Future Delivery Model for Waste, Recycling and Streetscape						
To create a wholly owned company which benefits from Teckal exemption and is limited by shares to deliver environmental operations and fleet services. The company will have its own board of trustees and management structure – but the council will continue to exercise significant control as part of meeting the Teckal exemption criteria – however this is likely to be through						
directorships and the agreement of the 3 year business plan and contractual relationship between the two parties. The new wholly owned company is proposed to be fully operational by April 2014. The 'person on the street' shouldn't see any change and as result there should be minimal to no impact on service users. The wholly owned company will be paid a management fee to provide commissioned services on behalf of the council and as such the service should not be affected.
