SR1 Threat	Increased Demand for People Services: That Cheshire East's local social, economic and demographic factors lead to an increase in the level of need and increased demand for adults and children's social care services, resulting in the capacity of the Council's systems relevant to these areas are unable to continue to respond/ absorb the pressures presented, resulting in a possible lack of staff working in social care/ increased market failure pertaining to a range of service providers, unmet need, potential safeguarding issues, and difficulty in achieving the Council's desired outcomes - that people live well and for longer, and have the life skills and education they need to thrive.	The impact of COVID-19 since March 2020 has been to increase demands upon Adults and Children's Social Care, together with our health partners.	Executive Director of People	Director of Adult Social Care	16	<ul style="list-style-type: none"> Adults operate monthly quality monitoring partnership forum. Quality and reporting and alerting of risk escalation is being effectively managed. Provider risk register is monitored and reviewed. Established a care sourcing team support service and local area co-ordination services to divert people away from care where appropriate. Working with partners and CCG to develop single plan to manage the overall reduction in demand and system redesign work to support an improved community offer. A great deal of activity is directed at managing this risk and above details so key activity, Activity has been focused on COVID response. Short to medium term impact on the economy may lead to increased unemployment, benefit claims, associated mental health, alcohol related harm, domestic violence etc. The ongoing COVID pandemic has seen large increases for service in relation to mental health, safeguarding and DOLS referrals. Demand and complexity is growing across the board. The communities team are offering early intervention to prevent the CEV from entering the social care system. 	16	16	
SR2 Threat	NHS Funding Pressure There is a circa £50 million pressure for the NHS across Cheshire East. Risk that due to the increasing financial deficit this may cause a pressure in Cheshire East Council shared service delivery and NHS service delivery. If there was a shifting of costs and demand which places additional strain on Council resources resulting in unmet need and potential difficulty in achieving the Council's outcomes that people live well and for longer and local communities being strong and supportive.	Interdependencies between SR1 and SR3 are recognised. The Cheshire East Health and Care Partnership Five-Year Plan and Technical Appendix was published in October 2019. The COVID-19 outbreak has hampered implementation and increased risk with significant financial impacts across both health and social care. The full extent of this is still to be ascertained as the increasing infection rates once again put strain on the system. COVID-19 infection rates increased significantly during Quarter Three	Executive Director of People	Director of Commissioning	16	<ul style="list-style-type: none"> There has been a lot of activity directed at this risk through the Sustainability and Transformation Plan for Cheshire and Merseyside – this plan comes to an end in 2021. There is a Health and Wellbeing Board which looks for key players to work together to address the issues and inherent risk of NHS funding pressures. There is also the Cheshire East partnership which brings together key partners and submits reports to CLT on a six-weekly basis. The ongoing Covid pressures upon health will impact upon the budget pressure of health, however the pressure remains that the risk of shifting costs to Social Care. 	16	16

SR3 Threat	<p>Financial Resilience – lack of certainty about future funding make it difficult to set a robust MTFS</p> <p>The reduction in funding from Central Government means the Council must manage funding shortfalls over the next four years, through reduced expenditure, managing demand or increased local income. There is a possibility that the Council does not adopt its financial plans in sufficient detail quickly enough, either by deferring the difficult decisions about services, using over-optimistic planning assumptions, or not rethinking sources of income in a sustainable way. This may result in difficulties in closing and managing the funding reductions, financial stress and may impede the Council's ability to meet its statutory requirements and deliver all of its intended outcomes and objectives in full. Additionally, the Council may fail to achieve the savings required in year which may have a consequential impact on future years,</p>	<p>The impact of COVID 19 has added a significant financial pressure to the budget. The expenditure is being tracked and returns completed monthly to government. The increase in expenditure teamed with the decrease in income is having an adverse effect to the Council's financial resilience.</p> <p>Reports on the impact of Covid19 on the Council's finances have been made to Cabinet, A&G, overview and scrutiny and informal reports also.</p> <p>This risk will be further exacerbated if there are cost implications based on the realization of SR1 (Increased Demand for People Services) and/or SR2 (NHS Funding and Health and Care Partnership Plan).</p> <p>The Medium-Term Financial Strategy has been produced with activity to address the risk of lack of certainty about future funding. Business planning process has been completed. The Reserve strategy has been reviewed.</p> <p>The Council produced a balanced 2021/22 Budget for consultation in December 2020 based on certain assumptions on government funding. The Spending Review 2020 has reduced grants but increased flexibility to raise Council Tax. This does not produce further certainty on government funding, which remains a significant risk.</p>	Executive Director of Corporate Services	Director of Finance and Customer Services	16	<ul style="list-style-type: none"> The Medium-Term Financial Strategy has been produced with activity to address the risk of lack of certainty about future funding.
