding debt increases the amount that needs to be provided for the repayment of debt in future years also increases. The aim from year two of the Medium Term Financial Strategy will be to reverse this trend.

5.4 **Capital Financing Budget 2009-10**

| | £m |
|--|---------------|
| Provision for debt repayment | 6.22 |
| Direct revenue funding | 3.05 |
| Interest on long term loans | 7.84 |
| Other interest payable | 0.21 |
| Revenue contribution from Services | <u>(4.10)</u> |
| Total Debt Repayment | 13.22 |
| <u>Less</u> Interest receivable on cash balances | <u>(0.90)</u> |
| Net Capital Financing Budget | 12.32 |

- 5.5 The amount of interest paid on the Council's portfolio of long term loans is mainly at fixed rates of interest (circa 4.9%). This provides a degree of certainty to the capital financing budget. The rate of interest payable on the £25 million of new long term loans that it is planned to raise during the year 2009/10 is budgeted to be 4.5%. Currently long term interest rates are around 4.65%. However, within the Treasury Management Strategy, the Council will use internal balances where possible to reduce the costs in the short term of external borrowing.
- 5.6 The rate of interest to be earned on the Council's cash balances that are temporarily invested pending their being used (estimated at £140 million) is budgeted to be 0.65%, depending on external cashflows and levels of inherited reserves. This compares with an original assumption in the Financial Scenario of £6.3m before interest rates started to plummet.
- 5.7 Currently the conditions in the world's money and capital markets are very uncertain. This uncertainty has prevailed for a number of months now and is likely to prevail for a long while yet. A high degree of caution therefore needs to

be exercised in respect of the estimated rates of interest mentioned above. The Borough Treasurer and Head of Assets will be monitoring this position and its impact on the budget carefully throughout the year.

6.0 Legal Implications

- 6.1 It is a requirement of the CIPFA Code of Practice for Treasury Management in The Public Sector, that Council receives an Annual Report on its Treasury Strategy, that Council sets Prudential Indicators for the next three years and approves an Annual Investment Strategy and an Annual MRP Policy Statement.

7.0 Risk Assessment

- 7.1 The Council regards the successful identification, monitoring and control of risk to be the prime criteria by which the effectiveness of its treasury management function will be measured. The main risks are identified along with procedures to manage and control the risks are detailed in Appendix A, Section 5. The analysis and reporting of treasury management activities will focus on their risk implications for the Council.

8.0 Conclusion and Reasons for Recommendation

- 8.1 The Treasury Management Strategy details the activities of the Treasury Management function in the forthcoming year 2009/10. The Strategy for 2009/10 reflects the views on interest rates of leading market forecasts provided by Arlingclose, the Council's advisor on treasury matters. It also includes the Prudential Indicators relating to Treasury Management.
- 8.2 The CIPFA Code of Practice on Treasury Management, when adopted by a local authority, gives it the status of 'a code of practice made or approved by or under enactment' and hence proper practices under the provision of the Local Government and Housing Act 1989.

CHESHIRE EAST TREASURY MANAGEMENT STRATEGY 2009/10

1. INTRODUCTION

- 1.1 The Local Government Act 2003 requires the Council to have regard to the Prudential Code and to set Prudential Indicators for the next three years to ensure that the Council's capital investment plans are affordable, prudent and sustainable.
- 1.2 The Act therefore requires the Council to set out its Treasury Strategy for borrowing and to prepare an Annual Investment Strategy; this sets out the Council's policies for managing its investments and for giving priority to the security and liquidity of those investments.

2. BACKGROUND

- 2.1 The Chartered Institute of Public Finance and Accountancy's Code of Practice for Treasury Management in Public Services (the "CIPFA TM Code") requires local authorities to set the Treasury Management Strategy Statement (TMSS) for borrowing each financial year.
- 2.2 CIPFA has defined Treasury Management as:

"the management of the organisation's cash flows, its banking, money market and capital market transactions; the effective control of the risks associated with those activities; and the pursuit of optimum performance consistent with those risks."

- 2.3 It is a statutory requirement, under Section 33 of the Local Government Finance Act 1992, for the Council to produce a balanced budget. In particular, Section 32 requires a local authority to calculate its budget requirement for each financial year to include the revenue costs that flow from capital financing decisions. This means that increases in capital expenditure must be limited to a level whereby increases in charges to revenue from:
 - increases in interest charges caused by increased borrowing to finance additional capital expenditure, and
 - any increases in running costs from new capital projects are affordable within the projected income of the Council for the foreseeable future.
- 2.4 Members' involvement in the process is essential in order that the Council can demonstrate that its capital expenditure plans are affordable, external borrowing is prudent and sustainable and treasury decisions are taken in accordance with good practice.
- 2.5 The Council regards the successful identification, monitoring and control of risk to be the prime criteria by which the effectiveness of its treasury management activities will be measured. Treasury management risks are identified in the Council's approved Treasury Management Practices; the main risks to the Council's treasury activities are:
 - Liquidity Risk (Inadequate cash resources)

- Market or Interest Rate Risk (Fluctuations in interest rate levels and thereby in the value of investments).
- Inflation Risks (Exposure to inflation)
- Credit and Counterparty Risk (Security of Investments)
- Refinancing Risks (Impact of debt maturing in future years).
- Legal & Regulatory Risk (i.e. non-compliance with statutory and regulatory requirements, risk of fraud).

