In response to questions by members, officers advised as follows:

- There had been full transparency on Delta returns to Government. It was not certain at this stage whether there would be any legacy costs for the Council arising from the pandemic; officers would continue to liaise with the Government to assess the impact.
- The Council had carried forward some business grant funding into the current financial year.
- The level of fraud in relation to the total amount of financial assistance provided on behalf of the Government, through the Council during the pandemic had been remarkably low; any steps taken to address fraud would need to be proportionate so as to ensure value for money.
- There was a live campaign to encourage take-up from people willing to help with fostering and adoption.
- With regard to the backlog of planning applications, the outcome of the deep dive review would be reported to the next meeting of the Environment and Communities Committee.
- With regard to equality implications it was confirmed that staff had been encouraged to undertake individual risk assessments with their line managers. Additional information was provided for BAME staff Members asked if other ethnic groups and those with other protected characteristics had been included among those communities targeted for access to vaccines. Officers undertook to provide a written response.
- It was confirmed that statutory discretion for the Household Support Fund had to be exercised in a defensible manner.
- With regard to asset rationalisation arising from changing work practices, officers advised that work was being undertaken to determine future asset requirements, following which a report would be submitted to the Economy and Growth Committee.
