

Annexes to Budget Report 2010 / 2011

Shaping Our Services

Annex 1 - A Profile of the Authority

1. The Unitary Council of Cheshire East, in the North West of England, serves an area previously served by the Councils of Congleton, Crewe and Nantwich, and Macclesfield. Cheshire East is bounded by Cheshire West and Chester to the west, the Manchester conurbation to the north and east, Stoke-on Trent to the south and the Peak District / Derbyshire and Staffordshire Moorlands to the east.

Geography of the Area

2. Cheshire East presents an area of contrasting character, ranging from the highland and lowland rural areas to the more densely populated areas in the north east and south west of the authority. The boundary is part of the Peak District National Park which rises significantly higher than the rest of the Council area.
3. Cheshire East is characterised by countryside facilities such as Teggs Nose Country Park, The Cloud and the Gritstone Trail, as well as splendid historic towns and major national visitor attractions such as Tatton Park and castles built of the distinctive local sandstone.
4. The main rivers of Cheshire East are the Bollin and the Dane which flow into the Mersey. A number of canal systems (Trent and Mersey, Macclesfield canals) form significant features of Cheshire East.
5. The Weaver Valley Regional Park builds on these assets, particularly the market towns, rivers, canals and the salt industry heritage of mid Cheshire. It runs through central Cheshire, from Runcorn (the mouth of the River Weaver) in the north to Audlem in the south.
6. There are excellent rail links both with Manchester and other parts of the country through the main West Coast routes from London through Crewe and Macclesfield to the north. The M6 is the main north-south road route, but important east-west links are established by the M56. Another main trunk road running through Cheshire East is the A556 from Knutsford to Bowden which connects people to Manchester.

Cheshire East and its Citizens

7. Cheshire East Council covers an area of 116,638 hectares. The population is 360,700 (2007), making it the 3rd largest authority in the North West and 12th largest in England. Principal concentrations of population are in the towns of Macclesfield (50,160). Crewe (49,250) and Wilmslow (30,070). Other mains towns within Cheshire East are Congleton (26,580), Sandbach (17,880), Poynton (14,350), Nantwich (13,880), Middlewich (13,390), Knutsford (12,570) and Alsager (12,460).
8. Cheshire East has a diverse rural / urban profile. Nearly 40% of the population live in areas classed as rural. Crewe and Macclesfield are the largest urban areas. The other eight towns, although urban, have outskirts which contain areas classified as more rural than urban.
9. The population in Cheshire East has steadily increased over the past fifteen years, from 340,500 in 1991 to 360,700 in 2007. This increase in the total population is

mainly due to migration into the area. The age structure of Cheshire East is slightly older than that of England & Wales. In 2007, 5% of Cheshire East's residents were aged under 5, 12% were aged 5 to 14 and 18% were aged 65 or more. The age structure of the population in Cheshire East has changed since 1991. The number of older people (aged 65+) has increased by 20% from around 54,200 in 1991 to 64,800 in 2007. The increase is greater in Congleton (29%) than either Crewe & Nantwich (19%) or Macclesfield (15%).

10. The number of children (aged 0-15) is the same in 2007 as it was in 1991 (66,800) in Cheshire East; however, whilst numbers have increased by 8% in Crewe & Nantwich they have decreased by 1% in Congleton and 5% in Macclesfield. It is forecast that by 2026 there will be around 6% fewer children living in Cheshire East than there were in 2006 whilst the number of people aged 85 or above will have doubled within the same period.
11. Cheshire East has a strong local economy which contributes 5.3% to the North West region's total population and 7.0% to regional output. Average household income is above the national average. However, Cheshire East is not immune from the national economic recession and unemployment has been rising rapidly. The population aged 16-64 is expected to fall by 4% between 2006 and 2026, so limiting the capacity to expand the labour supply.
12. Residents also enjoy better health than elsewhere in the region and nationally. For example, life expectancy is above the national average and incidence of smoking cigarettes is lower.
13. Educational attainment among school pupils in terms of achieving five or more GCSE grades A-C is above the national average.
14. The crime rate in Cheshire East is one of the lowest in the country and residents are less concerned about anti-social behaviour than elsewhere. However, there is significant anxiety about victimisation.
15. The South Cheshire housing market contains the two towns of Crewe and Nantwich and a number of rural villages. Crewe is identified as being a key regional town and a gateway to the North West. It has both housing and employment ties crossing regional boundaries into the North Staffordshire and Potteries areas, and it is to this area more than Manchester that this housing area looks.
16. In the Communities of Cheshire survey 2008, the majority (93%) were satisfied with their home as a place to live and 85% were satisfied with their local area. But while the residents of Cheshire East generally enjoy good quality of life there are significant inequalities, with some areas experiencing poorer health, educational attainment and economic well being than elsewhere. There are 14 lower super output areas which are among the 20% most deprived in England, according to the national measure 'Index of Deprivation'. These contain 6% of the population of the Council area.

