

Application No: 12/3740N

Location: Cedar Court, Corbrook, Audlem, Crewe, CW3 0HF

Proposal: Proposed alterations to Cedar Court to provide a 35 bedroom Nursing Home within the existing building for which planning permission has been granted for a Nursing Home (Ref: 10/4845N and 11/4578N).

Applicant: Morris & Company Limited

Expiry Date: 31-Dec-2012

**SUMMARY RECOMMENDATION:**

- **Approve subject to conditions**

**MAIN ISSUES**

- **Principle of the conversion,**
- **The impact on the character and appearance of the buildings,**
- **Residential amenity**
- **Highway safety.**

## **1. REFERAL**

The application has been referred to southern planning committee because it is a major development, by virtue of the floor area.

## **2. SITE DESCRIPTION AND DETAILS OF PROPOSAL**

The application relates to Corbrook Court at Audlem, which is a former country residence, which has been converted and heavily extended in order to form a nursing home. Planning permission was granted in 2006 for a new-building to the rear of the main house to provide 15 self contained extracare units (known as Cedar Court). This has since been completed. However, the developer is experiencing difficulty in letting the units and therefore planning permission was granted on 14<sup>th</sup> February 2011 for change of use of part of the existing building to provide 12 nursing bedrooms and associated facilities. (Application 10/4845N refers)

A further permission was granted in March 2012 (11/4578N refers) for the change of use of the remainder of the building to provide a further 12 nursing bedrooms. The proposals involved the addition of 2 small windows in the exterior of the building and internal alterations.

Consent was also granted to vary condition 4 of planning permission 10/4845N to remove the age restriction for the nursing home use.

This application is a revised scheme for the change of use of the whole building to provide a 35 bed nursing home.

### **4. PLANNING POLICIES**

#### **National Policy**

National Planning Policy Framework

#### **Local Plan Policy**

NE.2 (Open Countryside)  
BE.1 (Amenity)  
BE.2 (Design Standards)  
BE.3 (Access and Parking)  
TRAN.9 (Car Parking Standards)

### **5. OBSERVATIONS OF CONSULTEES**

#### **Environmental Health**

- No objection to the above application.
- The applicant is advised that they have a duty to adhere to the regulations of Part IIA of the Environmental Protection Act 1990, the Town and Country Planning Act 1990 and the current Building Control Regulations with regards

to contaminated land. If any unforeseen contamination is encountered during the development, the Local Planning Authority (LPA) should be informed immediately. Any investigation / remedial / protective works carried out in relation to this application shall be carried out to agreed timescales and approved by the LPA in writing. The responsibility to ensure the safe development of land affected by contamination rests primarily with the developer.

### **Highways**

No comment received at the time of report preparation.

### **6. VIEWS OF THE PARISH / TOWN COUNCIL:**

No comment received at the time of report preparation.

### **7. OTHER REPRESENTATIONS:**

No other letters of representation have been received.

### **8. APPLICANT'S SUPPORTING INFORMATION:**

None submitted.

### **9. OFFICER APPRAISAL**

#### **Main Issues**

The main issues in the consideration of this application are the acceptability, in principle of the conversion, the impact on the character and appearance of the buildings, residential amenity and highway safety.

#### **Principles of Development**

The proposal involves the change of use of an existing building within the open countryside to a residential use and therefore policy NE 15 is relevant. Policy NE.15 requires the consideration of commercial uses before residential uses will be permitted. Given that the proposed nursing home, will be run on commercial basis, it is considered that there is no conflict with this element of the policy. The other criteria under Policy NE.15, relate to design and highway matters, and are dealt with below.

Policy NE.16 deals with the commercial re-use of existing buildings and states that such proposals will be acceptable subject to a number of criteria. The building is newly constructed and is therefore of substantial, sound and permanent construction. It would not lead to the dispersal of activity on such a scale as to prejudice the vitality of Audlem Village. The nature of the proposed use is such that it will not harm the local environment through the creation of any form of pollution and there will be no form of commercial activity outside

the building. The other criteria are similar to those contained within Policy NE.15, and relate to design and highway matters. As stated above, these are dealt with below.