3. LOCAL GOVERNMENT REVIEW

- 3.1 As Members and Officers are aware the merger of the three District Councils within East Cheshire and the disaggregated share of Cheshire County Council's investment and borrowing portfolio's will come under the ownership of the New Unitary Authority, Cheshire East.
- 3.2 As such some of the key areas of the new treasury management function have yet to be decided for the 2009/10 financial year and work is still continuing in the shape of the joint Treasury Management Group to work out a cutover strategy from 1st April 2009. Two key areas where decisions are still to be made are as follows:
- The final disaggregation of Cheshire County Council's balance sheet commitments for loans and investments as at 31st March 2009.
 - Whether the new Authority will use the specialist services of an external cash manager.
- 3.3 New Treasury advisors are to be appointed for Cheshire East, a panel of Treasury Officers interviewed prospective advisors and Arlingclose were chosen as the preferred candidate for Cheshire East and the contract is due to commence shortly.

4. CURRENT POSITION

The Council's treasury portfolio position as at 9th January 2009 comprises of the three existing District portfolio positions and the County Council's share that has been disaggregated to the East.

| Investments | Principal £m |
|--|---------------------|
| Macclesfield Borough Council | 39.5m |
| Congleton Borough Council | 16.0m |
| Crewe & Nantwich Borough Council | 35.9m |
| Cheshire County Council (disaggregated East) | 51.3m |
| Total Investments | 142.7m |
| | |
| Debt | Principal £m |
| Cheshire County Council (disaggregated East) | 135.6m |
| Total Debt | 135.6m |

5. RISK MANAGEMENT

- 5.1 The identification, understanding and management of risk are, by necessity, a major part of an organisation's treasury management activities. It is therefore no surprise to learn that risk management is, and has been for a number of years, well embedded in the area of treasury management.
- 5.2 The consequences of making a wrong treasury management decision can be significant and long lasting. eg were the Council to invest monies with a lender who ultimately cannot repay the amount lent to them (ie defaults on repayment) then the whole of the amount not repaid will fall as a charge on the I&E account in the year in which the default occurs.
- 5.3 To avoid the Council suffering loss as a result of its treasury management activities a number of risk management procedures have been put in place. These are listed below. These procedures are based on the concept that firstly security of principal is paramount, secondly that there is a need to maintain liquidity and finally earning a rate of return commensurate with the first two concepts.

Liquidity risk

- 5.4 The risk that cash will not be available when it is needed to meet the Council's obligations.
- 5.5 The Council prepares an annual cash flow forecast each year that identifies, by month, the anticipated cash inflows and outflows over the year. The purpose of preparing such a forecast is to identify the timing, duration and magnitude of any cash surpluses and shortfalls.
- 5.6 A daily cash flow spreadsheet is also maintained that lists all the monthly major cash inflows and outflows. This spreadsheet is a key input when deciding how long any surplus cash balances should be invested for. The first priority when investing surplus cash balances is to cover known cash outflows i.e. to retain liquidity.

Credit (or counter-party) risk

- 5.7 The risk that an amount deposited by the authority will not be repaid in full on the day it is due.

- 5.8 When selecting counter-parties (ie banks and building societies) with which the Council will deposit monies the avoidance of loss of principal is regarded as paramount. This is achieved by having in place formal policies and procedures that ensure that the risk of a potential loss of principal through the default of a counter-party is reduced to a suitably agreed and acceptable level.
- 5.9 These policies and procedures include setting minimum requirements on the independently assessed financial standing of the counterparties with which monies are deposited. In addition an upper limit is placed on the amount that can be deposited with an individual counterparty or with a group of related counterparties.

Refinancing risk

- 5.10 The risk that the Council will be unable to renew its maturing funding arrangements / reinvest deposits on reasonable terms.
- 5.11 This risk is managed to an acceptable level by ensuring that the maturity profile of the Council's long term loans portfolio remains fairly smooth. The Council also tries to avoid having too large an amount of loans maturing on a particular day or in a particular financial year.

Legal and regulatory risk

- 5.12 The risk that one of the parties to an agreement will be unable to honour its legal obligations to the other party.
- 5.13 When investing its cash balances the Council ensures that it adheres to the guidance on the investment of surplus cash balances by local authorities that was issued by the Secretary of State at the Office of the Deputy Prime Minister (ODPM) in March 2004.

Prevention of fraud, error and collusion

- 5.14 A set of comprehensive procedures exist that detail the procedures and processes that need to be undertaken before, during and after entering into a money market deal.
- 5.15 The purpose of these procedures and processes is to ensure that a clear segregation of duties is in place. This segregation of duties ensures that at least two members of staff have checked and agreed the details of the money market transaction before any monies are paid over.

6. OUTLOOK FOR INTEREST RATES

The economic interest rate outlook provided by the Council's treasury advisor, Arlingclose Ltd, is summarised below. See Annex B for further details.

(a) Background

Central bankers acted decisively in October 2008 as the effective breakdown of financial systems threatened to destabilise the global economy. It included government sponsored recapitalisations, interventions through the provision of

liquidity and guarantees for lending; in some instances nationalisation of private sector financial institutions; the removal of compromised assets from banks' balance sheets through special finance mechanisms; and co-ordinated emergency interest rates cuts. The UK, Eurozone and US economies contracted in the third and fourth quarters of 2008.

