

Appendix 1

Call - In of Key Decision 09/10-24 Joint Waste Treatment PFI Project - Acquisition of Site for Waste Transfer Station Facilities

We the undersigned wish to call in the cabinet decision to site the northern waste transfer station on Hurdsfield Industrial Estate Hulley Road Macclesfield, for the following reasons:

1. Appropriateness of the site and its closeness to a housing estate, and in front of Astra Zeneca, the largest employer in town.
2. The Hurdsfield Industrial estate has always been primarily for white industries. The siting of the waste transfer station so close to High Tec and ultra clean Pharmaceutical Industries could seriously affect future investment by Astra Zeneca and other companies who may wish to invest in Macclesfield.