Annex 2 ~ Annual Minimum Revenue Provision Statement 2010/2011

Introduction

Under 2003 Regulations¹, local authorities are required to charge to their revenue account for each year a Minimum Revenue Provision (MRP) to account for the cost of their debt in that financial year.

Debt is created where capital expenditure has been financed by borrowing or other credit arrangements (e.g. finance leases); it may be self-financed or Government-supported. Supported Capital Expenditure means expenditure taken into account by Government in the calculation of the Revenue Support Grant due to the authority.

Prior to its amendment by the 2008 Regulations², the method authorities were required to follow in calculating MRP was prescribed. For the financial year 2007/2008 and subsequent years, the detailed calculation has been replaced with a requirement that local authorities calculate an amount of MRP which they consider to be “prudent”.

At the same time the Secretary of State issued guidance³ on the duty to make a prudent provision and local authorities are legally obliged to “have regard” to this guidance.

Authorities are required to prepare an annual statement of their policy on making MRP for submission to their Full Council. The aim is to give elected Members the opportunity to scrutinise the proposed use of freedoms conferred by the arrangements, following a shift in emphasis from regulations to guidance.

Meaning of “Prudent Provision”

The broad aim of a prudent provision is to ensure that debt is repaid over a period that is either reasonably commensurate with that over which the capital expenditure provides benefits, or in the case of borrowing supported by Government Revenue Support Grant, reasonably commensurate with the period implicit in the determination of that grant. The Secretary of State considers that the methods of making prudent provision include the options set out below.

For capital expenditure incurred before 1 April 2008 and incurred on or after that date if it forms part of Government-Supported Capital Expenditure:

Option 1: Regulatory Method - MRP is equal to the amount determined in accordance with the 2003 Regulations (as amended), as if they had not been revoked by the 2008 Regulations

This calculation would include any technical adjustments, as statutorily required.

Option 2: CFR Method - MRP is equal to 4% of the Capital Financing Requirement (CFR), as derived from the balance sheet at the end of the preceding financial year

This produces a similar MRP charge to Option 1, but is technically simpler.

¹ Local Authorities (Capital Finance and Accounting) (England) Regulations 2003 [SI 2003/3146, as amended]

² Local Authorities (Capital Finance and Accounting) (England) (Amendment) Regulations 2008 [SI 2008/414]

³ Guidance on Minimum Revenue Provision, issued by the Secretary of State for Communities and Local Government, under Section 21(1A) of the Local Government Act 2003, 28 February 2008

Option 3: Asset Life Method - MRP is determined by reference to the life of the asset, by equal instalment method or annuity method

MRP should commence in the financial year following the one in which expenditure was incurred, or the year following the one in which the asset becomes operational.

Option 4: Depreciation Method - MRP is to be equal to the provision required in accordance with depreciation accounting

For capital expenditure incurred on or after 1 April 2008 and which does not form part of Government-Supported Capital Expenditure, only *Options 3 and 4* are considered prudent under the guidance issued by the Secretary of State.

The 2009 SORP and IFRS may result in PFI schemes and leases being brought on balance sheet. Where this is the case the CFR will increase, which will lead to an increase in the MRP charge to revenue. MRP for these items will match the annual principal repayment for the associated deferred liability.

Finance Leases

In the case of finance leases, the MRP is equal to the amount that goes to write down the Balance Sheet liability; thus *Option 3* will apply in a modified form.

Policy Statement

The Council adopts the following policies in respect of calculating its annual Minimum Revenue Provision (MRP) for 2010/2011 and subsequent years.