(b) Outlook

- **Availability of credit** is likely expected to remain restricted and credit conditions challenging, particularly as banks change their lending behaviour and lower their lending risk. The poorly functioning transmission mechanism for lower rates to be passed to consumers could cause governments to intervene directly between banks and corporates/individuals.
- **Inflation:** The elevated levels of commodity, food and energy inflation which exerted a powerful squeeze on real incomes in 2008 are expected to fade in 2009. CPI, which had risen to 5.2% in 2008, is now expected to fall below the MPC's lower boundary of 1%. Whilst this will provide consumers some relief, lower inflation erodes debt burdens more slowly.
- **Labour market:** Unemployment, already at 6%, is expected to rise further. The fear of unemployment will keep wage bargaining and wage inflation to a minimum.
- **Housing / Consumer Confidence:** The prospect of negative housing equity, and/or rising unemployment and depressed asset values could culminate in a further negative loop-back for confidence. Consumers and businesses will scale back spending to conserve or repair their balance sheets.
- **Growth:** The effort to reduce erstwhile ballooning debt will hit economic activity and growth in the UK, US and in Europe. The prospects for growth remains uniformly poor in for much of 2009. Asset values are forecast to drop further, particularly those which are commodities and housing-related.
- **Interest Rates:** To avoid deflation and to mitigate the severity of the economic slowdown, there will be a growing willingness by Central Bankers to countenance abnormally low interest rates and/or some form of quantitative easing (i.e. using more unconventional methods such as expanding the central bank's balance sheet and injecting cash into the economy), sooner rather than later.
- **Market conditions and volatility:** Market volatility remains high, risk appetite at a low ebb; markets are expected to continue in 'capital preservation mode' into early 2009. Although Libor is falling, the gap between official and market interest rates is likely to remain relatively wide for some months to come.

The deterioration in public finances – both via the cost of shoring up the financial system and also as recession hits the government's revenue streams – and the

burgeoning budget deficit will require significant new gilt issuance in 2009. This excess supply is expected to push longer dated yields higher although not aggressively so. Short-dated gilt yields are however expected to fall with the gathering momentum of a fall in official policy rates.

The price destruction in equities will keep stock markets subdued and, even though there may be tentative signs of stability, it would be too early to say if a bottom has been reached.

The Arlingclose forecast for the UK Bank Rate (December 2008) is:

| | Mar-09 | Jun-09 | Sep-09 | Dec-09 | Mar-10 | Jun-10 | Sep-10 | Dec-10 | Mar-11 |
|---------------------------|-------------|-------------|-------------|-------------|-------------|-------------|-------------|-------------|-------------|
| Official Bank Rate | | | | | | | | | |
| Upside risk | | | | | | | +0.25 | +0.25 | +0.25 |
| Central case | 1.00 | 1.00 | 1.00 | 1.00 | 1.00 | 1.50 | 2.00 | 2.50 | 2.50 |
| Downside risk | -0.50 | -0.75 | -0.75 | -0.75 | -0.75 | -0.50 | -0.50 | -0.50 | -0.50 |

The probability of zero or near zero interest rates – unthinkable just a few months ago – is now very high. The economic outlook provides both opportunities and challenges for the Council's treasury strategy in 2009-10.

7. BORROWING REQUIREMENT & STRATEGY

- 7.1 The Council's underlying need to borrow for capital purposes is measured by reference to its Capital Financing Requirement (CFR) – see Annex A. The change, year on year will be influenced by the capital expenditure in the year and the means available to finance it. The CFR will determine the Council's requirement to make a Minimum Revenue Provision for Debt Redemption (MRP) from within its Revenue budget. Physical borrowing may be greater or less than the CFR.
- 7.2 In accordance with the Prudential Code, the Council will ensure that net external borrowing does not, except in the short term, exceed the CFR in the preceding year plus the estimates of any additional CFR for the current and next two financial years.
- 7.3 Capital expenditure not financed from internal resources (i.e. Capital Receipts, Capital Grants and Contributions, Revenue or Reserves) will produce an increase in the CFR (the underlying need to borrow) and may in turn produce an increased requirement to charge MRP in the Revenue Account.
- 7.4 The Council prefers to maintain maximum control over its borrowing activities as well as flexibility on its loans portfolio. Capital expenditure levels, market conditions and interest rate levels will be monitored during the year in order to minimise borrowing costs over the medium to longer term. A prudent and pragmatic approach to borrowing will be maintained to minimise borrowing costs without compromising the longer-term stability of the portfolio, consistent with the Council's Prudential Indicators.
- 7.5 In conjunction with advice from its treasury advisor, Arlingclose Ltd, the Council will keep under review the options it has in borrowing from the PWLB, the market and other sources identified in the Treasury Management Practices Schedules up to the available capacity within its CFR and Affordable Borrowing Limit (defined by CIPFA as the Authorised Limit).

- 7.6 Short-dated gilt yields are forecast to be considerably lower than medium- and long-dated gilt yields during the financial year. Despite additional gilt issuance to fund the UK government's support to the banking industry, short-dated gilts are expected to benefit from expectations of lower interest rates as the economy struggles through a recession. Yields for these maturities will fall as expectations for lower interest rates mount.

