Consideration was given to the above report.

RESOLVED

That for the reasons set out in the report, it was agreed that the second reason for refusal relating to full planning application 14/5579C (Land off Main Road, Goostrey) for residential development comprising of up to 119 dwellings (including a minimum of 30% affordable housing), structural planting and landscaping, informal open space, surface water attenuation, a vehicular access point from Main Road and associated ancillary works, should be amended to read as follows:

The proposal will result in harm to the setting of the Grade II listed building, Swanwick Hall. The harm triggers the “strong presumption” against granting permission as established by the Court of Appeal in the Barnwell Manor case; the public benefits of the proposal when taken as a whole would not rebut this strong presumption. In addition, the harm is considered to amount to “less than substantial harm” as defined in the National Planning Policy Framework. The public benefits of the proposal, when taken as a whole, are not considered to be sufficient to outweigh this harm to the heritage asset. The proposed development is therefore contrary to policy BH4 of the Congleton Borough Local Plan First Review 2005 and national guidance in the NPPF.