For capital expenditure incurred before 1 April 2008 and incurred on or after that date if it forms part of Government-Supported Capital Expenditure: ***Option 2 (CFR Method)***

For capital expenditure incurred **before 1 April 2008** and which does not form part of Government-Supported Capital Expenditure: ***Option 2 (CFR Method) AND / OR Option 3: Asset Life Method***

For capital expenditure incurred **on or after 1 April 2008** and which does not form part of Government-Supported Capital Expenditure: ***Option 3: Asset Life Method*** - where MRP is charged in equal annual instalments over the estimated useful life of the asset, commencing in the financial year following the one in which expenditure was incurred, or the year following the one in which the asset becomes operational

Other approaches may be developed, but they will be fully consistent with the statutory duty to make prudent revenue provision. These may relate to large, complex or novel schemes. Legal advisors and external auditors will be consulted if significant departures from the guidance are proposed and any alternative approaches developed will be incorporated in future annual policy statements, for approval by Council prior to application.

Annex 3 ~ Prudential Indicators 2010/11 to 2012/13

1 Background:

There is a requirement under the Local Government Act 2003 for local authorities to have regard to CIPFA's Prudential Code for Capital Finance in Local Authorities (the "CIPFA Prudential Code") when setting and reviewing their Prudential Indicators. It should be noted that CIPFA undertook a review of the Code in early 2008, and issued a revised Code in November 2009.

2. Net Borrowing and the Capital Financing Requirement:

This is a key indicator of prudence. In order to ensure that over the medium term net borrowing will only be for a capital purpose, the local authority should ensure that the net external borrowing does not, except in the short term, exceed the total of capital financing requirement in the preceding year plus the estimates of any additional capital financing requirement for the current and next two financial years.

The Borough Treasurer & Head of Assets reports that the authority had no difficulty meeting this requirement in 2009/2010, nor are there any difficulties envisaged for future years. This view takes into account current commitments, existing plans and the proposals in the approved budget.

3. Estimates of Capital Expenditure:

3.1 This indicator is set to ensure that the level of proposed capital expenditure remains within sustainable limits and, in particular, to consider the impact on Council Tax.

No. 1	Capital Expenditure	2009/10 Approved £m	2009/10 Revised £m	2010/11 Estimate £m	2011/12 Estimate £m	2012/13 Estimate £m
	Total	97	105	103	29	15

3.2 Capital expenditure will be financed as follows:

Capital Financing	2009/10 Approved £m	2009/10 Revised £m	2010/11 Estimate £m	2011/12 Estimate £m	2012/13 Estimate £m
Capital receipts	15	16	24	4	4
Government Grants	44	54	52	20	10
External Contributions	7	6	1	0	0
Revenue contributions	3	4	4	0	0
Supported borrowing	14	12	16	4	1
Unsupported borrowing	14	13	6	1	0
Total	97	105	103	29	15

Note: the element to be financed from borrowing impacts on the movement in the Capital Financing Requirement.

4. Ratio of Financing Costs to Net Revenue Stream:

4.1 This is an indicator of affordability and highlights the revenue implications of existing and proposed capital expenditure by identifying the proportion of the revenue budget required to meet borrowing costs. The definition of financing costs is set out at paragraph 87 of the Prudential Code.

4.2 The ratio is based on costs net of investment income.

No. 2	Ratio of Financing Costs to Net Revenue Stream	2009/10 Approved	2009/10 Revised	2010/11 Estimate	2011/12 Estimate	2012/13 Estimate
	Total	5.26%	5.35%	5.64%	6.32%	6.59%

5. Capital Financing Requirement:

- 5.1 The Capital Financing Requirement (CFR) measures the Council's underlying need to borrow for a capital purpose. The calculation of the CFR is taken from the amounts held in the Balance Sheet relating to capital expenditure and its financing. It is an aggregation of the amounts shown for Fixed and Intangible assets, the Revaluation Reserve, the Capital Adjustment Account, Government Grants Deferred and any other balances treated as capital expenditure**.

No. 3	Capital Financing Requirement	2009/10 Approved £m	2009/10 Revised £m	2010/11 Estimate £m	2011/12 Estimate £m	2012/13 Estimate £m	**
	Total CFR	153	170	184	192	197	

in line with CIPFA's guidance, any investments or other items not falling within the classification of fixed or intangible assets, but financed from capital resources must be included within the CFR for the purposes of this calculation.