The Outlook for Borrowing Rates:

- 7.7 Variable Rate borrowing : The shocks in the financial markets in the second half of 2008 leaves the UK in a different era in respect of official interest rates which are forecast to fall below 1.5%. By December 2008 the rates for PWLB variable-rate borrowing had fallen substantially and are forecast to fall to altogether very low levels as the Bank Rate is cut further.
- 7.8 Fixed rate borrowing: Gilts across all maturities will initially benefit from their status of safe haven assets in uncertain economic times. As yields fall initially, fixed PWLB rates across most maturities could challenge historic lows. As the UK Bank Rate falls to 1% or lower, short-dated yields and PWLB rates should provide some attractive fixed rate borrowing opportunities.
- 7.9 The Council will evaluate the relative merits of a strategic exposure to variable rate debt. Decisions to borrow at low, variable rates of interest will be taken after considering the absolute level of longer term interest rate equivalents and the extent of variable rate earnings on the Council's investment balances. Should longer term rates move below the cost of variable rate borrowing any strategic exposure to variable interest rates will be reviewed and, if appropriate, reduced.
- 7.10 Actual borrowing undertaken and the timing will depend on capital expenditure levels, interest rate forecasts and market conditions during the year, in order to minimise borrowing costs. The Council will consult their advisors Arlingclose on the specific timing of borrowing. This may include borrowing in advance of future years' requirements provided that overall borrowing is maintained within the Council's projected CFR and its approved Affordable Borrowing Limit.
- 7.11 The Council will undertake a financial options appraisal process to establish how it has arrived at its 'value for money' judgement in the use of resources.

8. Debt Rescheduling

- 8.1 The Council will continue to maintain a flexible policy for debt rescheduling. Market volatility may provide opportunities for rescheduling debt from time to time. The rationale for rescheduling would be one or more of the following:
- Savings in interest costs with minimal risk.
 - Balancing the volatility profile (i.e. the ratio of fixed to variable rate debt) of the debt portfolio.
 - Amending the profile of maturing debt to reduce any inherent refinancing risks.
- 8.2 The rescheduling of PWLB debt since the introduction of its repayment rates on 1st November 2007 has not ceased, but has become undoubtedly harder and places

greater emphasis on the timing and type of new borrowing. PWLB rates exhibited a fair degree of volatility in 2008-09; should a similar pattern emerge in 2009-10, this could provide the Council with some rescheduling opportunities.

- 8.3 Any rescheduling activity will be undertaken within the Council's treasury management policy and strategy. Thereafter the Council's debt portfolio will be monitored against equivalent interest rates and available refinancing options on a regular basis.
- 8.4 All rescheduling activity will comply with the accounting requirements of the local authority SORP and regulatory requirements of the Capital Finance and Accounting Regulations (SI 2007 No 573 as amended by SI 2008/414).

9. Investment Policy and Strategy

Background

- 9.1 Guidance from the then ODPM (now DCLG) on Local Government Investments in England requires, similarly, that an Annual Investment Strategy (AIS) be set. The Guidance permits the TMSS and the AIS to be combined into one document.

Investment Policy

- 9.2 The Council's general policy objective is to invest its surplus funds prudently. The Council's investment priorities are:
- security of the invested capital;
 - liquidity of the invested capital;
 - an optimum yield which is commensurate with security and liquidity.
- 9.3 Investments are categorised as 'Specified' or 'Non Specified' investments based on the criteria in the ODPM Guidance. Potential instruments for the Council's use within its investment strategy are contained in Annex C.
- 9.4 The credit crisis has refocused attention on the treasury management priority of security of capital monies invested. The Council will continue to maintain a counterparty list based on its criteria and will monitor and update the credit standing of the institutions on a regular basis. This assessment will include credit ratings and other alternative assessments of credit strength (for example, statements of potential government support). The Council will also take into account information on corporate developments of and market sentiment towards investment counterparties.

Investment Strategy

- 9.5 The global financial market storm in 2008 has forced investors of public money to reappraise the question of risk versus yield. Income from investments is a key support in the Council's budget.

- 9.6 By January 2009 the UK Bank Rate had fallen to 1.5%, its lowest level since the 1950s. It is expected that the Bank Rate will fall to near zero in 2009/10, short-term money market rates will continue to fall to very low levels which will have a significant impact on investment income. The Council's strategy must however be geared towards this development whilst adhering to the principal objective of security of invested monies. All investments will be in sterling.
- 9.7 The Borough Treasurer, under delegated powers, will undertake the most appropriate form of investments in keeping with the investment objectives, income and risk management requirements and

Investments Managed In-house :

- 9.8 The Council's shorter term cashflow investments are made with reference to the outlook for the UK Bank Rate and money market rates. For these monies, the Council will mainly invest in
- The Debt Management Agency Deposit Facility (The rates of interest from the DMADF are below equivalent money market rates. However, the returns are an acceptable trade-off for the guarantee that the Council's capital is secure.)
 - AAA-rated Money Market Funds with a Constant Net Asset Value (Constant NAV) investing predominantly in government securities
 - AAA-rated Money Market Funds with a Constant Net Asset Value (Constant NAV) investing in instruments issued primarily by financial institutions;
 - Deposits with other local authorities
 - Business reserve accounts
 - Term deposits
 - Certificates of deposit.

