

Local Plan Strategy Adoption Version: Cross-references

Throughout the examination process, various sites, policies, tables, figures, paragraphs and monitoring indicators were either added or removed from the submitted LPS. In order to provide continuity during the examination, the insertion or deletion of content did not result in re-numbering of subsequent content. Consequently, the numbering systems used no longer run in strict sequence.

These elements have now been re-numbered in the LPS Adoption Version to provide a sequential numbering system to improve the usability of the adopted document.

The tables below give the cross-references from the re-numbered elements in the adoption version back to the old references in the draft LPS.

Policies

A limited number of policies have been re-referenced in the adoption version of the LPS due to the insertion of the Strategic Green Gaps policy.

Policy PG 7	Policy PG 6	Spatial Distribution of Development

All other policy reference numbers remain as per the draft LPS.