6. Actual External Debt:

- 6.1 This indicator is obtained directly from the Council's balance sheet. It is the closing balance for actual gross borrowing plus other long-term liabilities. This Indicator is measured in a manner consistent for comparison with the Operational Boundary and Authorised Limit.

No. 4	Actual External Debt as at 31/03/2009	£m
	Borrowing	136
	Other Long-term Liabilities	-
	Total	136

7. Incremental Impact of Capital Investment Decisions:

- 7.1 This is an indicator of affordability that shows the impact of capital investment decisions on Council. The incremental impact is calculated by comparing the total revenue budget requirement of the current approved capital programme with an equivalent calculation of the revenue budget requirement arising from the proposed capital programme.

No. 5	Incremental Impact of Capital Investment Decisions	2009/10 Approved £	2010/11 Estimate £	2011/12 Estimate £	2012/13 Estimate £
	Increase in Band D Council Tax	3.10	3.27	8.31	11.53

8. Authorised Limit and Operational Boundary for External Debt:

- 8.1 The Council has an integrated treasury management strategy and manages its treasury position in accordance with its approved strategy and practice. Overall borrowing will therefore arise as a consequence of all the financial transactions of the Council and not just those arising from capital spending reflected in the CFR.
- 8.2 The **Authorised Limit** sets the maximum level of external borrowing on a gross basis (i.e. not net of investments) for the Council. It is measured on a daily basis against all external borrowing items on the Balance Sheet (i.e. long and short term borrowing, overdrawn bank balances and long term liabilities). This Prudential Indicator separately identifies borrowing from other long term liabilities such

as finance leases. It is consistent with the Council's existing commitments, its proposals for capital expenditure and financing and its approved treasury management policy statement and practices.

8.3 The Authorised Limit has been set on the estimate of the most likely, prudent but not worst case scenario with sufficient headroom over and above this to allow for unusual cash movements.

8.4 The Authorised Limit is the statutory limit determined under Section 3(1) of the Local Government Act 2003 (referred to in the legislation as the Affordable Limit).

No. 6	Authorised Limit for External Debt	2009/10 Approved £m	2009/10 Revised £m	2010/11 Estimate £m	2011/12 Estimate £m	2012/13 Estimate £m
	Borrowing	218	180	195	210	225
	Other Long-term Liabilities	-	-	-	-	-
	Total	218	180	195	210	225

8.5 The **Operational Boundary** links directly to the Council's estimates of the CFR and estimates of other cashflow requirements. This indicator is based on the same estimates as the Authorised Limit reflecting the most likely, prudent but not worst case scenario but without the additional headroom included within the Authorised Limit.

8.6 The Borough Treasurer & head of Assets has delegated authority, within the total limit for any individual year, to effect movement between the separately agreed limits for borrowing and other long-term liabilities. Decisions will be based on the outcome of financial option appraisals and best value considerations. Any movement between these separate limits will be reported to the next meeting of the Council.

No. 7	Operational Boundary for External Debt	2009/10 Approved £m	2009/10 Revised £m	2010/11 Estimate £m	2011/12 Estimate £m	2012/13 Estimate £m
	Borrowing	210	170	185	200	215
	Other Long-term Liabilities	-	-	-	-	-
	Total	210	170	185	200	215

9. Adoption of the CIPFA Treasury Management Code:

9.1 This indicator demonstrates that the Council has adopted the principles of best practice.

No. 8 Adoption of the CIPFA Code of Practice in Treasury Management

The Council approved the adoption of the CIPFA Treasury Management Code at its Shadow Council meeting on 24 February 2009

The Council has incorporated the changes from the revised CIPFA Code of Practice into its treasury policies, procedures and practices.

10. Upper Limits for Fixed Interest Rate Exposure and Variable Interest Rate Exposure:

10.1 These indicators allow the Council to manage the extent to which it is exposed to changes in interest rates. This Council calculates these limits on net principal outstanding sums, (i.e. fixed rate debt net of fixed rate investments).

