1. Setting the Scene

Drivers for integrated care

- *"A lack of joined up care is one of the biggest frustrations for patients, service users and carers."*
- *"Getting it right will make a huge difference to quality, safety and people's experience of care."* (Jeremy Taylor, CEO National Voices)

3. Impact on local communities

Putting the right integrated care services in place will mean we need to change capacity as there will be:

- A different range of services available in the community
- Not all people who currently go to hospital for care will need to be admitted
- Where people do need hospital care, they will have a shorter length of stay
- Community services will reach into hospital settings

4. Performance Fund

£2.12m

3.5% Reduction in
non elective
admissions
(1,422)

Risk of hospital provider stability if
funding released due to fixed
costs

5. Governance Arrangements

- National quarterly reporting to NHS England
- Health and Wellbeing Board have clear oversight to the delivery of BCF and receive regular updates
- BCF Governance Group set up to monitor the delivery of the BCF plan (including monitoring; delivery and management of risks)
- BCF Governance to work together to review governance arrangements, focusing on:
 - Align with developing governance arrangements
 - Reducing duplication
 - Streamlining decision making
 - Aligning BCF with change/transformation programmes
 - Aligning schemes of delegation where possible
 - Maintain oversight and reporting to the HWB

2016/17 BCF Onwards

- Central Government have confirmed that BCF will continue in 2016/17
- Self assessment guidance has been issued and will be used locally to evaluate the effectiveness of the current plan
- National indication that BCF might be replaced with local health and social care sustainability plans
- Further announcements expected in 2015 Spending Review