Investments managed externally

- 9.9 The Council's funds are also managed on a discretionary basis by Investec, The fund's remit allows the managers scope to add value through the use of investments contained in Annex C and within the parameters and guidelines set for the Council's fund. Performance is monitored and measured against the benchmark set for the fund, prevailing economic conditions and investment opportunities. A further decision on whether this arrangement will continue in 2009/10 is still to be made.

10 REPORTING

- 10.1 The Borough Treasurer will report to the Cheshire East Cabinet on treasury management activity / performance as follows:
- (a) annually against the strategy approved for the year.
 - (b) The Council will produce an outturn report on its treasury activity no later than 30th September after the financial year end.

Reporting on the Treasury Activity during 2009/10 will be in accordance with the following timetable:

| | Date | Meeting | Responsibility |
|------------------------|-------------------------|-----------------|-----------------------|
| Strategy Report | February 2009 | Cabinet/Council | Borough Treasurer |
| Quarterly Reports | Month after Quarter End | Cabinet | Borough Treasurer |
| Annual Treasury Report | August 2010 | Cabinet | Borough Treasurer |

Prudential Indicators FY 2009-10 to FY 2011-12**1 Background**

There is a requirement under the Local Government Act 2003 for local authorities to have regard to CIPFA's Prudential Code for Capital Finance in Local Authorities (the "CIPFA Prudential Code") when setting and reviewing their Prudential Indicators. It should be noted that CIPFA undertook a review of the Code in early 2008. The outcome from that review has yet to be published.

2. Estimates of Capital Expenditure

- 2.1 This indicator is set to ensure that the level of proposed capital expenditure remains within sustainable limits and, in particular, to consider the impact on Council Tax levels.

| No. 1 | Capital Expenditure | 2008-09 Approved £m | 2008-09 Revised £m | 2009-10 Estimate £m | 2010-11 Estimate £m | 2011-12 Estimate £m |
|--------------|----------------------------|------------------------------------|-----------------------------------|------------------------------------|------------------------------------|------------------------------------|
| | Total | 90 | 87 | 97 | 67 | 53 |

- 2.2 Capital expenditure will be financed as follows:

| Capital Financing | 2008-09 Approved £m | 2008-09 Revised £m | 2009-10 Estimate £m | 2010-11 Estimate £m | 2011-12 Estimate £m |
|--------------------------|------------------------------------|-----------------------------------|------------------------------------|------------------------------------|------------------------------------|
| Capital receipts | 19 | 18 | 13 | 5 | 4 |
| Capital Reserve | 5 | 4 | 2 | 3 | 3 |
| Government Grants | 30 | 29 | 44 | 42 | 31 |
| External Contributions | 5 | 4 | 6 | 0 | 0 |
| Revenue contributions | 3 | 3 | 3 | 1 | 1 |
| Supported borrowing | 19 | 17 | 13 | 13 | 13 |
| Unsupported borrowing | 9 | 12 | 16 | 3 | 1 |
| Total | 90 | 87 | 97 | 67 | 53 |

3. Ratio of Financing Costs to Net Revenue Stream

- 3.1 This is an indicator of affordability and highlights the revenue implications of existing and proposed capital expenditure by identifying the proportion of the revenue budget required to meet borrowing costs. The definition of financing costs is set out at paragraph 87 of the Prudential Code.

3.2 The ratio is based on costs net of investment income.

| No. 2 | Ratio of Financing Costs to Net Revenue Stream | 2009-10 | 2010-11 | 2011-12 |
|----------|--|-------------|-------------|-------------|
| | | Estimate | Estimate | Estimate |
| | | % | % | % |
| | Total | 5.26 | 6.28 | 5.95 |

4. Capital Financing Requirement

- 4.1 The Capital Financing Requirement (CFR) measures the Council's underlying need to borrow for a capital purpose. The calculation of the CFR is taken from the amounts held in the Balance Sheet relating to capital expenditure and its financing. It is an aggregation of the amounts shown for Fixed and Intangible assets, the Revaluation Reserve, the Capital Adjustment Account, Government Grants Deferred and any other balances treated as capital expenditure.

| No. 3 | Capital Financing Requirement | 31/3/09 | 31/3/09 | 31/3/10 | 31/3/11 | 31/3/12 |
|----------|-------------------------------|------------|------------|------------|------------|------------|
| | | Approved | Revised | Estimate | Estimate | Estimate |
| | | £m | £m | £m | £m | £m |
| | Total CFR | 153 | 153 | 175 | 181 | 186 |

- 4.2 In order to ensure that over the medium term net borrowing will only be for a capital purpose, the Council should make sure that net external borrowing does not, except in the short term, exceed the Capital Financing Requirement in the preceding year plus the estimates of any additional capital financing requirement for the current and next two financial years.
- 4.3 The Borough Treasurer reports that this Council does not envisage difficulties in meeting this requirement in future financial years.

