<p>Does it include making decisions based on individual characteristics, needs or circumstances?</p>	<p>Each CTS decision is made specifically on the circumstances of the individual claimants.</p>
<p>Are relations between different groups or communities likely to be affected? (eg will it favour one particular group or deny opportunities for others?)</p>	<p>It is unlikely that this scheme will have any affect on relationships between different groups or communities.</p>
<p>Is there any specific targeted action to promote equality? Is there a history of unequal</p>	<p>The scheme will take into account the household income of those applying for support. Each claim is considered based on it's own merits. There is no history of unequal outcomes</p>

Protected characteristics	<p>Is the policy (function etc....) likely to have an adverse impact on any of the groups?</p> <p>Please include evidence (qualitative & quantitative) and consultations</p> <p>List what negative impacts were recorded in Stage 1 (Initial Assessment).</p>	<p>Are there any positive impacts of the policy (function etc....) on any of the groups?</p> <p>Please include evidence (qualitative & quantitative) and consultations</p> <p>List what positive impacts were recorded in Stage 1 (Initial Assessment).</p>	<p>Please rate the impact taking into account any measures already in place to reduce the impacts identified</p> <p>High: Significant potential impact; history of complaints; no mitigating measures in place; need for consultation</p> <p>Medium: Some potential impact; some mitigating measures in place, lack of evidence to show effectiveness of measures</p> <p>Low: Little/no identified impacts; heavily legislation-led; limited public facing aspect</p>	<p>Further action (only an outline needs to be included here. A full action plan can be included at Section 4)</p> <p>Once you have assessed the impact of a policy/service, it is important to identify options and alternatives to reduce or eliminate any negative impact. Options considered could be adapting the policy or service, changing the way in which it is implemented or introducing balancing measures to reduce any negative impact. When considering each option you should think about how it will reduce any negative impact, how it might impact on other groups and how it might impact on relationships between groups and overall issues around community cohesion. You should clearly demonstrate how you have considered various options and the impact of these. You must have a detailed rationale behind decisions and a justification for those alternatives that have not been accepted.</p>
