**Subject:** The Tytherington Club

To whom it may concern,

I would like to make an objection to the proposal to provide an extension of a premises licence for the above Company. I live in the immediate area of the Club and would find this proposal a real infringement to the noise environment and to the likely increase of traffic, vandalism and other dangers associated with outdoor music activities. The Club seem to have used a backhand way for the application, in the middle of a pandemic and not informing the local residents of their actions. I will therefore be writing to our Local MP and putting my views to him personally.
