

## National and locally defined metrics

Selected Health and Well Being Board:

Cheshire East

<b>Non-Elective Admissions</b>	Reduction in non-elective admissions

Please provide an update on indicative progress against the metric?	No improvement in performance
Commentary on progress:	There has been a slight reduction in the number of NEL for Q4 10,917 compared to 10,985 for Q3. However this does no reflection an improvement in performance.

<b>Delayed Transfers of Care</b>	Delayed Transfers of Care (delayed days) from hospital per 100,000 population (aged 18+)

Please provide an update on indicative progress against the metric?	No improvement in performance
Commentary on progress:	Q4 returns reflect the continued pressures within Cheshire East. Sustained work continues to support teams and also across the redesign of services locally.

<b>Local performance metric as described in your approved BCF plan</b>	Injuries due to falls, persons 65+

Please provide an update on indicative progress against the metric?	On track for improved performance, but not to meet full target
Commentary on progress:	The Q4 results shows a reduction in the number of injuries due to falls which demonstrates improved performance overall.

	People who feel supported managing long term conditions (GP Survey)
<b>Local defined patient experience metric as described in your approved BCF plan</b>	
If no local defined patient experience metric has been specified, please give details of the local defined patient experience metric now being used.	

Please provide an update on indicative progress against the metric?	On track for improved performance, but not to meet full target
Commentary on progress:	Final results at Q4 show that that there has been consistent improvement throughout the year, with the final result being 64.5% compared with the target of 65%.

<b>Admissions to residential care</b>	Rate of permanent admissions to residential care per 100,000 population (65+)

Please provide an update on indicative progress against the metric?	No improvement in performance
Commentary on progress:	Q4 has seen a significant increase to residential care. This means that the end of year position shows that there is no improvement in performance during 2016/17.

<b>Reablement</b>	Proportion of older people (65 and over) who were still at home 91 days after discharge from hospital into reablement / rehabilitation services
-------------------	---

Please provide an update on indicative progress against the metric?	No improvement in performance
Commentary on progress:	Q4 has seen a very slight decrease in the number of people who are still at home after 91 days, however the year end position shows overall no improvement in performance. *NB* This is an early provisional figure. Data is still to be verified and validated as part of end of year returns to NHS Digital.

**Footnotes:**

For the local performance metric (which is pre-populated), the data is from submission 4 planning returns previously submitted by the HWB.

For the local defined patient experience metric (which is pre-populated), the data is from submission 4 planning returns previously submitted by the HWB, except in cases where HWBs provided a definition of the metric for the first time within the Q1 16-17 template.
