**LICENSING OBJECTIVE:                      PREVENTION OF PUBLIC NUISANCE**

In order to protect the interest of local residents and ensure that the licensing objective of public nuisance prevention is upheld: all necessary steps shall be taken to ensure that any noise from the premises shall not be at a level which could cause a noise nuisance at the boundary of the nearest residential premises, therefore:

The services of a professional and suitably experienced noise management company will be engaged to produce a noise management plan for the approval of the environmental protection services and Safety Advisory Group.

**Planning for the Event:**

- The Noise Management Plan shall be produced no later than 8 weeks prior to the event and shall include details of predicted noise levels at nearest noise sensitive properties based on modeling or actual noise measuring. The noise level predictions shall only be based on the sound system to be deployed for the event. The NMP shall detail measures of how noise will be monitored and proactively managed during the event. The appointed noise consultant shall liaise between all parties; Environmental Protection Service, Production Manager, DPS, Sound System Suppliers, Sound Engineers, Licensing Authority on all matters relating to noise control prior to and during the event.
- A traffic and transport management plan will be produced and included as a supplementary document to the Event Management Plan.
- Travel details will be provided to attendees prior to the event.
- A waste and litter management plan will be produced and included as a supplementary document to the Event Management Plan. This plan will include litter picking services and the removal and management of waste generated by the Event.

**Prior to the Event:**

- A noise propagation test shall be undertaken prior to the start of the event in order to set the appropriate control limits at the mixer position. The sound system shall be configured and operated in a similar manner

as intended for the event. The sound source used for the test shall be similar in character to the music most likely to be produced for the event.

- The noise consultant shall ensure that prior to the event during testing of equipment, minimum noise levels are emitted from the sound equipment to reduce to its lowest level any noise nuisance to local residents.

During the Event:

- The noise consultant shall ensure that the noise is monitored at the perimeter of the site (or other appropriate noise sensitive locations) throughout the event and at least during each different artist.

- The noise consultant shall comply with any request made by a nominated officer of the Environmental Protection Service to reduce or remix sound emanating from the amplification system.

After the Event:

- A compliance / evaluation report shall be produced within 6 weeks of the event detailing monitored noise levels during the event, compliance with agreed levels, number of complaints received and action taken as a result of complaints.

## **INFORMATIVES**

### **PLANNING PERMISSION**

- It is your responsibility to obtain other consent/planning permission/approvals which may be required in addition to the necessary Premises Licence.
- There are sometimes circumstances where planning conditions have been set which may impact on your activities. If the Planning Permission and the Premises Licence differ; for example where the Planning Authority have set a terminal hour which is earlier than those conditioned by the Premises Licence; you must abide by the earlier time otherwise you leave yourself open to enforcement action.

### **FOOD BUSINESS OPERATIONS**

- Anyone starting a new food business must register with the Council **at least 28 days before** you start any food operations. You can register your food business online via GOV.UK. If you have premises in more than one local authority area, you must register with each authority separately.
