Site locatiions are as follows:

- Birtles Road, Brookfield Lane, Byron Street/Maple Avenue, Knowsley Road, Laburnum Road/Byrons Lane, Lyme View - Sutton, Park Grove - South Park, Springfield Road and Stamford Road

Employee costs have been calculated based on time allocations provided by officers and are recorded for information purposes. The primary roles carried out include: site inspections, allocation of plots, tenancy letters, maintenance of waiting lists, detailing maintenance records, raising invoices and subsequent queries.

The expenditure budgets above are calculated at 42.5% of the total costs incurred which is considered to be a fair apportionment for the unparished areas.

#### Income:

The Estimate for 12-13 Indoor is based on total occupancy less forecast / Estimated void units (est 10%). The full occupancy position for 2012-13 is £342k and can be split between Rent & Service Charge as follows:

Rent 154,477 Service Chg 187,515 341,992

#### Comments:

The figures above include both the Indoor & Outdoor Markets & 2012-13 Estimate has been split for information. In 2011-12 more accurate coding of employee costs through the core payroll coding has enabled clearer analysis of costs. In 2010-11, electricity costs reflected in the figures above appear somewhat higher than the 11-12 budget or forecast out-turn, this arose due to some energy costs relating to 09-10 being charged out to services in 10-11.

Service Charge - This reflects a proportion of the total service charge payable by CEC for the Grosvenor Centre, the total charge is allocated 2/3rds Markets (indoor), 1/3rd Car Parks. The Service Charge is included in the calculation of the service charge payable by occupiers of the indoor market, but not all the charge is included due to decision by the former Macclesfiled B C to retain a % when the head lessor increased the charge significantly in 2008-09.

Insurance & Building Maintenance - CEC has centralised budgets/expenditure against these cost headings (ie they are not charged directly to services). The figures shown here reflect the budgets that were in place in the legacy account at Macclesfield.

Rents / Service Charges - The income here can be split between the lease rental which is reviewed every 3 years and the Service charge element which is reviewed annually.

In terms of the overall total costs of the Macclesfield Market (including Service Management and Support costs and Depreciation) the position is as follows, Net Operational Budget (£109,230) + SMSS £38,865 + Depreciation

### Comments:

The above figures are based on the conveniences at Churchill Way & Park Green, Macclesfield only.

Employees - the figures above include cleaning costs plus an allocation of the Public Convenience Supervisor who operates across all sites and any overtime incurred re opening/closing facilities. The Supervisor allocation = £4,500.

Premises - Any cleaning material costs will be included in the allocation from the General Public Conveniences code. As will any assumed electricity costs

Insurance & Building Maintenance - CEC has centralised budgets/expenditure against these cost headings (ie they are not charged directly to services). The figures shown here reflect the budgets that were in place in the legacy account at Macclesfield. Re-allocated costs include cleaning materials and equipment not directly coded to specific sites.
