Dear Mr Newsome,

I would like to object to a permanent tree preservation order to be put in force on the beech tree that is on my land (No. 36 Coppice Road, Poynton).

The tree stands 9m away from the front elevation of my house. Many insurance companies recommend the safe distance for this type of tree is advised to be 15m.

This tree reaches out to a distance that very nearly overhangs my roofline & on a windy day the tree obviously reaches further causing concern.

I'm sure you are aware of an incident just a few doors down from my property on Coppice Road, where a large Lime tree split & fell with no warning. There were no strong winds to blame, 25% of the tree fell onto the property & seriously damaged the roof & the car which was parked on the drive. Thankfully nobody was hurt as a result.

I spend a considerable amount of time at the front of my property & i would like to continue to do so without this obvious risk. I feel the health & safety of people in & around my property is of the utmost importance.

This danger is only going to get bigger as time goes by.

i would like to propose the beech tree is pollarded or felled. At least for these options to be open to me. I shall plant a smaller tree such as a maple or rowan for the community to enjoy.

Thank you for reading my appeal.

Best regards

Chris Clarke.
