APPRAISAL:

Principle of Development

The proposal is for a single storey, rear extension to a dwelling within the settlement boundary for Nantwich which is acceptable in principle providing that the design is appropriate and that the development does not give rise to any detrimental impact on the amenities of adjacent properties.

Amenity

The rear extension is single storey and projects beyond the existing building line by approximately 2.9 metres. It is considered that the proposed development will have no discernible impact on the residential amenities of either neighbouring properties (Plot 2 and No. 4) as the projection and height of the proposed single storey rear conservatory are modest.

The proposed development would be constructed largely of glass and would be single storey therefore there would not be any significant impact on the amenity of any of the surrounding properties as it is considered that the height of the proposed conservatory is acceptable and the existing boundary treatment is sufficient.

The proposed development would not have a detrimental impact upon the dwelling to the rear of the site (45, Gingerbread Lane).

There would be no breach of the 45 degree guideline as outlined in the Extensions and Householder Development SPD. It is not considered this extension would significantly harm any amenity in terms of loss of light or visual intrusion.

Design

With regard to the design of the proposed dwelling Policy BE.2 (Design Standards) states that new development will be permitted where it is sympathetic to the character, appearance and form of the site

and the surrounding area in terms of height, scale, form and grouping of buildings as well the visual, physical and functional relationship with the streetscene and surrounding area.

The property is a newly built modern, two and a half storey detached dwelling and the extension would be constructed largely of glass and, where appropriate, materials to match the existing dwelling. The conservatory would be situated at the rear of the property and would not alter the street scene.

Overall it is considered that the proposed development is will be acceptable in terms of its size, scale and bulk and its relationship with the surrounding dwellings.

Planning Balance

Taking account of Paragraphs 49 and 14 of the NPPF there is a presumption in favour of the development provided that it represents sustainable development unless there are any adverse impacts that *significantly and demonstrably* outweigh the benefits.

The proposal is in within the Settlement Boundary for Nantwich and is in accordance with Policy RES.11 (Improvements and Alterations to Existing Dwellings) and is therefore considered to be acceptable.
