Background: Cheshire East is a unique and treasured place which is experiencing pressure for change. Securing quality of place in relation to the built and natural environment is a key driver in the preparation of the Cheshire East Design Guide and its adoption as a Supplementary Planning Document (SPD).

The Design Guide SPD has been prepared with the assistance of e*SCAPE Urbanists and has been subject to extensive consultation resulting in a formal consultation on the draft version of the document during April – May 2016. The document has also been subject to an ongoing and iterative Sustainability Appraisal and has been informed by the emerging Local Plan Strategy.

Following consultation on the document and consideration of the points received, changes proposed to the draft Design Guide SPD have now been prepared in order to adopt it as an SPD to support the consideration of planning applications for housing in the Borough. It has been considered by the Strategic Planning Board which endorsed the proposed changes and its adoption subject to the consideration of the issues raised/recommendations made by the Board; these are

attached to the report as Appendix C.
