

LICENSING ACT 2003

Environmental Health TEN Consultation Response

Date Received: 30th November 2017

Name of Applicant: Teracina Slaughter-Hudson

Address to which application relates: The White Horse
22 Pillory Street
Nantwich
CW5 5BD

Date of event(s): 22nd December 2017

Observations

I have considered the above application and wish to object under the licensing objective of:

The prevention of public nuisance

This application is for the provision of entertainment in a marquee on the car park of the premises from 7pm until 3am, with live music until 12.30am and a DJ until 3am. The car park backs onto numerous residential properties and there will be very little in terms of sound attenuation offered by the marquee. Hence a potential 8 hours of music until the early hours of the morning, when people will be trying to sleep, is excessive and would fail to meet the licensing objective of the prevention of public nuisance.

It is important to note that Environmental Health have received complaints previously from local residents, about events held at the White Horse and particularly noise from people in the outside area.

Consequently Environmental Health must object to the granting of the Temporary Event Notice under the licensing objective of the prevention of public nuisance.
