I am a parent of a child currently in Year 7 at Macclesfield High School. I would like to express my support for the current proposal, ie: closure of the High School, conditional upon the establishment of an Academy. After attending several of the consultation sessions, I was very inspired by the vision the College have for the proposed Academy. The original proposal would have meant that Macclesfield High would have merged with Tytherington, the pupils would have lost their own identity and there was the potential for them/us situation, especially after how the Tytherington parents reacted to the original proposal. This proposal allows the pupils to continue at the same site without too much upheaval, although they will inherit a new name, the pupils will still keep their own identity. Hopefully they will all see this as a new start and strive to be the best school within Macclesfield! Many thanks.