10.2 The upper limit for variable rate exposure has been set to ensure that the Council is not exposed to interest rate rises which could adversely impact on the revenue budget. The limit allows for the use of variable rate debt to offset exposure to changes in short-term rates on investments

No.		2009/10 Approved %	2009/10 Revised %	2010/11 Estimate %	2011/12 Estimate %	2012/13 Estimate %
9	Upper Limit for Fixed Interest Rate Exposure	100	100	100	100	100
10	Upper Limit for Variable Interest Rate Exposure	100	100	100	100	100

10.3 The limits above provide the necessary flexibility within which decisions will be made for drawing down new loans on a fixed or variable rate basis; the decisions will ultimately be determined by expectations of anticipated interest rate movements as set out in the Council's treasury management strategy.

11. Maturity Structure of Fixed Rate borrowing:

11.1 This indicator highlights the existence of any large concentrations of fixed rate debt needing to be replaced at times of uncertainty over interest rates and is designed to protect against excessive exposures to interest rate changes in any one period, in particular in the course of the next ten years.

11.2 It is calculated as the amount of projected borrowing that is fixed rate maturing in each period as a percentage of total projected borrowing that is fixed rate. The maturity of borrowing is determined by reference to the earliest date on which the lender can require payment.

No.	Maturity structure of fixed rate borrowing	Lower Limit %	Upper Limit %
11	under 12 months	0	25%
	12 months and within 24 months	0	25%
	24 months and within 5 years	0	35%
	5 years and within 10 years	0	35%
	10 years and within 20 years	0	100%
	20 years and within 30 years	0	100%
	30 years and within 40 years	0	100%
	40 years and within 50 years	0	100%
	50 years and above	0	100%

12. Upper Limit for total principal sums invested over 364 days:

12.1 The purpose of this limit is to contain exposure to the possibility of loss that may arise as a result of the Council having to seek early repayment of the sums invested.

No.	Upper Limit for total principal sums invested over 364 days	2009/10 Approved %	2009/10 Revised £m	2010/11 Estimate £m	2011/12 Estimate £m	2012/13 Estimate £m
12		40%	20.0	20.0	20.0	20.0

Note: Original approved limit expressed as a % of total investments. Revised and future estimates stated as maximum value.

Annex 4 - Balancing the Three Year Budget Position

Development of the 2010/2011 Revenue Budget

1. In July 2009 the Cheshire East Cabinet reviewed the high level financial scenario and set a series of financial targets for each Directorate.
2. Directorate responses were subject to challenge by a panel chaired by Cllr Keegan. The outcome of the challenge was to establish the variance at £13.8m in 2010/2011 due to significant growth pressures, particularly in Children and Families, Services to Adults and Waste.
3. Five measures were identified to address this position:
 - Measure 1 ~ Challenge Funding Assumptions
 - Measure 2 ~ Increase Council Tax
 - Measure 3 ~ Use General Reserves
 - Measure 4 ~ Reduce Expenditure
 - Measure 5 ~ Increase Income

More details on the actions taken are set out below.

Measure 1 ~ Challenge Funding Assumptions

4. The July Cabinet report set out a number of key planning assumptions including: the repayment of reserves; inflation levels; contingency levels; and Capital Financing estimates. These assumptions were challenged with key adjustments as follows:
 - **Forecast Base Budget** ~ the starting point for calculating expenditure commitments is to take the previous year's base and adjust for permanent changes such as inflation and policy proposals that will change expenditure levels. The original calculation included the previous year's base with pay inflation for 2009/2010 at a higher level than was finally agreed (2.5% compared to 1.5%). A further adjustment was also identified for chief officers pay which was not increased in that year. These reduced the funding gap by **£1.6m** in 2010/2011.
 - **Inflation** ~ the original assumptions have been challenged with the following results :
 - **Inflation** ~ the original assumption was to budget for a 2.5% increase. This has been reduced to 2% to align with the expected level of the Consumer Prices Index and resulted in a saving of **£0.4m**. The provision for pay inflation is 0%.
 - **Composition of the Base Budget** ~ a review of the composition of the base budget has altered the percentage split used to calculate inflation. This has resulted in a saving of **£0.3m**.
 - **Exceptional inflation** ~ with generally low inflation levels there are no separate bids for exceptional inflation over and above items included in the service policy proposals. Therefore, this provision has been removed giving a saving of **£1.7m**.

The total impact of these changes to inflation is a reduction of **£2.4m**.

