The successful identification, monitoring and control of risk are therefore central to the Authority's treasury management strategy as no treasury management activity is without risk. The aim is to operate in an environment where risk is clearly identified and managed.

6.6.3. To reduce the risk that the Council will suffer a loss as a result of its treasury management activities down to an acceptable level a number of risk management procedures have been put in place. The procedures cover liquidity risk, credit and counterparty risk, re-financing

risk, legal and regulatory risk, and fraud, error and corruption risk. These are referred to within the borrowing and investment strategies, prudential indicators and the Treasury Management Practices Principles and Schedules.
