Observations

I have considered the above notice and wish to object under the licensing objective(s) of:

- **Public safety**
- **Crime & Disorder**
- **Public nuisance**

The proposed event is an unregulated bare knuckle boxing event, ostensibly being held in support of an, as yet, undisclosed charity. The police are concerned that such an unregulated, brutal event combined with several hours consuming alcohol brings with it the likely outcome that people attending this event will become disorderly. Poor access to the event site, combined with a lack of adequate parking and a planned venue which doesn't appear large enough to comfortably accommodate a boxing ring and 400 spectators will all combine to present an unsafe event with too much potential to cause nuisance to the local community and disorder.

There is also concern about the veracity of the premises user and therefore no reliance that the undertakings he offers will actually be delivered, based on previous such events he has promoted.

Consequently the police object to the Temporary Event Notice to prevent the undermining of the three licensing objectives already indicated and I will amplify my concerns to the sub-committee at a hearing.

SIGNED: Inspector Kate Buckingham