- **Capital Financing** provides for the necessary repayments of Capital and interest. The provision for Capital Financing was based on calculations made during the development of the 2009/2012 Capital Programme. Given issues with affordability, slippage in delivery and capacity, the 2010/2011 Capital Financing provision has been reduced by **£1.7m**.
- **Revenue Support Grant** ~ a grant provided annually by central Government. The original assumption was a freeze at 2010/2011 levels as they had been previously confirmed and the expectation that later years funding would not increase in real terms. Given the current messages regarding public sector expenditure the amount of grant expected for years two and three has been reduced by 2.5% per annum. This equates to a further £0.4m shortfall over the three year period.
- **Contingency** ~ this was originally set at 1% of the Base Budget (at £2.1m). After a review of the overall reserves position, and confirmation these were at the risk assessed minimum level, it was agreed a separate contingency was no longer required and this has been removed. A saving of **£2.1m**.
- **Phasing Adjustment** ~ this was originally set at £1m to provide sufficient time to deliver the savings arising from re-organisation. However, good progress has been made and a balance of only £0.2m is now required for ICT schemes. This gives a saving of **£0.8m**.
- **Transitional costs** ~ to realise the significant benefits arising from re-organisation the Council has released staff through voluntary redundancy and early retirement. Further staff reductions and on-going actuarial costs need to be charged to the revenue budget. Therefore a provision of **£6.5m** has been created.

The overall impact of these changes is a £2m reduction in the net funding gap in 2010/2011.

Measure 2 ~ Increase Council Tax

5. Council Tax ~ several amendments have been made :

- **Council Tax increase** ~ the original planning assumption was no change in Council Tax. Given the significant cost pressures facing the Authority this has been amended to a 1.7% increase. This increases funding and reduces the funding gap by **£2.9m**.
- **Collection Fund** ~ the original assumption was a deficit of £0.5m. The forecast year end position is net nil resulting in a saving of **£0.5m**.
- **Council Tax Base** ~ the original assumption was an increase of 0.3%. The actual increase is 0.28%. This increases costs by **£0.03m**.

The overall impact of these changes is a £3.4m reduction in the net funding gap in 2010/2011.

Measure 3 ~ Use General Reserves

6. The Council's Reserves Strategy uses risk assessment to inform the prudent level of reserves. This complies with the requirement to maintain adequate reserves (see the Borough Treasurer's comments on page 3).
7. The current financial position includes a commitment to repay in to reserves to ensure the Authority maintains a risk assessed minimum level following re-payment of transitional costs from the re-organisation process. (The contribution is contained within the Central Adjustments figure). The level of risk has been amended to reflect the uncertainty over levels of inflation in the current economic conditions.

The overall impact of these changes is a £2.5m reduction in the net funding gap in 2010/2011.

Measure 4 ~ Reduce Expenditure & Measure 5 ~ Increase Income

Challenge Process and Consultation

8. Revised service responses were produced by Directors & Portfolio Holders following the initial challenge phase. These revised responses reduced the net funding gap and the proposals were challenged again in late November with the following total impact in 2010/2011 :

a. People:

- Revised response: additional savings of **£0.7m** through additional staff reductions, income generation and transport savings.
- Challenge round 2: additional **£1.8m** savings in 2010/2011 through bringing forward and making additional efficiencies.
- Total additional savings: **£2.5m**.

b. Places:

- Revised response: additional savings of **£3.2m** through charging highway maintenance spend to capital and transport savings.
- Challenge round 2: an additional £0.5m saving from Waste over 2011/2012 and 2012/2013.
- Total additional savings: **£3.2m**.

c. Performance and Capacity:

- Revised response: additional savings of **£1.7m** through increased procurement savings.
- Challenge round 2: additional **£0.3m** savings mainly from removal of a transitional funding item.
- Total additional savings: **£2.0m**.

The overall impact of these changes is further savings of £7.7m in 2010/2011.

Adjustments Post Pre-Budget Report

9. Following the publication of the Pre-Budget Report and the January consultation process a number of further amendments have been made to the policy proposals going forward for 2010/2011:

- a. People:** Additional investment in the transformation of services to children of **£0.8m**.
- b. Places:** Additional growth of **£0.5m** arising from reduced levels of car parking income less additional grant monies in the Regeneration Service.
- c. Performance and Capacity:** Additional **£0.6m** growth from investment in the employment of young people, additional Member support and promoting the take up of benefits.