5 Actual External Debt

- 5.1 This indicator is obtained directly from the Council's balance sheet. It is the closing balance for actual gross borrowing plus other long-term liabilities. This Indicator is measured in a manner consistent for comparison with the Operational Boundary and Authorised Limit.

| No. 4 | Actual External Debt as at 31/3/2008 | £m |
|-------|--------------------------------------|------------|
| | Borrowing | 136 |
| | Other Long-term Liabilities | 0 |
| | Total | 136 |

6. Incremental Impact of Capital Investment Decisions

- 6.1 This is an indicator of affordability that shows the impact of capital investment decisions on Council Tax and Housing Rent levels. The incremental impact is calculated by comparing the total revenue budget requirement of the current approved capital programme with an equivalent calculation of the revenue budget requirement arising from the proposed capital programme.

| No. 5 | Incremental of Investment Decisions | Impact Capital | 2009-10 | 2010-11 | 2011-12 |
|----------|--|-------------------|---------------|---------------|---------------|
| | | | Estimate £ | Estimate £ | Estimate £ |
| | Increase in Band D Council Tax | | 3.10 | 9.76 | 8.39 |

The increase in Band D council tax in 2009/10 reflects the increases in the provision for Capital Financing Charges of £0.45m to undertake borrowing of £31m arising from the proposed capital programme.

7 Authorised Limit and Operational Boundary for External Debt

- 7.1 The Council has an integrated treasury management strategy and manages its treasury position in accordance with its approved strategy and practice. Overall borrowing will therefore arise as a consequence of all the financial transactions of the Council and not just those arising from capital spending reflected in the CFR.
- 7.2 The **Authorised Limit** sets the maximum level of external borrowing on a gross basis (i.e. not net of investments) for the Council. It is measured on a daily basis against all external borrowing items on the Balance Sheet (i.e. long and short term borrowing, overdrawn bank balances and long term liabilities). This Prudential Indicator separately identifies borrowing from other long term liabilities such as finance leases. It is consistent with the Council's existing commitments, its proposals for capital expenditure and financing and its approved treasury management policy statement and practices.
- 7.3 The Authorised Limit has been set on the estimate of the most likely, prudent but not worst case scenario with sufficient headroom over and above this to allow for unusual cash movements.
- 7.4 The Authorised Limit is the statutory limit determined under Section 3(1) of the Local Government Act 2003 (referred to in the legislation as the Affordable Limit).

| No. 6 | Authorised Limit for External Debt | 2008-09 | 2008-09 | 2009-10 | 2010-11 | 2011-12 |
|-------|------------------------------------|-------------|------------|-------------|-------------|-------------|
| | | Approved £m | Revised £m | Estimate £m | Estimate £m | Estimate £m |
| | Borrowing | 149 | 149 | 218 | 222 | 226 |
| | Other Long-term Liabilities | 0 | 0 | 0 | 0 | 0 |
| | Total | 149 | 149 | 218 | 222 | 226 |

- 7.5 The **Operational Boundary** links directly to the Council's estimates of the CFR and estimates of other cash flow requirements. This indicator is based on the same estimates as the Authorised Limit reflecting the most likely, prudent but not worst case scenario but without the additional headroom included within the Authorised Limit.
- 7.6 The Borough Treasurer has delegated authority, within the total limit for any individual year, to effect movement between the separately agreed limits for borrowing and other long-term liabilities. Decisions will be based on the outcome of financial option appraisals and best value considerations.

| No. 7 | Operational Boundary for External Debt | 2008-09 | 2008-09 | 2009-10 | 2010-11 | 2011-12 |
|-------|--|-------------|------------|-------------|-------------|-------------|
| | | Approved £m | Revised £m | Estimate £m | Estimate £m | Estimate £m |
| | Borrowing | 149 | 149 | 210 | 216 | 220 |
| | Other Long-term Liabilities | 0 | 0 | 0 | 0 | 0 |
| | Total | 149 | 149 | 210 | 216 | 220 |

8. Adoption of the CIPFA Treasury Management Code

- 8.1 This indicator demonstrates that the Council has adopted the principles of best practice.

| No. 8 | Adoption of the CIPFA Code of Practice in Treasury Management |
|-------|--|
| | The Council will consider the adoption of the CIPFA Treasury Management Code at its Shadow Council meeting on 24 February 2009 |

9. Upper Limits for Fixed Interest Rate Exposure and Variable Interest Rate Exposure

- 9.1 These indicators allow the Council to manage the extent to which it is exposed to changes in interest rates. This Council calculates these limits on net principal outstanding sums, (i.e. fixed rate debt net of fixed rate investments).

- 9.2 The upper limit for variable rate exposure has been set to ensure that the Council is not exposed to interest rate rises which could adversely impact on the revenue budget. The limit allows for the use of variable rate debt to offset exposure to changes in short-term rates on investments

| | | 2008-09 Approved | 2008-09 Revised | 2009-10 Revised | 2010-11 Revised | 2011-12 Revised |
|---------------|---|---------------------|--------------------|--------------------|--------------------|--------------------|
| | | % | % | % | % | % |
| No. 9 | Upper Limit for Fixed Interest Rate Exposure | 100 | 100 | 100 | 100 | 100 |
| No. 10 | Upper Limit for Variable Rate Exposure | 100 | 100 | 100 | 100 | 100 |

- 9.3 The limits above are set at 100% for fixed and 100% for variable to allow the Council the necessary flexibility within which decisions will be made for drawing down new loans on a fixed or variable rate basis; the decisions will ultimately be determined by expectations of anticipated interest rate movements as set out in the Council's treasury management strategy.

