

## June 2022 - Children and Families Outcomes Framework Scorecard

Notes: The boxes that are grayed out are where national data is not applicable or data isn't available, for example the schools data is available termly which doesn't always coincide with quarterly reporting

Rates are calculated using the 2020 ONS mid year population estimate 0-17 of 78,068 (Office of National Statistics) and are calculated as a rate per 10,000 children aged 0-17. This enables the local authority to be compared on a like for like basis with different local authorities or groups of authorities.

Directorate	Indicator	Indicator name	21/22 outturn	Q1 22/23	Q2 22/23	Q3 22/23	Q4 22/23	22/23 outturn	Benchmark National	Benchmark Stat N'bour	Corporate Plan Aim	Acronym