The overall impact of these changes is growth of £1.9m in 2010/2011.

The total of changes to the policy proposals is £5.8m.

Summary of Changes

10. Overall total changes of £13.8m have been made.

11. The table overleaf summarises the changes set out above to reach a balanced position for each Directorate and the Authority as a whole.

Table 19 : Impact of Measures to Balance the Budget

Notes:

1 : The Central Adjustment figure is made up of £26.4m (para 84) adjusted for corporately held budgets of £0.7m to give £27.1m.

2 : The Base Budget figure shown is an estimate based on the previous year's Budget adjusted for permanent changes such as inflation and the impact of agreed policy proposals.

3 : Revenue Budget of £240.065m = total expenditure of £212.935m plus central adjustments of £27.130m.

Development of the 2010/2011 Capital Programme

1. The Capital Strategy was approved by Cabinet on 14 July 2009 as part of the Medium Term Financial Strategy 2010-2013. The strategy sets out the process for the development of the Capital Programme and the main criteria for the evaluation of proposed new schemes
2. In September 2009 a draft capital programme was compiled from the submitted business cases and following an initial assessment for viability, the schemes were then considered against estimated resources and the following corporate issues.
 - Deliverability – can the proposed capital schemes be delivered in terms of timescale and sufficient resources given the level of slippage in the current year's programme.
 - Review and rationalisation of the asset base – a comprehensive review of the existing property assets and their usage is to be undertaken in 2010 and will consider joint usage of sites with partner authorities.
 - Available Capital Receipts – the forecast for future capital receipts is currently limited due to the economic climate and the downturn in the property market, however a review of the surplus asset list has identified potential receipts in 2010/2011 and brought forward capital receipts are available from the predecessor Councils of Cheshire East.
 - The available Capital Pot to fund Corporate and Cross-Cutting schemes.
 - The current level of debt – the level of outstanding debt is increasing year on year as the amount of debt repayment is less than the amount raised in new borrowing each year.
3. The initial funding gap in the draft Capital Programme was identified as £21.4m, following a series of Challenge Sessions proposed schemes were prioritised in terms of their fit with the Corporate Objectives of:
 - Transformation – does the scheme contribute towards the corporate transformation goals.
 - Infrastructure – does the scheme support the ICT infrastructure and asset base.
 - Compliance – does the scheme contribute towards compliance with statutory, legislative and health and safety requirements.
4. As part of the challenge process an exercise was undertaken to identify those schemes which can be considered as core programme, i.e., schemes which are necessary for the day to day delivery and operation of the Council. The proposed new ICT schemes have been assessed and prioritised in accordance with the ICT Strategy and any schemes relating to the on-going maintenance and improvement of assets have been reviewed by the Asset Management department and considered against a strategic view of assets and the Corporate Accommodation Strategy.
5. The overall impact of the Challenge Process resulted in a prioritised draft Capital Programme with a funding gap of £10.8m over three years, £4.6m relating to capital expenditure within 2010/2011. This will be funded from available capital receipts.
6. In order to stabilise the Council's borrowing position, the amount of Prudential Borrowing undertaken to finance new capital schemes has been limited to schemes where efficiency savings within the service will meet the cost of repayments.
7. A summary of the Capital Programme is provided in the following table, further details are provided within **Annex 5** by service area.

Note

FTE = Full Time Equivalent

* includes apprentice scheme - staff will be based in Directorates

Annex 7 ~ Charges to Service Users 2010/2011

1. Charges for services represent approximately 8% of total revenue income to Cheshire East Council. The approach to setting fees & charges is to generate income from discretionary and statutory services that can reasonably reduce the impact on council tax payers in the local area whilst making sure services remain accessible to those who will benefit most from them.
2. In reaching the current budgeted position there has been an underlying assumption that income from fees & charges would increase by 2.5% compared to 2009/2010 levels.
3. The attached Pricing Schedule for Cheshire East Council mirrors the 2009/2010 prices with the addition of the proposed prices for 2010/2011. Directors and Heads of Service were asked to calculate prices to reflect feedback from users and members and to reflect the growth in costs and statutory restrictions.
4. Additional information was also requested from Directorates on the target users and the likely level of income. This additional information will support the larger review of pricing which will be undertaken during 2010/2011.