10 Maturity Structure of Fixed Rate Borrowing

- 10.1 This indicator highlights the existence of any large concentrations of fixed rate debt needing to be replaced at times of uncertainty over interest rates and is designed to protect against excessive exposures to interest rate changes in any one period, in particular in the course of the next ten years.
- 10.2 It is calculated as the amount of projected borrowing that is fixed rate maturing in each period as a percentage of total projected borrowing that is fixed rate. The maturity of borrowing is determined by reference to the earliest date on which the lender can require payment.

| No. 11 | Maturity structure of fixed rate borrowing | Lower Limit % | Upper Limit % |
|---------------|---|----------------------|----------------------|
| | under 12 months | Nil | 25% |
| | 12 months and within 24 months | Nil | 25% |
| | 24 months and within 5 years | Nil | 35% |
| | 5 years and within 10 years | Nil | 35% |
| | 10 years and above | Nil | 100% |

11. Upper Limit for total principal sums invested over 364 days

- 11.1 The purpose of this limit is to contain exposure to the possibility of loss that may arise as a result of the Council having to seek early repayment of the sums invested.

| No. 12 | Upper Limit for total principal sums invested over 364 days shown as a % of the portfolio | Maturing beyond 1 year | Maturing beyond 2 years | Maturing beyond 3 years |
|-----------|---|------------------------|-------------------------|-------------------------|
| | | 40% | 40% | 40% |
| | | | | |

Arlingclose's Forecast for Interest Rates (December 2008)

| Downside risk | -0.10 | -0.10 | -0.10 | -0.10 | -0.10 | -0.10 | -0.10 | -0.10 | -0.10 |

- The inflationary threats of 2008 turn into the deflationary reality of 2009. Central Banks under pressure to reduce rates decisively – even to zero or near-zero – to avoid the perils of a destructive and prolonged recession.
- The downturn in the UK gathers pace and the economy contracts for much of 2009. Prospects for Bank of England “Quantitative easing” increasingly likely.
- Pension, hedge and insurance fund values struggle and lead to enhanced demand for longer dated gilts.

Underlying assumptions

- Despite central bank intervention to raise bank capital and improve liquidity, conditions in money and credit markets remain very difficult as banks' lending behaviour changes fundamentally.
- Consumer spending and business investment stall, hampered by the credit drought.
- Falling house prices compel households to review savings levels and repair balance sheets (where possible).
- Commodity prices continue to fall. CPI is projected to fall below the MPC's 1% lower threshold in 2009, providing some relief for the overstretched consumer, but eroding debt burdens more slowly.
- Fear of rising unemployment dampens confidence and any prospect of sizeable wage demands.
- UK public finances are in horrid shape and will worsen as the recession bites, resulting in a slew of gilt issuance in 2009. This will ultimately push gilt yields higher, although not aggressively so.
- Global growth and activity continue to weaken. The Federal Reserve has already cut rates to a range between 0% and 0.25% and has engaged in ‘quantitative easing’. The ECB could bring rates down to 2% as European economies struggle with falling domestic and international demand.

Annex C**Specified Investments**

(All such investments will be sterling denominated, with **maturities up to maximum of 1 year**, meeting the minimum 'high' rating criteria where applicable)

| | Minimum 'High' Credit Criteria | Use |
|--|---|----------------------------|
| UK Government Gilts | Long term AAA | Fund Managers |
| Treasury Bills | Long term AAA | Fund Managers |
| Debt Management Agency Deposit Facility | -- | In-house |
| Term deposits – local authorities | -- | In-house |
| Term deposits – banks and building societies ** | Short-term F1, Long-term A, Individual C, Support 3 | In-house and fund managers |
| Certificates of Deposits (CDs) – banks and building societies ** | Short-term F1, Long-term A, Individual C, Support 3 | Fund managers |

Non-Specified Investments

Such investments are defined as all investments not meeting the definition of a specified investment. They comprise of the following investments

| Fixed term deposits with variable rate and variable maturities: - | Minimum 'High' Credit Criteria | Use | Maximum Limit Internally Managed £ | Maximum Limit Externally Managed £m |
|---|---|----------------------------|---|--|
| 1. Structured deposits including callable deposits, range trades and snowballs. | Short-term F1, Long-term A, Individual C, Support 3 | In-house and fund managers | £25 million | £25 million |
| Certificates of deposits issued by banks and building societies with a maturity of more than one year but less than three years | Short-term F1, Long-term AA-, Individual C, Support 3 | Fund Managers | | £25 million |

| | | | | |
|---|---|---------------|--|-------------|
| Certificates of deposits issued by banks and building | Short-term F1, Long-term AA-, Individual C, | Fund Managers | | £25 million |
|---|---|---------------|--|-------------|

| | | | | |
|--|--|---|-------------|-------------|
| societies with a maturity of more than one year but less than three years | Support 3 | | | |
| UK Government Gilts | Long term AAA | Fund Managers | | £25 million |
| Bonds issued by multilateral development banks | Long term AAA and listed on either the London or Luxembourg stock exchange | Fund Managers. Also on a 'buy-and-hold' basis in-house. | £25 million | |
| Bonds issued by a financial institution which is guaranteed by the UK government | Long term AAA and listed on either the London or Luxembourg stock exchange | Fund Managers. Also on a 'buy-and-hold' basis in-house. | £25 million | £7 million |
| Sovereign bond issues (ie other than the UK govt) | Long Term AA and listed on a recognised stock exchange | Fund Managers | | £7 million |

Monitoring of credit ratings:

All credit ratings will be monitored ***monthly***. If a counterparty or investment scheme is downgraded with the result that it no longer meets the Council's minimum credit criteria, the use of that counterparty / investment scheme will be withdrawn.