The need for the nursing bedrooms was demonstrated by supporting information submitted under planning application 10/4845N and the applicant has confirmed that the demand remains in line with that information

In respect of the previous application, the Council's Adult Services Section raised concerns that 43% of current residents are from outside the Cheshire East area and they would not want to see this replicated in any further provision. They have also stated that they would hope that the charges made at the development would be in line with Cheshire East contract price for nursing home accommodation.

Whilst it would be possible to impose conditions or legal agreements to restrict occupancy or prices for accommodation, according to Circular 11/95 in considering whether a condition is necessary authorities should ask themselves whether planning permission would have to be refused if the requirements of that condition were not imposed. Given that there are no policies in the local plan relating to nursing home development, or its occupancy, the conditions are not necessary in order to ensure compliance with the development plan and there would be no grounds to refuse the application were they not imposed. Consequently, the conditions are not considered to be justifiable or necessary within the terms of the 6 tests as set out in the Circular. Similar tests exist in respect of legal agreements.

## **Highways**

The change from extracare, where residents are more able, to nursing accommodation, where closer care is required, will result in an increase in the number of staff by 6FTE. This is considered to be a relatively small increase in staff vehicle movements. Furthermore, due to the greater level of infirmity of nursing home residents, relative to extracare it is unlikely that residents would be able to travel to and from the site independently. Consequently, traffic generation would reduce as a result. It is considered that this would compensate for the increase in staff vehicle movements. Whilst there would also be some traffic created by visitors to nursing home residents, the extracare facility also created visitor traffic.

In the light of the above, and in the absence of any objection from the Strategic Highways Manager, it is not considered that a refusal on highway safety or traffic generation grounds could be sustained.

## **Design**

The only physical alteration to the external appearance of the existing building involves the incorporation of one new timber window to the North West elevation to serve the proposed ground floor admin office and

reception. The windows will match the style of the existing windows and will not adversely affect any part of the existing development. It is therefore considered to be acceptable in design terms.

It will be sited on a part of the elevation, where there are already 2 similar window openings and a door.

### **Amenity**

The nearest neighbouring property is over 100m from the building in question and therefore the proposed conversion or extension would not be harmful to neighbouring amenities with regard to noise, disturbance, overlooking or overshadowing. The proposed alterations to window openings will face towards the existing nursing home building alongside and therefore do not raise any privacy or amenity issues. The new opening will be sited on a part of the elevation, where there are already large window openings. Consequently it will not result in any loss of amenity to the existing residential accommodation within the nursing home complex or surrounding properties.

### **Conditions**

The previous application on the site also sought to vary condition 4 of planning permission 10/4845N which limited the occupancy of the nursing bedrooms granted under the first element of the Cedar Court redevelopment “to persons at or above 55 (fifty five) years of age and the spouse of such a person or a widow or widower of the same”. The developer wanted to make the accommodation available for persons under 55 in need of full time nursing care.

It was agreed that the age of the occupants has no bearing on the impact of the development on the surrounding area in land-use terms.

However, it was considered that some restriction was required to prevent the building from simply becoming a house in multiple occupation which may have amenity and highways implications over and above those generated from a nursing home. For example, if the building were occupied as an HMO by able bodied working people, traffic generation would be significantly greater. The condition was therefore amended to restrict the occupation of the building to “persons in need of full time nursing care and the spouse of such a person or a widow or widower of the same”. It is proposed that the same condition be applied to this revised consent.

### **Conclusion**

The principle of the proposed conversion is considered to be acceptable, and whilst the concerns of the Adult Services Section in respect of occupancy and pricing are noted, there is no conflict with the development plan and as a result conditions or legal agreements could not be justified in this case.

The proposals are considered to be acceptable in terms of design, amenity and highway safety. Having due regard to all other material considerations raised, the proposal is considered to be in accordance with the development plan and accordingly is recommended for approval.

## **10. RECOMMENDATIONS**

**APPROVE subject to conditions:-**

### **Conditions**

- 1 Standard**
  - 2 Reference to plans.**
  - 3 Materials**
  - 4 Occupancy restriction to those in need of full time nursing care.**
-
