Changes proposed by Independent Remuneration Panel		Implications for Cheshire East	
7	All allowances should be index-linked every year to the NJC officers pay award (see paragraph 4.1 of the IRP's report)	An index can only be applied for a four year period before it needs to be reviewed. The NJC pay award for 2016/2017 is 1%. The first indexation would be applied in line with the following NJC officer award; projections for this and subsequent years would need to be made to ascertain the cost to the budget. Potential increase to the budget	
8	The stipulation that only one SRA can be claimed by any one councillor should be discontinued (except for the leader and deputy leader of the council), and replaced by a maximum of two.	The removal of this rule is likely to result in an increase on the budget. However, the amount by which the budget would increase is difficult to quantify as it is dependent on which members are in post/appointed to an ASDV at any given time. The level of increase could also go up or down if appointments were to change during the course of a financial year.	
9	The fees paid to councillors as directors of WOCs etc. should not (as is the present situation) be taken into account in relation to payment of SRAs, unless this is a legal requirement.	Potential increase to the budget The removal of this rule is likely to result in an increase on the budget. However, the amount by which the budget would increase is difficult to quantify as it is dependent on which members are in post/appointed to an ASDV at any given time. The level of increase could also go up or down if appointments were to change during the course of a financial year. Potentials increase to the budget	
10	The mileage allowance paid to members and officers should be the same*, and should be pitched at the level stipulated as being tax-free by HMRC (currently 45p per mile). An additional 5p per passenger per mile should be payable, if to do so avoids additional claims for mileage allowance being made.	The 2015-2016 Members Allowances Scheme allows members to claim 45p, 46.9p or 52.2p per mile based on engine size and mileage of no more than 8,500 per year. However, members are recommended to claim the HMRC tax free rate of 45p, which some members currently adhere to. Potential savings to the budget	

Summary of proposals - possible savings:

- a) If all the proposals were rejected, there would be no change to the allowances base budget
- b) If recommendations 2 and 4 were adopted, the maximum saving would be £15,960

Summary of proposals - possible increases:

- d) If basic was raised further from £11,754 to £11,941 (by £187), the increase to the budget would be £15,334.
- e) On a current budget of £1,392,386, a 1% increase would equate to £13,923.
