The LSTF business travel planning project directly supports the All Change for Crewe regeneration programme by enabling transport measures which help to unlock the growth potential of Crewe in a low carbon way. Encouraging increased levels of walking and cycling for short local journeys within Crewe has associated health and wellbeing benefits

Of those which are recommended for award, the grants are split relatively evenly between capital and revenue expenditure. Capital expenditure (e.g. cycle parking, shower facilities, car share database) totals £11,424. Four applications include revenue expenditure for the purchase of cycling personal protective equipment, publicity, cycle maintenance training and health screening provision – with a revenue value of £10,631.

The LSTF Business Travel Planning Grant Scheme is fully funded by a grant from the Department for Transport.