Any intra-month credit rating downgrade which the Council has identified that affects the Council's pre-set criteria will also be similarly dealt with.

ANNUAL MINIMUM REVENUE PROVISION STATEMENT 2009/10**Introduction**

Under 2003 Regulations¹, local authorities are required to charge to their revenue account for each year a Minimum Revenue Provision (MRP) to account for the cost of their debt in that financial year.

Debt is created where capital expenditure has been financed by borrowing or other credit arrangements (e.g. finance leases); it may be self-financed or Government-supported. Supported Capital Expenditure means expenditure taken into account by Government in the calculation of the Revenue Support Grant due to the authority.

Prior to its amendment by the 2008 Regulations², the method authorities were required to follow in calculating MRP was prescribed. For the financial year 2007/08 and subsequent years, the detailed calculation has been replaced with a requirement that local authorities calculate an amount of MRP which they consider to be “prudent”.

At the same time the Secretary of State issued guidance³ on the duty to make a prudent provision and local authorities are legally obliged to “have regard” to this guidance.

Authorities are required to prepare an annual statement of their policy on making MRP for submission to their Full Council. The aim is to give elected Members the opportunity to scrutinise the proposed use of freedoms conferred by the arrangements, following a shift in emphasis from regulations to guidance.

Meaning of “Prudent Provision”

The broad aim of a prudent provision is to ensure that debt is repaid over a period that is either reasonably commensurate with that over which the capital expenditure provides benefits, or in the case of borrowing supported by Government Revenue Support Grant, reasonably commensurate with the period implicit in the determination of that grant. The Secretary of State considers that the methods of making prudent provision include the options set out below.

For capital expenditure incurred before 1 April 2008 and incurred on or after that date if it forms part of Government-Supported Capital Expenditure:

Option 1: Regulatory Method - MRP is equal to the amount determined in accordance with the 2003 Regulations (as amended), as if they had not been revoked by the 2008 Regulations

¹ Local Authorities (Capital Finance and Accounting) (England) Regulations 2003 [SI 2003/3146, as amended]

² Local Authorities (Capital Finance and Accounting) (England) (Amendment) Regulations 2008 [SI 2008/414]

³ Guidance on Minimum Revenue Provision, issued by the Secretary of State for Communities and Local Government, under Section 21(1A) of the Local Government Act 2003, 28 February 2008

This calculation would include any technical adjustments, as statutorily required.

Option 2: CFR Method - MRP is equal to 4% of the Capital Financing Requirement (CFR), as derived from the balance sheet at the end of the preceding financial year

This produces a similar MRP charge to Option 1, but is technically simpler.

Option 3: Asset Life Method - MRP is determined by reference to the life of the asset, by equal instalment method or annuity method

MRP should commence in the financial year following the one in which expenditure was incurred, or the year following the one in which the asset becomes operational.

Option 4: Depreciation Method - MRP is to be equal to the provision required in accordance with depreciation accounting

For capital expenditure incurred on or after 1 April 2008 and which does not form part of Government-Supported Capital Expenditure, only *Options* 3 and 4 are considered prudent under the guidance issued by the Secretary of State.

Finance Leases

In the case of finance leases, the MRP is equal to the amount that goes to write down the Balance Sheet liability; thus *Option* 3 will apply in a modified form.

Policy Statement

The Council adopts the following policies in respect of calculating its annual Minimum Revenue Provision (MRP) for 2009/10 and subsequent years.

For capital expenditure incurred before 1 April 2008 and incurred on or after that date if it forms part of Government-Supported Capital Expenditure: ***EITHER Option 1 (Regulatory Method) OR Option 2 (CFR Method)*** - to be determined following a study of the aggregated position for Cheshire East

For capital expenditure incurred before 1 April 2008 and which does not form part of Government-Supported Capital Expenditure: ***EITHER Option 1 (Regulatory Method), Option 2 (CFR Method) AND/ OR Option 3: Asset Life Method*** - to be determined following a study of the aggregated position for Cheshire East and consideration of inherited practices

For capital expenditure incurred on or after 1 April 2008 and which does not form part of Government-Supported Capital Expenditure: ***Option 3: Asset Life Method*** - where MRP is charged in equal annual instalments over the estimated useful life of the asset, commencing in the financial year following the one in which expenditure was incurred, or the year following the one in which the asset becomes operational

Other approaches may be developed, but they will be fully consistent with the statutory duty to make prudent revenue provision. These may relate to large, complex or novel schemes. Legal advisors and external auditors will be consulted if significant departures from the guidance are proposed and any alternative approaches

developed will be incorporated in future annual policy statements, for approval by Council prior to application.
