## **APPLICANT'S SUPPORTING INFORMATION:**

The proposal is to deliver a trial, for Cheshire East Council, of advertising sponsorship on 20 roundabouts across Cheshire East.

The application is for a five year period. The trial will initially be for 1 year with a review towards the end of the year as to whether the council wishes to continue the sponsorship scheme.

Advertisers will be approved by Cheshire East council prior to allowing them to sponsor a roundabout to ensure that only appropriate messages will be allowed onto a roundabout. Cheshire East Highways will deliver the safety audit both prior to and after installation to ensure signs are placed at the right point and height on the roundabout.

The signs will be at a height to conform to National Regulations. This is to ensure that road users can see under or over the sign at roundabouts whilst at the same time ensuring that grass / foliage can be maintained.

Highways have confirmed that we do not need 1m clearance at all sites, but we may at some and this will be decided during the highways safety audit. The important thing about the signs is that road users should have an unobstructed view over or under them wherever they are sited and the highways safety audit will deliver this.

## **APPRAISAL**

The National Planning Policy Framework states that advertisements should be subject to control only in the interests of amenity and public safety.

Para 67 of The Framework relates to advertisements and states that:

'Poorly placed advertisements can have a negative impact on the appearance of the built and natural environment. Control over outdoor advertisements should be efficient, effective and simple in concept and operation. Only those advertisements which will clearly have an appreciable impact on a building or on their surroundings should be subject to the local planning authority's detailed assessment. Advertisements should be subject to control only in the interests of amenity and public safety, taking account of cumulative impacts.'

This indicates that the main issues are amenity and public safety

### **Amenity**

The site is situated in the open countryside, but within a proposed strategic site in the Cheshire East Local Plan Strategy (South Cheshire Growth Village). The signs would all be within the existing substantial roundabout and would be non-illuminated. There has been a previous consent for sponsorship signs at the roundabout, and the applicant has agreed to reduce the size ( 600mm x 600mm) sited 1m above ground level.

Given the commercial context and the size of the roundabout, it is considered that there would be no adverse impact on visual amenity.

The proposal is therefore considered to be in compliance with Policies BE1 and BE19 of the adopted local plan.

## **Highway safety**

The Strategic Highways Manager raises no objections to the proposal. The proposed size and location of the signage on the roundabout is acceptable, they do not interfere with visibility. The proposal is therefore considered to be in compliance with Policies BE3 and BE19 of the adopted local plan of the adopted local plan.

## **CONCLUSIONS**

The proposed advertisements are considered to be acceptable and would not have any detrimental impact on the visual amenity of the area. The proposals would not result in any demonstrable harm to the amenity of adjoining properties. The application proposals are therefore considered to be a sustainable form of development. The proposed development is therefore considered to be in compliance with saved policies BE1 Amenity BE2: Design standards, BE3 Access and parking and BE19 (Advertisements and Signs of the Crewe and Nantwich Local Plan and guidance contained within the National Planning Policy Framework (2012).

## **RECOMMENDATION:**

### **Approve subject to following conditions**

Standard advertisement conditions

Signs to be non-illuminated

Posts to be painted black

In accordance with approved plan- signs to be 1m by 600mm
